STEAMER ALESIA HAS MIXED CARGO

Liner Clears for the Orient With a Large Quantity of Flour and Paper.

WHEAT EXPORTS SHORT

Five Cargoes Will Make Up List for May—Lumber Shipments Will Be Fair—Ancaois Fixed for Lumber—Notes of Waterfront.

Flour shipments to the Orient were increased to 79,124 barrels by the clearance of the Portland-Asiatic liner Alesia yesterday. The flour carried on the vessel was furnished entirely by mills in the interior and is valued at $107,677.50. The steamship will leave down for Astoria this morning.

In addition to the foodstuffs on board, the manifest shows 438,922 feet of lumber and general cargo, valued at $35,265. The general cargo consists largely of newspaper in rolls, and machinery, a large portion of which is for mining and milling.

Wheat shipments to date to foreign ports total 464,732 bushels. Three cargoes have been dispatched for orders, one to Dublin district and one to Ipswich. The cargo to the latter port included 107,000 bushels of barley. Foreign exports of foodstuffs will probably end with the clearance of the Alesia. There are two vessels under charter of grain cargoes, but neither will be able to get away before June.

The British ship Ancaios is reported to have been chartered by Balfour, Guthrie & Co. to carry a full cargo of lumber to Europe. It is generally understood among shipping men that the Ancaios will load either here or on the Sound a full cargo of heavy timber. It is understood that Balfour, Guthrie & Co. have had some trouble in making satisfactory terms on lumber exports and have decided to ship for themselves.

ROSE CITY SAILS FOR SOUTH

Passenger Business Falling Off on Coastwise Steamships.

With 200 passengers and a full cargo of freight, the steamship Rose City sailed for San Francisco yesterday morning. At noon the steamship State of California sailed from San Francisco for Portland. The latter vessel is in charge of an entirely new crew, her regular complement of officers and men having been detained at the quarantine grounds in San Francisco harbor. On the last trip down a passenger on the State was taken ill of smallpox and the vessel was ordered to quarantine for 14 days. The ship was fumigated and allowed to depart, but the officers, crew and passengers were held for the prescribed time.

Passenger business between Portland and California points has fallen off to a large extent since the departure of the fleet from San Francisco to Puget Sound. Many people made the southern trip earlier this season than heretofore in order to view the battleships and festivities at San Francisco.

WANT TWO ADDITIONAL BOATS

Open River Transportation Company Will Build on Upper Columbia.

The officials of the Open River Transportation Company have succeeded in raising a sufficient amount of money to construct two first-class stern-wheel steamers for the Upper Columbia River. It is the intention of the company to have the boats ready for operation by the time the new-crop grain is ready to move. The steamers will connect with the J. N. Teal at the portage road and will give shippers as far up as Kennewick a direct connection with Portland.

The J. N. Teal has been operating on the lower river, and the Relief (the only craft on the upper river) has been tied up at Celilo. The Relief is a small vessel and cannot supply a sufficient amount of grain for the Teal. The new vessels will probably be built at Celilo.

Launches Fail to Show Up.

Assistant Inspectors Ames and Welden appeared at the foot of Stark street yesterday morning at 8:30 o'clock for the purpose of inspecting gasoline launches whose owners intend to place them in the passenger service during the Rose Festival. Not a single launch appeared for inspection. The inspectors will be at the same slip on the mornings of Monday and Wednesday. Owners who have no passenger permit will be in a bad way and their boats will be held up.

Marine Notes.

The steamer Breakwater is due today from Coos Bay.

The oil-tank steamship Col. E. L. Drake arrived up last night.

The schooner Mindoro will leave down this morning. She is lumber-laden for San Francisco.

The steamer Kitsap, a Portland product, has been chartered as Government tender to the fleet on Puget Sound.

The steamship Alliance sailed for Coos Bay last night with a large number of passengers and a full cargo of freight.

Arrivals and Departures.

