

PORTLAND PARTY ON MUIR GLACIER

Passengers on Steamship Spokane Are First to Be Landed There.

GLACIER BAY CLEAR OF ICE

During the Past Nine Years Muir Glacier Has Been Seen Only at Intervals—Steamer Goes Close In.

Passengers of the steamship Spokane, who have returned from an excursion to Alaska, had the honor of being the first people ever set ashore on Muir Glacier in Glacier Bay, Southeast Alaska.

Frank C. Savage, one of the Portland people on board the Spokane, is enthusiastic over the trip and the history made in connection with the landing on Muir Glacier.

"Captain Thomas was as much delighted as any of the passengers. I learned that only three times within the last nine years has a vessel been able to get within sight of this famous glacier.

Portland was represented on the Spokane by 23 people. They were: Mr. and Mrs. Frank C. Savage, C. Henri Labbe, Mrs. A. M. Labbe, Dr. A. S. Nichols, C. Nichols, Miss Nichols, Miss Edith Gaddis, Major and Mrs. W. P. Gould, Mr. and Mrs. R. Weeks, Miss K. Ramsdell, Miss Ella Stephens, Mrs. Robb Tucker, Mrs. U. A. Wynn, Miss C. Kamm, Harland Tucker, Mr. and Mrs. W. R. Rudge, Mrs. H. E. Noble, Mrs. I. D. Peters, Miss Mildred Nichols, Miss E. D. Savage.

J. H. Dewson Returns to Portland. James H. Dewson, formerly agent of the Portland & Astoria Steamship Company and the San Francisco & Portland Steamship Company in Portland, has returned to the city from New York.

Rose City Takes the Limit. Nearly 150 people who desired to take passage for San Francisco on the steamer Rose City yesterday morning were disappointed.

Takes Lumber Cargo South. ASTORIA, Or., July 18.—(Special.)—The steamer schooner Yosemite cleared at the Custom House today.

Big Increase in Beach Traffic. Beach traffic opened with a rush yesterday. The steamer T. J. Potter carried the largest number of the season, and she would have taken more if those who desired to stay over Sunday could have secured sleeping accommodations for the return trip.

Ship Oregon on Overdue List. Reinsurance at 5 per cent is being offered on the German ship Oregon, 137 days out from Barry with coal for Callao.

Marine Notes. The steamship City of Panama is due to arrive in Portland this evening from Coos Bay.

city waterfront and filling in the tide flats. The measure provides for the appointment of what shall be known as "The Sanitary and Reclamation Commission of the City of Astoria," consisting of nine members, whose names have not yet been selected.

At the election in December, 1914, a new commission shall be elected and shall consist of two members from each of the four wards, and one commissioner at large. The proposed measure empowers the commission to let contracts for building the bulkhead and filling in the tide flats.

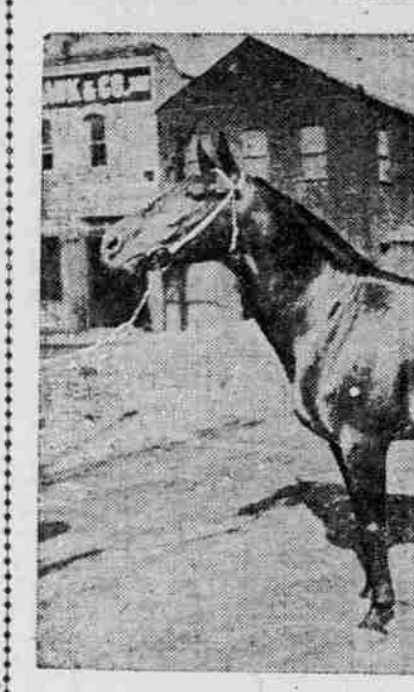

The cost of the bulkhead is to be paid by general taxation and the commission is authorized to issue \$300,000 in 40-year bonds, drawing not to exceed 5 per cent interest, and to levy a tax of not exceeding 5 mills to pay the principal and interest. The expense of filling in the tide flats is to be defrayed by assessments upon the property directly benefited.

BODY TORN BY DYNAMITE

Colfax Man Makes Desperate Attempt at Suicide.

COLFAX, Wash., July 18.—(Special.)—A man named Cophy was found Friday in a wheat field near Rock Lake after he had made several attempts to end his life by dynamite caps.

