SHERIDAN AGAIN
WINS MUCH GLORY

American Beats Records and Gains First Place Throwing Discus.

BRITONS FAR IN ADVANCE

Score First Place in Several Big Events in Olympic Games—Eisele Gets Place Against Very Heavy Handicap.

LONDON, July 18.—If every day on which the Olympic games are held were only Saturday, there would be some chance of their proving a success from the point of view of attendance. Londoners showed today that, given the opportunity, they will give support, no matter what weather conditions are, although every person who journeyed to the Stadium this afternoon might have made the excuse that it was too wet to go anywhere. The two great grandstands at either end of the stadium, the admission to which is fixed at a shilling, were completely filled with a crowd similar to that which attends football matches on half holidays. The covered stands where the seats are reserved also held a much larger number than on any other previous day, while the royal box, too, was occupied by a large party, including the Queen, who took a keen interest in the Danish athletes; Princess Victoria and the Crown Prince of Sweden, who, by the way, have been present every day since the opening, and the children of the Prince of Wales, who were interested followers of the sports.

Rain Pours Down on Athletes.

The weather, however, was no respecter of persons. It was cloudy and dull all morning during the progress of the archery and fencing contests, but toward noon the sky cleared and it looked as though the afternoon would be fine. Instead, it was one of the worst days experienced in the week. The rain came down in torrents with few intervals and the officials had repeatedly to stop the sports going on in the arena. The cyclists and runners were the only ones who ignored the wetting and continued their races, but they were forced to call a halt in their contest for half an hour as the judges were unable to do their work properly.

English Allow One Protest.

So far as the Americans were concerned, the day passed off without any unpleasant incidents such as that connected with the tug-of-war yesterday, while the Canadians had one of the grievances rectified, the officials of the Cyclists' Union at the last moment allowing Young, one of the Canadian riders, to start in the 100-kilometer race, for which they declared yesterday that he did not qualify. It was proved beyond dispute that this disqualification was the result of a mistake by an official, who placed the Canadian one lap behind where he belonged. France's protest also in the cycling race was added to by another today. Schiller protested Jones, the winner of the 500-meter event. Schiller claimed a foul, but the protest was not allowed.

Britons Outclass All Others.

In the matter of scoring the United Kingdom completely outclassed the other countries, her athletes adding seven wins to their already good scores. These included the archery contests, the 3200-meter steeplechase, the 200-meter breast-stroke swimming, 5000-meter cycling, the 100-kilometer cycling, the tug-of-war and the five-mile flat race. The only two other events decided, the discus-throwing, Greek style, and the fancy diving, went to America, with Jones, respectively, but America accomplished two things today of which her supporters are extremely proud.

Discus Record Twice Broken.

In the first place Martin J. Sheridan, of the Irish-American Club, broke all previous records with the discus at this style of throwing, making a distance of 128 feet, 8 inches, while M. F. Horr, of the same club, was second, also with a record-breaking throw of 122 feet, 3 1/2 inches.

The other accomplishment, of which all the athletes were talking, was the success of J. L. Eisele, of the New York Athletic Club, in getting place in the 3200-meter steeplechase. America never had any idea of scoring in this event, particularly since Eisele had run three of the hardest races during the week. He was the only American who competed with the Englishmen in the distance runs, and each race he had to fight against odds, being handicapped on one occasion by having several Englishmen pitted against him. Further, he had suffered greatly with an injured foot.

There were four of the United Kingdom team—Russell, Robertson, Holloway and Sewell—in this event, in addition to Eisele and Galbraith, the last named representing Canada. The Englishmen took turns in trying to wear down the two others and succeeded, in doing so with Galbraith, but Eisele held on despite a nasty fall at the water jump in the first lap and managed to annex third place well up.

During this race the final of the 200 meters breast stroke swim was pulled off and again the United Kingdom triumphed, taking both first and second places. The third went to Germany.

Cheers for Stars and Stripes.

Then the Stars and Stripes went to the masthead proclaiming the victory of the Americans in the discus throw. The flag got a rousing cheer and when Sheridan and Horr walked out into the arena they were given an ovation by the American contingent, which was again present in large numbers. In the preliminary heats of the fancy diving Germany took first and second places. All the other finals went to the United Kingdom, Jones doing the trick in the 5000-meter event, with France in both second and third places. In the tug-of-war, the three police teams of the London, Liverpool and Metropolitan forces, respectively, gathered in the gold, silver and bronze medals. Bartlett added the 100-kilometer bicycle race to his country's score, and Voight closed a most successful day for the United Kingdom by taking the five-mile in fine style.

ted Kingdom by taking the five-mile in fine style.

In the five-mile event Voight and Owen, of the United Kingdom, Svanberg, of Sweden, and Hebron, of South Africa, made up a little section of their own and went off to the front, leaving the others, among whom was the American, Ballars, strung all along the track. Voight, when he came to the last lap, ran away from the others. He crossed the tape 40 yards ahead of his team-mate, Owen, with Svanberg about the same distance behind the second man.