PORTLAND, May 23.—Arrived—Steamship Col. E. L. Drake, from Port Harford, via Seattle. Sailed—Steamship Rose City, for San Francisco; steamship Alliance, for Coos Bay; steamship Johan Poulsen, for San Francisco; steamship Northland, for San Francisco; steamship Washington, for San Francisco; steamship Asuncion, for Point Richmond; steamship W. S. Porter, for Monterey.

Astoria, May 23.—Condition of the bar at 5 P. M., smooth; wind southwest, 4 miles; weather, cloudy. Sailed at 5 A. M.—Steamer Roanoke, for San Francisco. Sailed at 7:15 A. M.—Steamers Olson & Mahoney and Homer, for San Francisco. Arrived at 7:15 A. M. and left up at 1 P. M.—Steamer Col. E. L. Drake, from Seattle. Arrived down at 10:30 and sailed at 11:30 A. M.—Steamer W. S. Porter, for Monterey. Arrived down at 4 A. M.—Steamer Melville Dollar. Arrived down at 3:15 P. M.—Steamer Rose City. Sailed at 6 P. M.—Steamer Rose City, for San Francisco.

San Francisco, May 23.—Arrived at 4 A. M.—Steamer F. S. Loop, from Portland. Sailed at 2 P. M.—Steamers Geo. W. Elder and State of California, for Portland. Arrived at 3 P. M.—Steamer Tiverton, from Portland.

San Pedro, May 23.—Arrived yesterday—Steamer Olympic, from Portland.

Tides at Astoria Sunday.

High.	Low.
8:07 A. M....6.8 feet	2:28 A. M.....2.5 feet
8:36 P. M.....8.1 feet	2:26 P. M.....1.4 feet

Exodus of Foreigners Renewed.

NEW YORK, May 23.—Immigration authorities say that the homeward tide of foreigners is again on the increase. European steamers in the last four days have carried away not less than 16,400 aliens as steerage passengers. The week's total is expected to reach upwards of 17,000.

Statistics show that since October between 475,000 and 500,000 laborers departed and no let up is looked for by the steamship companies for some time to come. The shutting down of factories, suspension of railroads and public improvement work, and the general cessation of business activity that has thrown thousands out of employment are held to be responsible for the movement eastward.

During the first four months of 1907 the total exodus of laborers was 96,731, while for the first four months of this year the figures reached 239,010, an increase of 142,279. During the same period of 1907 there reached here 404,339, while in the same months of this year the arrivals numbered 124,392, a decrease of 279,940.

STEAMER INTELLIGENCE.

Entered Saturday.

Washington, Am. steamship (Nason), with general cargo, from San Francisco.

Cleared Saturday.

Alesia, Ger. steamship (Ernst), with flour, lumber and general cargo, for Hongkong and way.

Washington, Am. steamship (Nason), with ballast, for San Francisco.

Alliance, Am. steamship (Olson), with general cargo, for Coos Bay.

Mindoro, Am. schooner (Larsen), with general cargo, for San Francisco.

Johan Poulsen, Am. steamship (Nilsson), with 350,000 feet of lumber, for San Francisco.

Northland, Am. steamship (Erickson), with 550,000 feet of lumber, for San Francisco.

WILL DETAIL HIS CHARGES

Aubury to Tell Government About California Land-Frauds.

SAN FRANCISCO, May 23.—After a delay of over four years Lewis E. Aubury, State Mineralogist of California, thinks he has an opportunity to prove to the Washington authorities the extent and character of the land frauds in this state. A telegram received from Mr. Aubury says President Roosevelt has arranged for him to have an extended conference in Washington today with Secretary of the Interior James R. Garfield, G. Otis Smith, director of the United States Government Survey; Fred W. Dennett, Assistant Commissioner of the General Land Office, and Gifford Pinchot, chief of the Forestry Bureau.

