"We left Denver on May 23 for our home at Chehalis, and had no intention of making any record, being simply out for pleasure. By the middle of the coming week the full list of premiums to be offered for the first livestock exhibition of the Pacific National meet, which will be held in Portland the week of September 21-%, will be completed. The work of proper classification and division of the cash prizes and trophies which livestock men have offered for special "group" and "herd" and general exhibits has proven a severe task upon the officials of the association having this part of the work in hand, for the renam that a more comprehensive array of exhibits and a more full list of premiums to be offered for the prehensive array of exhibits and a mor emplete representation in all division

what has served to complicate matters is the fact that the entries will not closs until about September 15, or six days before the opening of the livestock show, together with the fact that up to the present time more than 20 towns in Oregon, and many in Washington, Idaho, California, British Columbia, Montana, Wyoming, Nevada and the East have planned to send exhibits here, as well as to other points where shows are to be held in the Fall.

This has been crought about by a sys-
