Shipments From Oregon to Date Are 140,000 Bales.

SUPPLIES RUNNING LOW

About 12,000 Bales of Old and New Hops Remain in Growers' Hands. Coming Crop Is Estimated at 100,000 Bales.

Since the beginning of the crop year, shipments of Oregon hops have aggregated 139,485 bales. A feature of the movement has been the comparatively heavy shipment in April and May, months that are usually light. Should hops go forward only half as fast in the remaining three months, the state will be entirely cleaned up of all

The shipments from the opening of the season, September 1, to June 1, fol-

May		7,909
may	***************	
Total		139,485

Of the total shipments, about 10,000 bales were of the 1906 crop and the remainder 1907's.

Dealers' lists of unsold holdings, revised last night, show 7390 bales of 1997 hops and 4700 bales of olds in growers' hands. About 12,300 bales of olds have been sold in the current sea-son, of which 2300 bales are in specu-lators' hands and remain stored in Oregon warchouses. The statistics, as given above, would indicate a total crop in Oregon in 1907 of about 137,000

The general estimate of the coming crop made by local dealers is 100,000 bales. This figure is based on the present aspect of the yards, and takes into consideration the plowed-up acreage and the yards in which cultivation has been neglected. Some hop men are pre-dicting that the vines will not produce over 80,000 bales this year, but this estimate seems too low. The state last year grew at least 160,000 bales, al-though the depressed market at pick-ing time prevented the full crop being harvested. It is not likely that even with the abandoned and neglected yards the growth on the vines will be only the growth on the vines will be only half what it was last year, and a crop of 100,000 bales is a more reasonable estimate. Should the state produce this nany hops, it does not follow that they will all be put in the bale. This is a matter that will be governed at picking time by the market price of hops, by the ease of money and by the quality

The hop crop of Oregon for the past

# STRAWBERRIES COME BY LATE TRAIN

The holiday spirit that prevailed in the past week had the effect of un-settling business somewhat. While the demand for fruits and other kinds of produce was, of course, increased, be-cause of the large number of visitors in the city, the movement in other

in the city, the movement in other lines was very slow.

Hardly any business was reported in the grain markets during the week. Wheat quotations were lowered 102c in sympathy with the decline in Eastern and foreign markets. Flour holds steady at the previous prices and feed of all kinds continues strong.

# Slow Demand for Country Produce.

Country produce was slow yesterday. Arrivals of poultry were light, but with what was carried over from Fri-day proved sufficient for retailers re-quirements. Prices were unchanged. Eggs were steady at the former quo-

Butter cleans up well on steady local buying and a good shipping demand, and prices are generally firm.

STRAWBERRIES COME BY LATE TRAIN

Unexpected Arrivel From Springbrook Has to Be Sacrificed.

The strawberry market was in good shape in the forenoon, but weakened later because of unexpected arrivals. A large shipment of Springbrook berries came in on the 11 o'clock train and as the trade did not know they were coming, could not place them readily, and sales were made as low as \$3 per crate. This was the price quoted in the morning on local berries, of which there was a good supply, while Hood Rivers sold at \$3.75.64. Most other fruits, especially apricots and cherries, moved well. Some Maydukes came in from Medford, and being poorly packed, were disposed of at 30 cents to \$1 per box.

A fair quantity of canteloupes arrived, but, though lower, they did not go readily. Specials were quoted at \$1.75 and pony crates at \$3.50. There was a strong demand for bananas, of which the supply was light. A shipment of peaches was received from the South and brought \$1.50.02 per box.

Light Stock Trading Shows Lack of Speculation.

FEELING OF UNCERTAINTY

Due to Approach of National Political Conventions-Union Pacific Leader of the Market-Reassuring Crop Returns.

NEW YORK, June 6,—The scanty dealings the stock market today showed that specu-tive interest was decidedly less active than lative interest was decidedly less active than in the immediate past. The approach of the period of the National conventions of the great political parties is an influence in this direction. Particular interest attaches to the nature of the platforms to be formulated by the conventions. The market showed itself unresponsive to suggestions of possible developments in the political field that might prove unsettling to values of securities. The undertone was firm to strong and substantial progress was made toward the repair of some of the mid-week losses in prices.

