## Work of the Institute Club of the People's Institute

What is Being Accomplished Among the Poor of the North End and How It is Being Done.

SO KEEN and wide-spread is the interest aroused by the enthusiastic little people who, after their busy year of study and work in the school, are enjoying such happy hours of fun and frolic in the "Toy Shop" in preparation for presentation Monday, Tuesday and Wednesday at the Hellig, that many people are inquiring "What is the People's Institute?" and "What is the Institute Club, for the benefit of which this opera is to be given?" Briefly:

The Institute Club is an organization whose membership consists of some 250 women of this city who are united for the purpose of conducting non-sectarian social settlement work, the object of which is to extend educational, industrial, social, religious and friendly aid to the women and children within its reach. The work of the club is located in the building known as the People's Institute, at the corner of Fourth and Burnside streets, in the midst of the district recognized as the North End. The club was organized November 11, 1904, by the ladies of the First Presbyterian Church, but its phenomenal growth has since placed it upon a non-sectarian basis. The members of the executive board of the club are: Mrs. Helen Ladd Corbett, president; Mrs. T. B. Wilcox, vice-president; Mrs. J. G. Gaud, secretary; Mrs. William MacKenzie, treasurer; Mrs. C. E. Ladd, chairman of the department of educational and industrial classes for boys and girls, including a free kindergarten, sewing school, kitchen garden, house-keepers' class, cooking school, gymnasium, basket work and other hand work, story hour, union Sunday school, boys' brigade, also the maintenance and supervision of public play grounds, where classes are conducted; boys' club and baseball league, girls' club, young women's club, mothers' club,

and the progeny of poverty included intemperance, immorality, crime and a host of lesser evils. The sad but inevitable truth is apparent that the children of these homes are bound to grow up into the same class unless help from some source is offered to them.

In most cities this class is largely made up of foreigners. And when we know that each 12 months is bringing to our country 1,000,000 of these people we begin to realize the responsibility which rests upon every church, every institution and every individual to lend their aid in providing for them just these things which we have adopted as the aim and object of our work here, namely:

educational, industrial, social, religious and friendly aid.

It becomes a home missionary work of the first magnitude. Aside from the general needs which every city presents, the immediate neighborhood in which the People's Institute is located, has its own special needs, which are the result of the wretched environment of the children who live there.

This district is made up of rooming-houses of all kinds (even the very lowest), saloons, restaurants and stores of various kinds. The families are located in these rooming-houses, above or behind the saloons, or occupy one or two dark rooms behind the restaurants and stores.

The evil influences which necessarily surround the children on every side are apparent.

"What is settlement work?"

It is seeking to lessen the pains and burdens of life among the toilers and strugglers and a reaching out after the children of poverty and want. It is the standing beside the lonely and ignorant with the hand of friendship extended. It is the giving of self with a heart of love. The preaching of Christ through the sympathetic word, the kindly deed, the thoughtful act. It is the application of a practical Christianity, a Christianity which the world at large can understand, and is ready to welcome. Visitors are

always welcome at the People's Institute, where observation of the actual work will furnish a much more adequate understanding than written words could possibly convey.

VALENTINE PRICHARD.

Engineering Club Has 35 Members.

UNIVERSITY OF OREGON, Eugene, Or., June 19.—(Special.)—The year just closing has been the most successful in the history of the engineering club. Thirty new members were secured, and the club enrollment now numbers 35, all members belong to the three upper classes; Class standing above freshmen being required for membership. Twelve members of the university faculty are honorary members.

The Star Brewery's famous Hop God beer is unexcelled in all respects and is highly recommended for its strength and health-giving qualities. Orders for bottled beer receive prompt attention. Phone East 6, Home phone B146.

There are plants so sensitive that if, when standing by them, one should suddenly put up an umbrella or sunshade, it would cause them instantly to close together their leaflets and turn down their leaf stalks.

## More About the 500 Club

ALSO A LITTLE HISTORY—APPLICATIONS COMING IN DAILY BY MAIL FROM ALL PARTS, FIFTEEN BEING RECEIVED YESTERDAY.

Club Members Pay \$292 Instead of \$425, Besides Eilers Piano House Do Not Collect from Widows and Orphans of Club Members. Call at the Store for Particulars or Write at Once for Booklet—An Invitation to Participate in Wholesale Buying.

THE TIME TO JOIN IS NOW. The books of the "Eilers 500 Piano Club" were opened to the public Monday morning, same being announced in last Sunday's papers, and from the way applicants for membership have been coming in it will take only a short time to fill the club, especially as all the principal Eilers Stores will be proportioned their share of the piano.

The club room was crowded yesterday the greater part of the day—parents who were in need of an instrument for the home were anxious to see the club piano, and in each and every case the piano was pronounced an instrument worthy of everything we have claimed for it—and even more.

Fifteen applications came yesterday—four orders from the country were received, and nearly a score requests for the booklet were sent in.

The booklet is a very great co-operative plan, with all its advantages to club members. (The booklets are in press—will be mailed this week.)