BUYS HALF-BROTHER OF LOU DILLON

CHARLES D. RAY, OF ST. PAUL, OR., PURCHASES LORD DILLON

Lord Dillon, half-brother of the famous Lou Dillon, has just been purchased and brought to Oregon by Charles D. Ray, of St. Paul, Or. Lord Dillon is the son of Sidney Dillon, and was bought by Mr. Ray from James B. Smith, of Pasadena, a well-known California stockman.

Mr. Ray is now 5 years old and Mr. Ray declines to announce his whereabouts at which he was purchased. With him Mr. Ray secured Bill Hanson, a trotter with a record of 2:17 1/2, and both horses were brought to Portland on the steamer Rose City. They will be taken to Mr. Ray's ranch at St. Paul.

had made several attempts to end his life by dynamite caps. It is presumed that he lay down on a number of caps and then set them off. His body in the region of the stomach is blown full of small holes and his face and head are badly lacerated. Sheriff Bathie brought Cophy to St. Ignatius Hospital at Colfax. A letter from Ed Cophy, Aberdeen, S. D., was found in his pocket. Dr. Stult, City Physician, stated Cophy had little chance for recovery.

WILL RESIST EXTRADITION

John Klopstock, Accused of Forgery, Refuses to Go Back to Michigan.

BELLINGHAM, Wash., July 18.—Sheriff Mathews, of Mount Clemens, Mich., arrived today for John Klopstock, formerly Treasurer of that city, who is charged with forgery. Klopstock has been under arrest here for some days. He has employed lawyers, and will fight extradition. The alleged forgeries were committed in December, 1905, and not brought to light until very recently. Klopstock has been a resident of this city for two years, and when leaving Michigan made no effort to cover his tracks, so that the Eastern officials had no difficulty in locating him.

SHOT IN ABDOMEN FATAL

W. D. Chaffee Meets With Accident While Surveying Near Payette.

PAYETTE, Idaho, July 18.—Late last evening, while out with a surveying crew, W. D. Chaffee, a brother-in-law of the Honorable Mahan, of Oshkosh, Wis., was accidentally shot in the abdomen with a 22-caliber revolver. A phone message this morning from Boise, where he was taken last night, says the physicians have no hopes of saving his life.

HOT SALT BATHS.

Hot and cold showers, bathing suits and dressing rooms for surf bathers. Hotel Moore, Seaside, Or.

WILL RECLAIM TIDELANDS

Astoria Prepares to Expend \$300,000 in Waterfront Improvements.

ASTORIA, Or., July 18.—(Special.)—The charter committee of the City Council has prepared the draft of the proposed amendment to provide for the construction of a bulkhead along the entire Irrigard, for Honolulu.

BIG GRAFT PLANNED

Scheme to Assemble Dissolute Women in Certain Districts.

ANNUAL REVENUE \$100,000

Ring Attempts to Force Mayor's Hand—Petition From North End Merchants Will Go Before Council Wednesday.

From a high official source, it was learned yesterday that an organized ring, composed of men with powerful influence, exists here, and that it has for its principal object the execution of a well-formed plan to compel Mayor Lane to assemble the dissolute women of the city in a prescribed district for the purpose of a gigantic graft. Great interest centers about the subject at this time because of a large petition, directed to the Mayor

HINTS AT GRAVE DANGER

Kaiser Speaks in Riddles at Yacht Club Dinner.

BERLIN, July 18.—(Special.)—Emperor William made an interesting speech on Tuesday at a dinner of the North German Yacht Club. Dealing with the government proposals for the reform of imperial finances, the Emperor assured his hearers that the Chancellor's antecedents were a guarantee of the soundness of the scheme, and that they might rely fully on his right-hand man, Herr Sydow. He did not reveal the contemplated measures, but if we were allowed to guess, we would little, those of you who are unmarried might perhaps catch sight of a tax on widowers. But this is not certain.

He compared the situation in Hamburg to "the pressure of a friendly hand to a man who resolutely pursues his way without hesitation, and who knows that he has somebody behind him who will stand him and who is willing to help him."

The few papers which have commented on the speech bring the closing portion of it into connection with the remarks of his majesty at Doberitz, and infer from it a further warning as to the seriousness of the general political situation.

HIS MASK IS TORN AWAY

Amiable Old Parisian Proves to Be King of Bunco Men.

PARIS, July 18.—(Special.)—Some curious facts have come to light concerning a venerable and amiable gentleman, much respected by the inhabitants of one of the most picturesque suburbs of Paris. He is a man of about 70 years of age, and is possessed of private means. He lives in a pretty villa, his own property, with an elderly female relative and a servant. He passes his apparently idyllic life in tending his rose trees and rearing rabbits and chickens. The police, who arrested him this week, allege that he is the most expert and successful bunco man in France. A man, alleged to be a well-known exponent of the same art, was visiting the villa when the police entered and captured him. He is believed to be a very venerable gentleman's investments and the villa itself are the proceeds of his confidence tricks.