After a good deal of urging, the Amateur Athletic Association tonight allowed Matthew P. Halpin, manager of the American team, to see the drawings for the sprints and hurdles which are to be run off Monday. Except that in the drawings for heats in the 500-meter race Melvin Sheppard, of the Irish-American Athletic Club, and J. P. Halstead, of the New York Athletic Club, are drawn against one another in one heat, and J. B. Romlow, Irish-American Athletic Club, and H. P. Ramey, Chicago Athletic Association, are against each other in another heat, the results are not unfavorable to the Americans. But the American team suffered a severe loss today when W. C. Robbins, of Cambridge, Mass., had to start home, owing to his father's death. He was one of the best hurdlers, and had improved wonderfully in his training in England.

Summary of Results.

Throwing discus, Greek style, final—M. F. Sheridan, Irish-American A. C., first, M. P. Horr, Irish-American A. C., second, United Kingdom, first; Robertson, United Kingdom, second; J. L. Eisele, New York A. C., third. Time, 10:45.5.
Swimming, breast stroke, 200 meters—Holman, United Kingdom, first; Robinson, United Kingdom, second; Hansen, Sweden, third. Time, 3:09.3.5.
Cycling race, 5000 meters, final—Jones, United Kingdom, first; Schiller, France, second; Alfrey, France, third. Time, 8:30.1-5.
Cycling race, 100 kilometers, final—Hartley, United Kingdom, first; C. A. Denny, United Kingdom, second; Lapine, France, third. Time, 2:04:48.3-5.
Flat race, five miles, final—Voight, United Kingdom, first; Owen, United Kingdom, second; Svanberg, Sweden, third. Time, 21:14.4.
Fancy diving, final—Turner, Germany, first; Hebron, Germany, second; Galdisio, Chicago A. C. and Wals, Germany, tie for third.
Ladies' archery, final—Miss Newell, first; Miss Dodd, second; Miss Hillrose, third; all United Kingdom.
Gentlemen's archery, final—Dodd, United Kingdom, first; Brooks King, United Kingdom, second; J. B. Richardson, United Kingdom, third.

FLOOD STATE WITH JAPS

COMBINE TO EVADE CONTRACT LABOR LAW.

Stock Company Formed in Tacoma to Colonize Fruit-Growing Section of Oregon and Washington.

TACOMA, Wash., July 18.—(Special.)—The United Industrial & Commercial Company, capitalized for \$1,000,000, with H. C. Kumamoto, a local Japanese contractor, James B. Churchill and Nugent Kanta, as principals, stock holders, and directors, organized and Federal immigration officials are investigating to see if it is a scheme to flood Washington and Oregon with Japanese coolies. It is proposed to establish colonies in the Puget Sound and Yakima valleys and in Oregon to raise fruit and vegetables. In a conversation with a prospective buyer, Kumamoto, the principal promoter of the company, practically admitted that the company was formed to evade the contract labor law, and that many Japanese would be brought to this country as shareholders. So elaborate is the scheme, and so well planned as to make it possible to evade the strictest immigration laws.

ALL QUIET IN ALABAMA

Many Striking Coal Miners Are Placed Under Arrest.

BIRMINGHAM, Ala., July 18.—Reports from the miners' strike district today were that everything was quiet. The three military companies which were to be kept at Blossburg a day or two, a galling gun and 10,000 rounds of cartridges were sent to Blossburg today. Sheriff Higdon, with a company of cavalry, went to Birmingham looking for the removal of the entire squadron of the cavalry of the state, now in camp at Montgomery to Birmingham. Another company of militia was ordered under arms here today for emergency. All miners arrested are being sent here for safekeeping. A number of strike breakers were brought to Birmingham today for distribution. Major Dodge, the labor superintendent of the Tennessee Coal Company, who was wounded in the fight at Jefferson yesterday, will recover.

DEAD WITH HEAD GASHED

Watchman at Borax Works Murdered by Gaspipe Thug.

OAKLAND, July 18.—Henry Bangs, 45 years old, a watchman employed by the Pacific Coast Borax Works of Alameda, was found dead in the yard of that plant today. A piece of gaspipe found under the body, a number of deep gashes on his head and evidences of a struggle led the police to entertain the theory of his having been murdered. There is a trail of blood leading from the engine room and the man's money and watch were gone. Bangs was unmarried. He was the only man about the place at night and was last seen alive on Friday night about 7 o'clock.

Eight Injured In Wreck.

CHICAGO, July 18.—Eight persons were severely injured and several others suffered minor injuries in an accident on the Jackson Park branch of the South Side Elevated Railroad, at Stony Island avenue and Sixty-third street, today. A train of three cars crashed against the bumpers at the terminus of the road, tearing loose the front trucks of the motor car, and allowing the car to slide over the bumpers for about 10 feet. Catherine Jasmeck, 17 years of age, was most seriously hurt. Her lower jaw was broken and her head, face and body cut and bruised. The accident is believed to have been caused by the failure of the brakes.

Takes an English Bride.

LONDON, July 18.—Dr. William Power of New York was married today in the Church of Our Lady of Victory to Miss Esther Redmond, daughter of John E. Redmond, the Nationalist leader. Many members of Parliament were present. Dr. James Power was best man and Mr. Redmond gave away his daughter.