Aubury went East a couple of weeks ago. He took a lot of documentary proofs with him and his friends are confident he will be able to prove his repeated assertions concerning California land frauds and how agents sent from Washington have made inaccurate reports of their investigations. Aubury contends that over 3,000,000 acres of land have been falsely entered upon in the state and that these lands are worth in excess of $100,000,000. Aubury has stated that more mineral land in the state has been subject to illegal entry by manipulation of scrip than anyone has ever believed.

Lower Duty on Cranberries.

NEW YORK, May 23.—It has been decided by the Board of United States General Appraisers that cranberries packed in casks are dutiable property under the specific provision in the tariff for "cranberries." The importers of the berries objected to the action of the customs authorities in classifying the berries as "fruits preserved in their own juice," with a tax of 1 cent per pound and 35 per cent ad valorem. In reducing the assessment Judge Waite says the berries have not lost their identity and should be returned for duty at 25 per cent as claimed.

Vegetarianism is being encouraged in Italy with a view to accelerating the time when that country will be the market garden of Europe.

SALE IS A FAILURE

Sheepmen Reject Low Bids Made on Wool.

POOR OPENING OF SEASON

Prices Offered at the Arlington Auction Range From 6 1-4 to 8 3-4 Cents—Growers Taken by Surprise—Quality of the Clip.

ARLINGTON, Or., May 23.—(Special.)—That the wool market is weaker than was anticipated, came to light here today, with the first attempted sales of this year's clip. Sheepmen were not at all prepared for the surprise that awaited them when the results of the first bids became known.

Bidding began on a lot containing 21,000 pounds, and the highest bid, 8 cents per pound, was promptly rejected by the owner. Four other lots, aggregating 77,000 pounds, were offered for sale, the offers ranging from 6¼ cents to 8¾ cents a pound. These prices did not appeal very strongly to the growers and received the same fate as the first offer. Buyers seemed to contest with one another in seeing who could make the lowest bid instead of the highest.

The only reasons given for the extremely low prices prevailing are the recent financial disturbance and the extremely dry season with hard winds. The wool is of good quality, but owing to the season, contains considerable dirt. This makes the shrinkage greater and helps to account for the low prices offered.

The growers still remember the high prices of last season and refuse to sell. Some were reminded of the hard times of 1893, and went so far as to compare the present Administration with the Cleveland Administration.

A surprising feature of the bidding, and one that no one seemed able to account for was the great difference in the bids on the same lots, the offers varying from 6¼ cents to 8¾ cents a pound. It appeared that the buyers either did not care to purchase or that there was a great difference in judging values.

The next sale will be held in Pendleton on Monday.

Wool at St. Louis.

ST. LOUIS, May 23.—Wool—Dull; territory and Western mediums, 12@15c; fine mediums, 10@13c; fine, 9@11c.

KILLED BY JACK ROLLERS

Holmes' Display of Money and Jewelry Attracted Them.

CHICAGO, May 23.—The death of Robert C. P. Holmes, purchasing agent for the Commonwealth Edison Company, was not cleared yesterday, but investigation narrowed down to two evenly-balanced theories. One of these theories generally held is that Holmes, after a display of money and his jewelry in several barrooms, was followed by clever, high-class "jack rollers" into the alley off Adams street, leading to the rear entrance of O'Connor's Buffet, in the Republic building. There he was assaulted and robbed. The blow, as a result of his weak physical condition, killed him.

The other theory is that Holmes came to his death as a result of a stroke of apoplexy and a fall, and that his body was robbed later by alley loafers.

The main thing on which the police are depending to start them on a real clue towards Holmes' murderers, is the jewelry that was taken from his body. Descriptions of the missing articles are being printed in circulars which will be sent all over the country.

High-class "jack rollers" are described as being well-dressed men whose trade is to linger in or about barrooms until they "spot" some man with money who is under the influence of drink, then trail him until they get a chance to rob him, perhaps picking up an acquaintance with him and suggesting that the party go somewhere else.

It is known that several men of this type were attracted to the National Electric Convention, on the entertainment committee of which Holmes was the chairman. They knew these delegates would be well supplied with spending money and that their chance would come. They were able by reason of their dress to go about the hotels. A gang of four of these men is being hunted for particularly by the police.