Union Pacific continued the dominant leader of the market. The evidence of effective

of the market. The evidence of effective support for that stock suppressed the in-clination of the bear element to attack values and there was an almost total subsidence of and there was an almost total subsidence of any pressure to liquidate. The postposement until next week of the public offering of the new Union Pacific bonds, subscribed for by bankers, has opened a field for conjecture among professional operators whether the re-cent aggressive support of that atock is to be carried over into the period of the dis-tribution to investors of the company's bonds. Some published settimates of the coming wheat crop, giving a flattering promise of the yield, made a sustaining influence or stocks. So also did the tone of the commercial reviews of the mercantile agencies, reorting a more cheerful feeling in various ness of trade. Prices continued to rise with out meeting any offerings sufficient to check the advance, and the market closed strong, in spite of the duliness. The bank statement did not disclose the

expected gain in cash and the discrepancy was only part made up by the \$3,500,000 gain of the trust companies and other banks. The week's credit demands also centered on the trust companies, the clearing-house bank loans contracting considerably.

Bonde were firm. Total sales, par value, \$1,242,000. United States 2s have advanced by per cent on call during the week.

CLEARING-HOUSE STATEMENT SHOWS DECREASED SURPLUS.

Inflow of Money to the Metropolis Benefits Only the Outside Institutions.

NEW YORK, June 6 .- The Financier will suy;
Instead of a gain of about \$10,000,000 in cash, which had been expected as a result of the week's operations, the statement of the Associated Banks of New York City, issued Saturday, shows a gain of only \$1.716,000, based on actual conditions, and a decrease of \$1.538,900 in cash, based on average conditions.

As Government deposits in the banks remained almost stationary at \$19.548,600, it is difficult to account for the small gain in cash holdings, since the gain from the interior for the week was heavy. Partial ex-

in cash holdings, since the gain from the interior for the week was heavy. Partial explanation may be found, however, in the summary of state banks and trust companies in Greater New York not reporting to the New York Clearing-House, these institutions having shown a gain of \$1,500,000 in cash for the week. The Associated Banks, taking the statement of actual conditions as a basis, decreased their ionns \$7,082,700 for the week, while deposits fell \$5,183,500. The gain in cash reported, together with the decrease in reserve requirements owing to the decreased dposits, accounted for the increase in reserve of \$8,012,775. The actual surplus reserve now accounted for the increase in reserve of \$3.012.775. The actual surplus reserve now stands at \$49.273.72M, or 20.29 per cent of all deposits, including those of the Gov-ernment. The state banks and trust companies, particularly the latter, show im-portant gains which overshadow those of the clearing-house banks. The loans of these outside institutions rose during the week \$14,458,500, while their

net deposits increased \$10,881,900, this in-crease being due probably to operations connected with important bond syndicate deals. The trust companies evidently are adding to their cash holdings, which by iaw must be increased another 5 per cent by

The statement of average condition of the clearing-house banks for the week shows that the banks hold \$47,192,200 more than the required amount. This is a decrease of \$717,800 in the proportionate cash reserve

E. C. MASON, COMMERCIAL CLUB MANAGER, IN PORTLAND.

Says His City Is Using Every Means to Become Prominent and Tells of Its Location.

CHICAGO. June 6.—The wheat market opened weak because of the generally favorable weather conditions, and after a hrief raily brought about by the covering of shorts, prices declined again and weakened until the close. The weather reports showed general and heavy rains in the Canadian Northwest, a moderate rainfall with high temperature in the Spring wheat states in this country and little or no rain in the harvesting sections. This was considered as being ideal on all sides for the growing crops. The holiday season in England and in the continental markets on Monday, it was believed, would further weaken the export demand. The market closed weak July opened & 54 to 10 km/s lower at \$75.0 to \$75.0, sold between \$65.0 and \$85.0 and closed at \$70.

The corn market was irregular. The lack of demand in the cash corn market was a hearish factor. July closed at \$75.0.

The oats market was irregular and corn, although the September option was fairly well supported on the soft spots. July closed at \$75.0.

The provisions market was dull all day. The market was inclined to be steady im. E. C. Mason, of Lewiston, Idaho, men ager of the Lewiston Commercial Club, npanied by his wife, is at the Portland Hotel. Mr. Mason is in Portland for the purpose of inspecting the wood pavements in use here. Mr. Mason has recently visited Vancouver, B. C., Seattle and Tacoma for the same purpose. The results of this investigation are expected to determine to a large extent the char-

acter of pavements soon to be installed in Lewiston. Mr. Mason assumed the position of manager of the Lewiston organization last February.