The particular charge which is to be pressed against the two men is one of robbing a bank messenger at Nancy of \$3800 by means of a confidence game.

BERESFORD WILL RETIRE

Abandon Command of Navy to Attack British Naval Policy.

LONDON, July 18.—(Special.)—With regard to the strained relations between Lord Charles Beresford and Sir Percy Scott, there are well informed persons who will not be surprised to find that the former is only awaiting the conclusion of the great naval maneuvers, of which he is in supreme command, before placing his resignation in the hands of the authorities.

If this should be true, and there is every reason to believe that it is, Lord Charles will undoubtedly begin a merciless crusade against the naval policy of the government and seek an early opportunity to return to the House of Commons.

Centralia to Entertain Elks.

CENTRALIA, Wash., July 18.—(Special.)—Centralia Elks are preparing to entertain all members of the order who come to this city on Friday and Saturday, July 24 and 25, the dates set for the dedication of the new Elks' hall and club rooms in this city. The committee in charge of the dedication has practically completed the programme for the two days' entertainment.

Tomorrow (Monday) will be positive-ly the last day for the Elks to get on their Side gas bills. Portland Gas Co.

Olympia Malt Extract, good for grand-children. Only 15¢ of 1 per cent alcohol. Phone: Main 571, A 267.

UNIONISM IS GROWING

Labor in Germany Fast Following the English Example.

BERLIN, July 18.—(Special.)—It is no longer possible to speak of Germany as a country where labor is unorganized. "For decades we looked to the classical land of trade unions, England, and thought we should never attain such heights. But today we can say, in regard both to the number of our members and our solidarity and influence on public life, that we are hardly behind the English trade unions." With these words the Socialist Reichstag Deputy Legien greeted the sixtieth anniversary of the so-called Free Trade Unions, which met at Hamburg, and in doing so he drew attention to one

of the most remarkable developments which have taken place in Germany in the last two decades. The organizations represented at the Congress, which frankly adopt a Socialist standpoint, had in 1881 a total membership of 278,000, and in 1888, 453,000, but in the succeeding ten years the number has risen to 1,985,000. In addition to these free unions, there are now "Christian" workers' organizations with upwards of a million members. These are anti-Socialist, and are carefully nursed by the authorities, though on labor questions they generally make common cause with the Free.

The Radical Hirsch-Duncker associations, like their political faith, make comparatively little progress, and number only 100,000 members.

BEST ROOSEVELT PICTURE

Painted by Hungarian Artist Laszlo for English Firm.

LONDON, July 18.—(Special.)—When Arthur Lee, M. P., formerly Military Attaché to the British Embassy at Washington, and Lieutenant-Colonel Roosevelt were together in Cuba at the time of the Spanish-American war the Englishman told the future President of the United States that he wanted his portrait. That portrait the clever Hungarian artist, Philip A. Laszlo, recently went over to the States to paint, and it may now be seen at the Dewey museum, with 37 pictures from the same brush. Not only on the Continent and in the United States, but in England also many prominent persons have sat to Mr. Laszlo. In Bond street, for instance, are three royal portraits—those of the King and the Queen and Princess Victoria.

In America the portrait of President Roosevelt has been pronounced by many to be the most characteristic and faithful which has yet been made, hence the call for a replica. The President is in black riding dress, with purple-lined cloak, seated, legs somewhat apart, gloves and a switch in the right hand.

MOBS ATTACK MURDERERS

Whole Family Pounces on Assailant in Court and Beats Him—Fear of Mob Violence Replaces Fear of Guillotine.

PARIS, July 18.—(Special.)—It is a noteworthy fact that attempts at lynchings, a practice which was formerly quite unknown in France, are becoming extremely frequent in this country, and particularly in Paris. This innovation may be attributed to several causes. In the first place, so many dramas are enacted in public that onlookers, at least, have difficulty in tracing the culprit, who often still carries a smoking revolver in his hand, and whom, with their indignation at his height, they can approach before the police have arrived on the scene. There is always a notion that the aggressor may not be dealt with severely enough when he is brought to trial. Over and over again have the police had to struggle with mob violence to protect a murderer from the fury of the crowd.

ATTENT MURDER IN COURT.