More Gold for Europe.

NEW YORK, May 23.—The National City Bank today engaged $1,300,000 gold for export. This makes a total of $32,155,000 engaged for export on the present movement.

FOR MEN

When we declare that our record in treating diseases of men is a series of splendid successes, we are not boasting nor making any false pretenses. We are merely stating facts which are known to be true by many men whom we have recently cured and made happy. What we have done for others we can do for you. Come to our office and let us explain to you our strictly modern method of treatment. You will then understand why our cures are safe, rapid and permanent, and why we are successful in so many cases that have resisted the treatment of other physicians.

20 Years of Success in Treating Men. If in Trouble Consult Us Today

CURES GUARANTEED OR NO PAY

Our physicians are all licensed to practice medicine in the State of Oregon.

MEN NEED SPECIAL TREATMENT

Diseases of men have become so complicated that the usual treatments have proven unsatisfactory. This has called for higher class services, demanding the specialist for these diseases. We have made special study and have treated and cured men for many years. We have cured thousands who have failed to find relief elsewhere. We do not care how complicated your case may be. We cure the acute or first stages. We cure the chronic stages. We cure the most obstinate cases to be found.

MISTAKES OF MEN

Our special purpose is to save the thousands of young and middle-aged men whose systems are diseased, or whose nervous systems are on the verge of ruin, from the destroying effects of disease which undermine and bring to ruin the strongest constitutions and completely unman men, reducing them to a state of abject misery, with mind impaired, physical strength gone, weakened and wasted away.

VARICOCELE CURED IN ONE WEEK

Many men have been treated for varicocele by the common methods used and have hoped that nature would assist in re-establishing a natural condition, but not one, to my knowledge, has had his hope realized. Failure is sure to follow such methods as local applications, medicines, appliances, caustics and innumerable methods advanced by unreliable pretenders. Let me bring you FACE TO FACE with some of my cured patients.

WHY SUFFER LONGER?

WE TREAT MEN ONLY, AND CURE PROMPTLY, SAFELY AND THOROUGHLY AND AT THE LOWEST COST, VARICOCELE, HYDROCELE, VITAL WEAKNESS, BLOOD AND SKIN DISEASES, KIDNEY AND BLADDER DISORDERS, ULCERS, SORES, PAINFUL SWELLINGS, BURNING, ITCHING AND INFLAMMATION, NERVOUSNESS, LOSS OF STRENGTH AND VITALITY AND ALL SPECIAL AND DELICATE DISORDERS OF MEN.

Our fees as specialists for cures are less than those charged by family physicians or surgeons. Medicines furnished from our own laboratory for the convenience and privacy of our patients, from $1.50 to $6.50 a course. If you cannot call, write for our free self-examination blank and book. You can be cured at home.

BLOOD DISEASES

If you have sore throat, mucous patches, pimples, copper-colored spots, sores and ulcers, bone pains, falling hair or any other symptoms of this disease, you should consult us and be forever rid of it. Our treatment cleanses and eradicates every taint and every impurity of the blood and system. All danger of transmission or recurrence is removed. Why take poisonous drugs for years when a thorough cure can be obtained without. Consult us at once.

CONTRACTED DISEASES

A permanent cure is the only cure. This can be obtained only by thorough local treatment, properly given. No after effects follow, such as Stricture, Ulcerations, deep-seated Inflammation and Bladder Troubles. Most cases cured in ten days.

NERVOUS DEBILITY

Our cure for weak men removes all the ill-effects of former follies and dissipation, stops every loss and drain of vigor, makes the nerves strong and steady, enriches the blood, invigorates the wasted pelvic organs, and most important of all, restores the wasted power of manhood. Avoid temporary stimulants. Seek a lasting cure.

Hours, 9 A. M. to 5 P. M. Evenings, 7 to 8. Sundays, 10 A. M. to 12 M. only.

