OREGON TROOPS READY TO MOVE

Third and Fourth Regiments Will Leave Tomorrow for American Lake.

TAKE PART IN MANEUVERS

Guardsmen Will Participate With Regulars in Military Operations on Large Scale—Return After Ten Days.

Eleven hundred men, representing the two infantry regiments of the Oregon National Guard, will leave the Union depot tomorrow forenoon for the American Lake maneuver district, south and west of Tacoma, where for a period of 10 days the troops will participate in the field campaign. Regular Army infantry, cavalry and artillery as well as infantry and cavalry from the Washington National Guard, will take part in the programme. The Oregon troops are ready to move. Regimental effects were sent out yesterday from the armories at Portland and Eugene, the respective headquarters of the Third and Fourth regiments. Personal effects are being assembled at armories of the various company stations today. Companies stationed at Ashland and Roseburg will leave for Portland tonight, while the McMinnville, Eugene, Cottage Grove, Albany and Dallas companies will start this way during tonight, arriving here in time to leave by the special train of three sections which will carry the force to Murray Station, Wash., the point for detrainment.

Light khaki uniforms will be worn by the men and olive drab uniforms by the officers. Nothing is being taken in the way of unnecessary baggage, the two regiments leaving on an active service basis, precisely as they would go into the field during actual hostilities. Each man is allowed a blanket roll into which he must pack necessities and nothing more.

Equipment for Regiment.

Teams were busy all day yesterday hauling regimental field equipment to the Union depot for shipment. A total of 120 cartons for mail, and 40 for the 4th regiment, were sent out, together with several tons of other camp incidentals, indispensable in the field. This work is in charge of Captain Henry Hockenyo, quartermaster of the Third infantry, and an officer of many years' experience both in the guard and volunteer service. Captain Hockenyo, Captain Arthur J. Johnstone, adjutant of the Third; Captain Frank L. Chambers, quartermaster of the Fourth regiment, and Captain Frank E. Taylor, adjutant of the Fourth, have been the four busiest men in the state during the past few days—and at that their work has hardly begun.

The maneuver programme is calculated to keep all the troops at work. The Federal Government isn't spending \$1,000,000 on maneuvers this year in order to give troops an outing, and the troops are not going out with any idea of having an "encampment" in the old sense of the term. Conditions of hostile service could not be more exacting, for there will be theoretical fighting in progress all the time. Tomorrow will be consumed in going to American Lake and establishing camp and Tuesday morning will see the taking up of field work. Each succeeding day will witness a more extended programme. Furthermore, it will be a closed camp and the men will not be permitted to leave the lines at any time. On August 10 the maneuvers will continue all day and night and there will be a march of 20 miles or more in heavy marching order.

Departure Monday morning will be made in three sections, the first going at 7 o'clock, the second at 9:30 and the third at 11. With the first section will go a fatigue detail of 64 men which will pitch the headquarters tents. The companies will pitch their own tents upon arrival in camp.

Large Percentage of Attendance.

Attendance of officers will reach past 90 per cent and the attendance of enlisted men will be larger than at any previous maneuvers. Colonel Charles E. McDonnell will command the Third infantry and Colonel George O. Moran, of Eugene, the Fourth. There will be but one absentee in the field and staff of the Third, Lieutenant-Colonel John M. Poorman, and

one in the field and staff of the Fourth.

McCormack.

TEAM IS STRONG ONE

Oregon Well Represented in National Rifle Meet.

WORK ON RANGES TELLS

Scores of Sharpshooters Show Continuous and Marked Improvement. Team Is Expected to Finish Well Toward Front.

The strongest rifle team ever sent by Oregon to a National rifle competition.

That, in brief, is the estimate which expert riflemen and competent judges place on the picked infantry team which is now engaged in preliminary practice at the Salem range. By August 5, the date of departure for Camp Perry, O., the 12 regular members and three alternates, will be in the finest possible fettle for the big contest on the National range, and if the team doesn't take place right in the very first row, then all calculations will miscarry completely.

Adjutant-General W. E. Finzer, who will captain the team, returned from Salem yesterday after carefully looking into the work of the riflemen, examining their scores, and conferring with Major F. B. Hamlin, team coach, as to the work for the rest of the practice period. The scores of every man showed a marked improvement since last Monday and with another week to work in all the rough edges will have been toned down. Every man is working daily as long as the light will permit and the members say they are going East to win this year.

The table which follows shows the scores made by the 12 men who qualified as regular members of the team. The entire course was covered twice, skirmish, rapid and slow fire at all ranges, with a possible score of 350:

MONARCH RANGES

THE STAY SATISFACTORY RANGE

THE HOT AIR GUARANTEE

This is the talk that you hear from the salesman, or the advertising you read in the newspapers, telling you that this, that, or the other range is the best, and the only one you should buy, or the only one that will bake, etc. Any range that you buy will give you good service for at least a short time. Many of them, with ordinary care, work well for a much longer time, but no other dealer dare to make such an offer as we make, because no other range is worth \$30 after three years' use.

THE CASH GUARANTEE

This is the offer that we make to anybody who has a MONARCH MALLEABLE RANGE now or who purchases one from us in the future.

WE WILL GIVE YOU \$30.00 FOR IT even if you have used it for fifteen years. If you think for a moment that this guarantee is made for advertising purposes only, just try us. This guarantee is given by us because the MONARCH MALLEABLE RANGE is so constructed as to stand the test of time, and when we give you \$30.00 for one we can sell it right away for more money.

CLAN WAR OF MAC RAES

Trouble Over Chieftainship of Scottish Tribe Reaches America.

The clan war of the Mac Raes of Scotland, which has arisen over the claims of Sir Colin George Mac Rae to the chieftainship of the clan, has invaded America in the form of petitions for the support of Sir Colin, sent out by Alex. W. Mac Rae, of Edinburgh. The contention has arisen through application to the Lord Lyon by Sir Colin George Mac Rae for permission to bear supporters in his armorial achievements as Chief of the Clan. This application has been opposed by Major Mac Rae Gilstrap, a cadet of the Conchra branch of the family, who takes the position of denying all chieftainship and asserts that the Mac Raes were not a clan at all but merely a minor sept wholly dependent upon Seaforth and so incapable of having a chief.

This phase of the matter removes it from a mere family question and gives every member of the Clan Mac Rae a personal interest in the contest in that if Sir Colin loses his case it would be declared by the highest genealogical authority of the country that the Clan Mac Rae has no real existence.
