TO BE SUCCESSFUL you must use your eyes. When they fall your power to do effective work lessens. Right glasses at the right time make up for such defects and give the overstrained muscles a chance to recuperate.

YOUR HEADACHES caused by eye defects won't be remedied by headache powders or tablets. The latter quiet the nerves, but in most cases leave a bad after-effect. Properly fitted glasses alone will do the work and give permanent relief. In other words, they insure you against eye strain.

Dr. Pratt, in charge of our Optical Department, has made the eye a specialty for 20 years. Our methods and appliances are modern. No glasses work here. We know when glasses fit and are absolute guarantees.