THE AFFLICTED WILL FIND IT TO THEIR ADVANTAGE TO CONSULT US. EXAMINATION AND CONSULTATION FREE AND INVITED

NEW TURN TO APARTMENTS

MODERN CONVENIENCES REQUIRED BY RENTERS.

Increase in Number of "Community" Homes Caused by Scarcity of Dwellings.

Urgent demand for dwellings in Portland has had a wonderfully stimulating effect on building of flats and apartment-houses. In the last issue of the city directory 34 apartment-houses were listed. That list was made up to December, and from that time until the present 44 permits have been issued for others, making the total 78. In other words, the number of apartment-houses erected in the last five months and a half exceed by 10 the number listed in December of 1907.

Probably in no class of buildings erected in Portland is there greater advancement made than in modernizing styles in apartment-houses. Where a few years ago a family would accept almost any sort of so-called conveniences, that is no longer the case. Apartments in the present era must provide not only the conveniences and requisites, but the luxuries of housekeeping, if they are to attract the better class of tenants.

Of the 34 apartment-houses listed as in existence in December, not over 10 are built of brick or concrete, the balance being frame. Of those erected since that time a larger proportion are of the more substantial materials. In point of cost of the new buildings out of a total of $194,300 invested in apartments there are four which cost for construction over $15,000 each, and the rest average in cost about $5000 each.

An apartment-house to be considered up-to-date, among other conveniences must have heat, electric lighting, gas, range, hot and cold water, telephones, janitor service, private "lift" to basement for receiving stores, private baths, compressed air carpet cleaners, refuse tubes, and, in the larger houses, main entrance attendants.

The time is approaching when Portland will have several apartment-houses of large dimensions and of strictly modern appointments similar to those found in the principal Eastern cities. As it is now, there are a number having the conveniences enumerated above, but investors have not as yet undertaken the erection of piles running up into the hundreds of thousands of dollars. In Chicago, for instance, apartments are rented at $300 to $500 a month in the principal apartment-houses, but several years will elapse before such luxurious "homes" will meet with a paying demand in this part of the country. A gradual improvement is noticeable, however, in the class of apartment-houses in Portland, and suites renting up to $75 a month are not unusual.

STOCK MARKET IS WEAK

Government's Suit Against New Haven Road Demoralizes Trading.

NEW YORK, May 23.—Demoralization accompanied by unrestrained selling of securities caused today's stock market to be the weakest since the panic last Fall. The professed motive for most of the selling was the inference drawn from the Government's suit against the New Haven Railroad for violation of the anti-trust law. All semblance of support disappeared from the market. Union Pacific slumped 6¼; St. Paul and Southern Pacific 5; Reading 4; Illinois Central 4¼; Northern Pacific 3⅝; Missouri Pacific and St. Louis & Southwestern preferred 3½, and the general list all the way from one to two points. Some feverish rallies showed the eagerness of the bears to take profits on the short side, but the closing tone of the market was demoralized.

STREET EXPERT LECTURES

R. H. THOMSON, OF SEATTLE, COMES JUNE 11.

Illustrated Address on Plans for Improving Cities Arranged For by Realty Board.

James O. Rountree, secretary of the Realty Board, announces that the preliminary arrangements for the lecture of R. H. Thomson, City Engineer of Seattle, have been made. Mr. Thomson will appear before the board and all citizens who are interested in street improvement work at the Empire theater, Twelfth and Morrison streets, Thursday night, June 11, at 8 o'clock.

Mr. Thomson is considered one of the best authorities in the country on street work and has given much study to the matter of having the work done on the district plan of assessment. He will be accompanied by an assistant and will illustrate his lecture with stereopticon views.

Isadore Lang, who made an examination of street improvement on a recent trip through Eastern cities, will preside at the meeting and will have something to say on the subject of street work. The East Side Push Clubs will attend in a large representation, those organizations having discussed paving and kindred subjects at several meetings called for the purpose.

