BROOKLYN KINDERGARTEN CLASSES' SUCCESSFUL YEAR

Enterprise Maintained by Mothers' and Teachers' Club Does Effective Work, and Its Continuation Next Season Is Being Arranged For.

GROUP OF BROOKLYN KINDERGARTEN CHILDREN, WITH THEIR TEACHER.

UNDER the direction of the Mothers' and Teachers' Club, the kindergarten conducted in the Brooklyn School has just closed another year successfully. It has not been easy to maintain this department, but owing to the determination of this club to make a practical demonstration of the usefulness of kindergarten methods in preparing children for the primary grades, it has been carried through two years without cost to the taxpayers. Expenses have been met by a nominal charge of \$1 per month for each child, by donations from persons interested and by entertainments.

One teacher has been employed, Miss Jone Townsend, but the monthly fee has hardly paid her, and other sources have been drawn on. The Women's Club made a handsome cash subscription of \$50 during the past year, and subscriptions for support of the department have been received from various other sources. Cost of fitting up the room occupied by the department and of the furniture was carried also by the club. It has been a labor of love throughout the year. Many of the women have given much of their time and study to the maintenance of this department. Mrs. J. A. Strowbridge, has been a tower of strength and encouragement through some trying ordeals and without whom the kindergarten might not have prospered. She gave the little tots outings in her automobile and otherwise, and was fortunate in taking some pictures of the children in some very interesting and characteristic attitudes. The principal of Brooklyn School, Miss A. L. Dimick, is a firm believer in the kindergarten and the establishing of the one at Brooklyn School was due to her efforts.

In order to set forth the merits of the kindergarten methods, speakers from the club have addressed during the year other civic organizations of the city. Already results entirely satisfactory have been obtained in the community surrounding the Brooklyn School. A more favorable attitude of public opinion has been developed. Measures have already been adopted to continue the department next year. In order to meet current expenses, subscription papers are being circulated in the community. People are being asked to subscribe \$1 a month toward the maintenance of the school. It is thought that a great many will be willing to give this much toward the cause. A considerable number of families desire to send their children, but even the \$1 monthly charge, where there are several in the family, is too much of a tax, and yet these are the people who will receive the greatest benefit from the kindergarten system. The Mothers' and Teachers' Club of the Brooklyn School hopes and expects in the course of time to see the kindergarten department made a part of the public school system.

Catches Monster Dolly Varden.
While fishing in the McKenzie River,

about 30 miles above Eugene, last week, Rubie Montgomery hooked and landed a Dolly Varden trout that weighed 23 pounds and measured 34 inches from tip to tip. He only succeeded in landing it after a battle of one hour and 30 minutes. The fish was caught with a light fly rod and a trout spoon. It was sent to Lucky & Anderson, of this city, and was on display in the window of a local gun store yesterday afternoon.

Japan Encourages Mining.
TOKYO, June 20.—Changes made in the government mining regulations are considered extremely generous, especially to foreigners. In future all mining machinery will be admitted free of duty. The export duty on copper has been abolished.

Small Boy's Long Journey.
NEW YORK, June 20.—Completing a lonely 7000-mile trip from Sioux, Rousita, a 2-year-old Leib Alter, traveling

under his own care, arrived here on the Prinz Frederick Wilhelm. He will depart within the next few days for Des Moines, Ia., where he will join his father, who has been in this country for two years. Young Alter is being cared for while in New York by the Hebrew Sheltering House. Unless the officials of the home are able to find some person going west, the boy will be compelled to finish his journey alone.

Soldiers Kill Four Yaquis.
MEXICO CITY, June 20.—The Yaqui war has begun in earnest, and American and Mexican troops are pursuing the Indians as before the recent futile peace arrangements were arranged. In a battle which occurred at the town of Buena Vista, near Canton del Mordosta, in the State of Chihuahua, four Indians were killed yesterday and several wounded. The soldiers had one man wounded. The troops were aided in their fight by the townspeople of Buena Vista.