"I found a peculiar state of affairs when I went to Lewiston in February last" said Mr. Mason vasteriay. "The when I went to Lewiston in February last," said Mr. Mason yesterday. "The people wanted to make the most of the city that they possibly could, and there was plenty of money to undertake such a scheme of development, but they lacked initiative and training in the methods of publicity. They are determined to make a progressive city. A municipal water system costing \$250,000 was recently completed and a sewerage system costing an pleted and a sewerage system costing an equal amount is nearing completion. Street pavements to cost \$300,000 have been authorized and by December 1 we expect to have all of the business district paved with wood blocks. Comparisons are now being made of the wood blocks treated with carbolineum and with creo-sote. As soon as the decision has been made as to the better method, work will

immediately be begun.
"Lewiston is interested in everything that concerns Portland, because we real ize that we must depend upon Portland to a large extent for our own advancement. The system of advertising being done here is being closely followed by us. "It is conceded by the smaller towns of the Inland Empire that Lewiston is the natural geographical and commercial cen-ter of that region and they are therefore co-operating in a most gratifying manner in the work of development being carried on. The business men of Lewiston realize that in order to grow they must help to develop the smaller towns in the vicinity. "Lewiston is going to be a city of 25,000 inhabitants within the next five years. Its leastion at the invention of the Sauko Its location at the junction of the Snake barely steady.

Wheat-Receipts 14,000 bushels; steady. No. 2 red. \$1 elevator and \$1.01 f. o. b. affoat; No. 1 Duluth, \$1.14% f. o. b. affoat; No. 2 hard Winter, \$1.061, f. o b affoat, Wheat was steady today, being affected by the strength of corn and moderate covering of shorts.

Final prices were unchanged. July closed at \$6c and September at \$35c.

Supplies More Convicts Than Any County Except Multnomah.

SALEM, Or., June 6.—(Special.)— Sheriff Blakeley, of Umatilia County, to-day brought to the peritentiary the 50th prisoner sent here from his county in the last 18 months. Though Umatilla County has only a small fraction of the number of inhabitants that Multnomah County has, yet the Eastern Oregon county has sent to the penitentiary in the last Is month almost as many convicts as have come from Multnomah. Multnomah leads by only two.

In this connection it is worth while to note that during the period mentioned

five counties sent no prisoners to the penitentiary. These are Benton, Curry, Gilliam, Lincoln and Polk. The first four of these have been "dry" counties. The following statement shows the num-ber of convicts received from each of the

countles since January 1, 1507; Baker ..... 21 Linn ..... 3 Multnomah

OREGON AGRICULTURAL COL-LEGE, Corvallis, June 6.—(Special.)— There is much indignation on the campus on account of the theft by some one at the Salem railroad station yesterday of a monogram displayed on yesterday of a monogram displayed on the locomotive of the student excur-sion train, en route to the Portland rose show. The monogram was com-posed of the letters O. A. C., and was fashloned of wood by the mechanical students. It was seven feet high, and the wood was wrapped with orange bunting, the college colors. It was a handsome piece and occupied a prophandsome piece, and occupied a prom-inent place on one of the two locomo-tives that pulled the 15 coaches in the college excursion train. At Salem somebody stole the monogram, and the work of the three or four days de-voted to fashioning the piece was lost.

## FAMOUS NURSE MARRIES Miss Frances M. West Becomes Wife of Illinois Man.

CHICAGO, June 6.-Many Chicagoans went to Sanwich today to be present at the marriage of Miss Frances M. West and Isaac Francis Hatcher, of Morris, Ill., which was solemnized at the home of Dr. and Mrs. G. Sheridan

BONDS FRANK ROBERTSON, Failing Bldg., Cor. 3d and Washington Sts.

private nursing, war nursing, or in the wreck of the Royal Blue, considerable

The Royal Blue was on its way from Chicago to Washington when, in the middle of the night, it crashed into a freight train on an open switch at Car-bon. On board were Senator Dolliver, of Iowa; Congressman Feeley and Senator Hopkins, o. Hilnois, and a large group

of well-known men.

When found, Miss West was beneath the engine caring for the passenger engineer and binding up wounds, by which immediate attention the life of the man was saved. The nurse passed from one injured man to the next, working rapidly