The Realty Board considers itself fortunate in securing the attendance of the Ssattle expert for the occasion, and as the subject is one in which all progressive citizens are interested, the officers of the board express the hope that a large attendance will greet the famous engineer.

GIVE RUEF A SECOND TRIAL

Another Parkside Indictment to Be Brought Up.

SAN FRANCISCO, May 23.—District Attorney Langdon, his assistant, Francis J. Heney, and Detective William J. Burns held a consultation today to arrange for again bringing Abraham Ruef to trial. It is expected that another indictment in the Parkside matter will be chosen for the next attempt to secure a conviction for bribery of Supervisors. The case will probably be called and set for trial in Judge Dunne's court on Monday. Judge Dooling, who presided at the trial just ended, has gone to the Yosemite Valley, to preside over the Grand Parlor of the Native Sons, of which he is grand president.

MAY BE ALREADY WEDDED

Report Renewed of Secret Marriage of Anna Gould and Helie.

NEW YORK, May 23.—The report that Prince Helie de Sagan and Mme. Anna Gould were married in Hoboken, N. J., before they sailed for Europe on separate steamers last April was revived today. According to the report current today, the Prince and Mme. Gould were married at Myers Hotel in Hoboken the night before the Prince sailed. No record of the marriage was ever made, but though the laws of New Jersey require persons having the power to perform marriage ceremonies to file a copy of the certificate within 30 days, no penalty attaches to failure to comply with the rule.

REAL CURES FOR MEN

The physician who has devoted the greater portion of his life to a careful study of these special diseases—who has learned by years of successful practice the cause, the character and the cure of these obstinate and intricate maladies of man—is far better able to effect a speedy, perfect and permanent cure than is the general practitioner who meets them but seldom. We promise only what we can fulfill; we accept no case we cannot cure; we offer free consultation, examination and advice, and if you are responsible we will wait until you are cured before we ask for our pay, which is at all times reasonable. Come in and have a confidential talk with us; it will cost you nothing and may be of untold benefit to you. Our sympathy and our aid are yours, and we will treat you as a brother and as a man.

WE CURE MEN FOR $10.00 NO PAY UNLESS CURED

This well-known and reliable curative institution is a permanent fixture of Portland. It has stood the test of time and will continue to stand as a Mecca of hope for afflicted men hereabouts. From time to time it has been remodeled in all its departments, which are thoroughly equipped with every scientific instrument, apparatus and device essential to our modern methods of specialty practice. Its financial responsibility is as solid as gold, while the treatment it administers, as legions of its cured patients know, is skillful, scientific and successful. We invite all afflicted men who desire a cure to inspect our offices, and to honestly investigate us. A private consultation, a careful personal examination, together with a scientific and honest opinion of your case, will cost you nothing; and a perfect cure, if you decide to take it, will not be more than you will be willing to pay for the benefits conferred. We cure all special diseases of men.

WHY WE CURE where others fail: Our methods are up to date. We thoroughly understand our business and apply our knowledge and skill on every case we undertake. We fulfill our promises and never accept a case unless we believe we can cure it. We study the peculiar nature of every individual case and treat the causes, not symptoms. We teach our patients how to help get well—what to eat and drink during the course of treatment and what to avoid. As to terms: Our large practice enables us to cure for less money than the average so-called **specialists**—and you see the results before you are required to pay us. Honest, conscientious work speaks for itself. Pretenders, jealous of our success, try to belittle us **because our fee is small**, but intelligent men are not influenced by their arguments. We ask any man suffering from any disease we treat to call and see us. Many cases supposedly incurable are often the result of poor treatment, and the case is cured when methods such as we employ are directed toward the cause, and with care and proper attention to your case now your health may be prolonged indefinitely. This alone should be incentive enough to induce you to try **once more**, no matter who has failed to cure you in the past.

WRITE IF YOU CANNOT CALL. Office Hours, 9 A. M. to 8:30 P. M. Sundays, 9 to 12 M.

