## Gompers Bitterly Attacks Congressmen for Not Passing Bills Demanded.

### VOTE ONLY FOR FRIENDS

#### President of Federation Says Speaker Is Admitted to Hold House in Iron Grip and Only Represents Interests.

NEW YORK, May 30.—(Special.)—Samuel Gompers, president of the American Federation of Labor, has made an appeal to organized labor throughout the country to vote against Congressmen who have voted against legislation which would give the workers a voice in their own government. In his statement to the workers, he says: "Mass meetings were held all over the country, from April 19 to May 1. They attracted an immense amount of public attention, for at these gatherings the workers and their friends voiced in most emphatic terms their protest against the indifference of Congress, which for lack of an amendment to the Sherman anti-trust law, which could readily be passed, permits the trusts to be classed as trusts and liable to punishment as such. Elect Only Labor's Friends.

"No member of Congress can complain that he is in ignorance of the desires of his constituents or that he has failed to receive warning that labor and its friends intend to elect only those who have promoted and voted for the legislation demanded. Japan had no such warning, and the domination of our general 'Uncle Joe' Cannon, it is impossible to get these bills before the House. They assert that he holds the House in an iron grip; that he will not allow a bill to come to a vote if he does not wish to do so; that no matter how sincere their desire to pass these bills Uncle Joe will not give them a chance.

### Under Uncle Joe's Tyranny.

"What a humiliating confession from the members of our highest legislative body held fast in the iron grip of one irresponsible man, subject entirely to his whim. Who is responsible for 'Uncle Joe's' Caesarian except the Congressmen who elected him to the speakership and who permitted him to impose upon them a set of rules which makes him such an absolute master of the House that members might as well go home and let the Speaker record what legislation he wishes passed? "Nor must we forget that this irresponsible tyrant is not content with his personal whims alone. Ah! no; he represents the powerful 'interests' who, with the docile consent of the majority of the House, have placed him there and aided him in imposing his autocratic rule upon the House."

Williams, of Portland, delivered the Memorial address. (Continued from First Page.) last moment. The largest English balloon was Polack's Valkyrie, of 1288 cubic meters. There was an exciting incident at the start of the race, the Belgian balloon Emulation de Nord striking a tree in the grounds. The pilot, Albert Combes, instantly threw over his ballast and succeeded in clearing the obstruction, but his car took with it two huge branches of the tree. The aeronaut pluckily continued the race. The winner was the Valkyrie, which made the descent very easily about 300 yards from the winning post. Griffiths Brewer's Lotus, also a British representative, finished second. The third prize has not yet been decided.

### WRIGHT BROTHERS CONFIDENT

#### Americans Not Worried by Record Flight of De La Grange.

PARIS, May 30.—Willbur Wright, one of the Wright brothers, the American aeronauts, was informed today that Leon De La Grange, the French aeronaut, had succeeded in flying 15,750 metres at Rome. He manifested considerable interest in the performance and said: "We are not worried. We have already tripled the distance made by M. De La Grange this morning. Our confidence in our leadership rests upon the essential difference between our machine and those used in Europe. We have a practical aeroplane capable of flying on the wind." Mr. Wright then proceeded to explain that the problem of equilibrium had been solved by himself and his brother by the

application of Melloid principles which enabled them by a twist of the surface of the planes to resist their machines against the wind. On the other hand, he said, all the European machines thus far had stationary planes. Commenting upon the description of the Wright aeroplane recently published in the newspapers, Mr. Wright expressed the opinion that his brother was not responsible for many statements placed in his mouth. "The dimensions given are inaccurate," he said, "and it is palpable they were obtained from the patent-office specifications, which, in some respects, are deliberately misleading."

Continuing, Mr. Wright said the advantage of having two persons in the machine for military purposes was that one could take observations while the other handled the mechanism. He thought it would be six weeks before his demonstrations would begin. French aeronauts are intensely interested in the prospect of a series of demonstrations with the Wright aeroplane in France.

#### New York Paper Declares Magistrate Donated \$20,000 to Political Fund.

NEW YORK, May 30.—According to a report printed here today, Thomas F. Ryan contributed \$20,000 to a fund to support a campaign in Nebraska in the Fall of 1904, having for its principal object the election of William J. Bryan as United States Senator. It was stated in this report that Mr. Ryan gave his check to William F. Sheehan and that Mr. Sheehan gave other checks for the amount to T. S. Allen, who was the chairman of the state central committee of Nebraska, and who is said to have been in New York at the time. It is asserted that contributors of this fund expected Mr. Bryan would, after this contribution, give unequalled support to the candidacy of Alton B. Parker, the Democratic candidate for President, and that Mr. Ryan would "let up in his attack on the financiers who were backing the campaign."

# BRING BOYCOTT ACROSS PACIFIC

## Chinese of San Francisco Organize for Campaign Against Japanese.

### AID BRETHREN AT HOME

#### National Disgrace Association is Formed to Carry On Fight in the Cities of Coast and Elsewhere in the United States.

SAN FRANCISCO, May 30.—The merchants of the local Chinese colony met today and organized for the purpose of assisting their brethren in their boycott of Japanese goods. The campaign will be carried on from here and carried into all the big cities of the Pacific Coast and then into the Eastern commercial centers. The San Francisco Chinese were spurred to action by a series of personal letters from the Orient, in which they were appealed to as patriots to demand for their country the respect that is accorded others. The advice contained the information that the National Disgrace Association had been formed by the Chinese merchants in Canton. Every member pledges himself not to buy Japanese goods and not to ship any merchandise in Japanese ships. The women of China are assisting the men and have formed a number of clubs through which they will render loyal aid.

From Australia and the Straits settlements comes word that the boycott is so effectively organized there that the trade of the Japanese men has suffered to the extent of more than \$1,000,000.

## MISS PORTLAND SHAKES THE BIG PRICE BOYS

IT ISN'T SO VERY LONG AGO SINCE PORTLAND FURNITURE BUYERS had Hobson's choice. They could buy from either of the Big Price Boys—or go without furniture. The time was ripe for revolt. Therefore we were opportunists. Although we opened our store in the midst of the panic and notwithstanding the fact that we located on the East Side, people flocked to our store in droves. Our business grew by leaps and bounds. Never before had the public been able to buy high-class furniture at such reasonable figures and we made an immediate hit, and also HIT THE BIG PRICE BOYS AWFULLY HARD. Really they did not know what had struck them at first—a cyclone or an avalanche—it came so suddenly. But it was an awful awakening—the realization that they no longer had things all their own way. Of course, they will always have customers who are indifferent to prices, but all judicious buyers are coming to our store. They know prices are based on expenses and they can easily answer the question if—