But there has just been a queer variation in what has almost developed into a custom. It has occurred at the Palais de Justice. The examining magistrate, who is investigating a case of attempted murder in the Rue de Clichy, had sent for the man who had been arrested by the crowd, and, after having questioned him, had called in the woman whom he had tried to kill, but who has completely recovered from her injuries, as well as her son and daughter and some neighbors, for the purpose of confronting them with him. As soon as the party set eyes on the assailant they flew into such a rage that they literally went for him. One of the men, with the pistol and half strangled him, while the others hammered him, and he was in a pitiful state, all black and blue, with his clothes torn to ribbons, before enough municipal guards could arrive on the scene to free him from their grasp.

The examining magistrate gave them several hours to cool down, and when they were again in his room with the prisoner before them, they did not repeat the attack, although they told the man in forcible language what they thought of him.

PEOPLE TURN TO LYNCH LAW.

Afterwards the culprit confided to his keepers that he had never been in such a fright in his life, with the exception of the day when he was nearly killed outright by an exasperated crowd at the moment of his arrest.

If people of murderous proclivities have

Important to Men

There is no ailment peculiar to men that I cannot cure. For twenty-five years I have devoted my entire time and energy to the treatment of men's diseases.

My methods have been perfected by actual experience, with a thoroughly theoretical knowledge as a basis. I am the only physician thoroughly and permanently curing those functional derangements commonly classed as "Weakness," and my success in overcoming such cases has placed me foremost among specialists treating men's diseases, and has brought me the largest practice of its kind in the West.

My Fee for a Thorough and Lasting Cure of Any Ailment Is Only \$10 In Any Uncomplicated Case

I Never Disappoint or Mislead My Patients, and My Cures Are Permanent

I have treated hundreds of men who have long suffered a gradual decline of physical and mental energy as a result of ailments, and have been interested in noting the marked general improvement that follows a thorough cure of the chief disorder. My success in curing difficult cases of long standing has made me the foremost specialist treating men's diseases. This success is due to several things. It is due to the original, distinctive and thoroughly scientific methods of treatment I employ.

To those in doubt as to their true condition, and who wish to avoid the serious results that may follow neglect, I offer free consultation and advice, either at my office or through correspondence. If your case is one of the few that have reached an incurable stage, I will not accept it for treatment, nor will I urge my services upon any one. I treat curable cases only, and cure all cases I treat.

Scientific Treatment for "Weakness" Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result, the condition is rendered worse than before. Few doctors know of any other method than stomach drugging, and when this does no good, they say, "There is no cure for Weakness."

I have often made strong statements to the effect that the ailment must be "thoroughly understood before it could be remedied. I have proved, however, a dispute that so-called "Weakness" is merely an indication of the existence of a low form of inflammation in the Prostate Gland, which is usually aggravated and made worse by stimulating medicine, electricity or any other agent that excites temporary activity. The Prostate is a nerve center and therefore very sensitive to treatment—the right kind quickly helps, while the wrong kind can cause great harm and sometimes irreparable damage.

I employ the only scientific and full effective treatment for "Weakness," which is almost entirely local, by which I mean that the medication is applied directly to parts. Medicines containing poisons are entirely excluded. I obtain the most desirable results in every case undertaken, and the cure is permanent and complete.

EXTEND BAGDAD RAILWAY Plans Are Announced at Meeting of Company in Berlin.

BERLIN, July 18.—(Special.)—At a general meeting of the Bagdad Railway Company in this city a dividend of 5 per cent was agreed to. The chairman announced that 30 German engineers of the firm of Philipp Holzmann & Co., were engaged on the plans for the further extension of

the line conceded by the recent agreement with the Turkish Government. The plan would have to be submitted to the Ottoman Ministry of Works for approval within a year.

The work of construction will probably not begin before the Summer of next year.

Tent Falls on Big Audience. CHICAGO, July 18.—The heat of yesterday culminated last night in a wind and thunder storm which brought relief and several casualties. At the height of the storm a huge tent sheltering 1500 Chautauquians at Chicago Heights was blown down and the people were enabled to find their way out, otherwise a panic possibly would have resulted.

The treasures of the Louvre are now guarded by watchdogs.

DON'T BE A WEAK MAN

\$10 Our Fee

No Matter what form of trouble or "CERTAIN" is to your advantage to consult us before you ever TRY elsewhere. Our modern and thoroughly scientific methods are certain to effect a PERFECT and a PERMANENT CURE in each case that we undertake. Our Institution is the most perfectly equipped for the treatment of ALL OF THE DISEASES common to men. We have cured thousands who have failed to find relief elsewhere.