INVIARIBLY SECURES DECISION! When the test for genuine goodness and piano value is made by an unbiased and competent person the decision is invariably given to the New Scale \$425 Eilers—a piano that cannot be equaled elsewhere for much less than double the club price of \$292.

To sum it all up, we have waited—planned and experimented, sparing no expense—for years to bring out this piano, to excel all other \$425 pianos, and we are each now in saying that we have succeeded.

CAREFUL PLANNING AND PROGRESS. Nearly five years ago, in a real estate news item to be exact, on January 21, 1904—"The Oregonian" said: "The southeast quarter block at Thirteenth and Northrup streets, has been bought by Eilers Piano House. On this property a three-story brick building will be erected, a large, three-story frame structure now on the ground will be moved over to the north side of the lot and devoted to factory purposes. Experimental work toward building pianos has been carried on by this firm at the present warehouse at Thirteenth and Marshall streets, and the new factory will be completely equipped for the manufacture of the 'Eilers piano.'"

Thus the Eilers piano has developed into an instrument that we can point to with personal pride and say to any one—and especially the most critical musician—there is our greatest effort to give more than a dollar's value for every dollar invested. Criticize it—examine it carefully, give its action the most severe test, judge its purity, singing tone quality—in fact, find one weak point. This criticism we ask of all.

We have in the New Scale \$425 Eilers Club Piano an instrument that

is as near perfect as money and brains can produce and the cost under our club plan is within the reach of all. You and 499 others join in wholesale buying. In fact, now, no home need be without a piano. Simply come to the store, join the 500 club, which by the way, starts to Portland only about 180 of this number, pay \$17 when you join, then you can pay the balance—either \$2 weekly, or \$3 monthly, or \$25 quarterly, or you can pay \$67 when you join and balance in one and two years. No discount for cash except saving of interest.

WE WILL PAY \$1000.00 for an idea that will improve the New Scale \$425 Eilers piano—materially without materially increasing its cost beyond a reasonable amount that most customers care to pay. Every dollar that goes into the construction of the New Scale \$425 Eilers Club Piano is accounted for in honest workmanship and material—it is built by men who know how.

And now comes another evidence of Eilers progressiveness, FREE LIFE INSURANCE TO CLUB MEMBERS.

so that Eilers Club pianos will always remain in the home. In case of death of parent or member of family joining the club, a receipt in full will be presented to the club members' family—without the payment of another dollar, on proof of death and presentation of our duly authorized certificate for payments, made when due and according to agreement—provided contract has been in force not less than six months. We do not ask for health certificates—hence the six months' waiting period. We do not ask for a fair and liberal proposition? One that will cause many a home to be bereft of its greatest influence of music that might have been deprived of this pleasure and happiness for years to come, except for this great saving opportunity.

MOST SOUGHT AFTER OF ALL. We are proud to say—to truthfully state—that today the New Scale \$425 Eilers Club Piano is the most sought after of any piano in the Northwest—and on merit alone—it's the best \$125 value we know of, and now for a limited time, and it won't be for long, you can earn for yourself just \$125 by getting into the club now forming. If at a distance, write at once—before you lay aside this paper—for Booklet—a invitation to join in wholesale buying. It's free for the asking and a postal will bring it—everything is explained in the booklet. A call at the store, if in the city, will repay you for your trouble, and you can make a little over \$4.43 a minute for 30 minutes of your time. Eilers Piano House, 255 Washington St., Portland, Ore.

P. S.—First edition of booklet is now in print and will be mailed on the 22nd—send request in time, if at a distance or out of the city.

## SPEAKING OF GLAND EXTRACTS

Gland Extracts Properly Prepared and Prescribed Understandingly Do Such Wonders as Described Here Below.

VAN VLECK found them, and extracts them, and sells you the extracts which will cure you of most any chronic or nervous disease. Below are two pictures of a Portland girl that speak for themselves. Investigate this particular case.

Miss Aurita Payson.—At Beginning of Treatment. Tuberculosis of the Bowels and Lungs.

Miss Aurita Payson.—After Using the Gland Extracts Three Months.

Charles H. Van Vleck, Portland, Or.: Dear Sir—I wish to thank both yourself and your representatives in this city for your persistent effort in persuading me to try your Gland Remedy for my six-year-old daughter, Aurita, who had been sick for ten months, as a result of Typhoid Fever, terminating in a tubercular condition of both lungs and bowels, and who was reduced to a mere skeleton and unable to stand on her feet for the past nine months, and for whom we entertained no hope of recovery.

We commenced giving her your remedy six weeks ago yesterday. In three weeks she was walking about the house unaided, and she is now playing out of doors every day, eating heartily, taking on flesh rapidly and just getting along fine.

We can only voice the words of all of our friends who have noted her condition throughout, "It is a wonderful remedy." Respectfully yours,

Our physician will diagnose your case and give you the proper extracts for your particular disease. No charge for consultation. If you cannot come to our office, write for literature, which is free.