ST. LOUIS MEDICAL AND SURGICAL DISPENSARY

CORNER SECOND AND YAMHILL STREETS, PORTLAND, OREGON.

WEAK MEN CURED

My methods are original with me, and are the result of many years' experience in medical practice. I effect a cure in every case I take for treatment, because my treatment is adjusted to the needs of each patient with scientific precision. I leave nothing to guesswork. I KNOW when I begin treating a patient that I will perform a complete and permanent CURE. Such a cure by my treatment is just as certain as that two and two make four.

I claim that nothing less than complete eradication of the disease from the system is a real cure. I treat to completely remove the disease and not merely the symptoms. I drive out every root and fiber of the ailment and effect a cure that will make you strong and vigorous for a lifetime.

The cures I effect are the result of my thorough knowledge of every phase of the disease I treat and to the fact that I apply individual treatment to each case. In every instance I know the ailment and I know the cure for it. The fact that I agree to wait for my fee until you are cured is proof of my confidence in my ability to cure in every case. Some physicians assert that certain diseases of men are incurable. I deny that, and stand ready to PROVE that by my methods there is no disease peculiar to men that cannot be cured.

DR. TAYLOR, The Leading Specialist.

You Can Pay Me When You Are Cured

VARICOCELE.

Under my treatment the most aggravated cases of varicocele are cured in a few days' time. There is no pain, and it is seldom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout all the organs and their natural processes of waste and repair are again established. If you are afflicted with varicocele consult me at once. Delay can bring on aggravated conditions and nervous complications and involve the general health.

No other physician employs a like treatment, and so thorough is my work that there need not be the slightest fear of a relapse into old conditions.

MY EXPERIENCE

Twenty-five years of successful practice in Men's Diseases enable me to apply the proper methods and medicines. I treat Varicocele, Hydrocele, Contracted Disorders, Specific Blood Poison, Piles and Stricture—restoring all affected organs to normal and healthy action in the shortest possible space of time.

FREE CONSULTATION.

To judge my ability without personal consultation may be an injustice to yourself that will cost a lifetime of suffering. Consultation is free and confidential and you place yourself under no obligation to me whatever by coming to talk with me about your case.

SPECIFIC BLOOD POISON.

Others dose the system with mineral poisons scarcely less dangerous than the disease itself. The best they hope to do by this treatment is to keep the disease from manifesting its presence upon the surface of the body. Under my treatment the entire system is cleansed. The last taint of virus is destroyed. Every symptom vanishes to appear no more. I employ harmless, blood-cleansing remedies heretofore unknown in the treatment of this disease. They cure by neutralizing and absolutely destroying the poison in the system. Such cures cannot be other than complete and permanent.

STRICTURE.

My treatment for stricture removes the necessity for surgical operations even in severe cases of long standing. I do no cutting nor dieting. No other physician employs my methods of overcoming this disorder, so the service I offer you is original and distinctive. Do not give up hope because others have failed. I will cure you and the cure will be a prompt and painless one. My treatment dissolves the stricture, subdues all inflammation, relieves all irritation or congestion that may exist in the kidneys or bladder, reduces enlargement of the prostate gland and restores health and tone in all organs affected by the disease.

All medicines are prepared in my own private laboratory and are absolutely fresh and pure.

MY FEE IS $10

In Any Uncomplicated Disorder

CONTRACTED DISORDERS.

To but partially cure a contracted disease is almost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed the probability exists that the disease will gradually work its way into the general system. Still greater is the danger of the prostate gland becoming chronically inflamed, which always brings partial or complete loss of power. Perhaps 25 per cent of the cases of so-called "weakness" are a direct result of some improperly treated contracted disease. During the past five years I have treated thousands of cases of contracted disorders and have effected an absolutely thorough and safe cure in each instance.

MY COLORED CHART

of the male anatomy will be found both interesting and instructive. Free at office.

If you cannot call, write for diagnosis blank.

OFFICE HOURS, 9 A. M. to 9 P. M., SUNDAYS 9 TO 12 ONLY.
