Chalmers-Detroit "30"

SCOUT WILL ACT FOR ALL GLUBS

New Plan of Pacific Coast League Is Innovation in Baseball.

GOOD RESULTS EXPECTED

Oakland Opens in South With Many New Men - Diamond and Fight Ring of San Francisco.

BY HARRY B. SMITH. SAN FRANCISCO, Aug. 1-When the Pacific Coast League scout starts out the first of the month to draft players from the leagues that are under the Class A ranking, there will have been something ranking, there will have been something absolutely new in baseball circles put into being. The baseball scout is no new idea, but the scheme of having one man represent the league is an imposation. Furthermore, the Pacific Coast League will be the first of the minor organizations to originate a scheme of this magnitude. It has not been definitely decided at this time, but the prospects are very strong that Danny, Long, secretary of the league and manager of the San Franthe league and manager of the soin Fran-cisco team, will be selected for this duty. In the first place, Long has had experi-ence as a scout, having acted in that capacity for several of the Eastern major league clubs, and what is more, he knows a ball player when he sees one on the field. Mike Fisher's name was mentioned,

field. Mike Flaher's name was mentioned, but the boosting came more from Mike himself than from any other individual. "The necessity for a Coast League scout," said President J. Cal Ewing, "is brought about largely by reason of the fact that we are certain of two new clubs in our fold. They will need players and these players must be secured from the minor leagues under us. The plan of having a league scout will not interfere with the plans of any individual of having a league scout will not inter-fere with the plans of any individual club that may desire to draft players. That right still remains to them. Long, if he is appointed, will visit the more promising of the Class B and C leagues and select the men that look the best. Then they will be apportioned among the various clubs as may be deemed best.

An Even Break Promised.

There is to be no hoggishness in this The new clubs are to get an even break and what is more, the present clubs will have to contribute from their own strength. So far as San Francisco is concerned, we will not hand them any castoffs, but deal with them as we would want them to deal with us."

Long has his eye on several men in the Texas League and will doubtiess visit the Pacific Northwest, where there are several men who are worth looking after. It is thought that he will be able to gather in the neighborhood of 25 men. who will be used to give the new clubs a start and to fill in vacancies in the ranks of the four clubs that are now in

existence.

The question of recruiting clubs after the major leagues are through with their drafts and the men they have bought, is becoming a serious problem, as the Portland fans know best of all. Usually a manager sells his players who are liable to be drafted, because he fig-ures that it is better to sell than to lose a man for a pairry \$750. Baseball rules, of course, permit a club to have but one player drafted at the end of the season. It was suggested to Henry Berry that so far as the club's strength have one player drafted than sell his stars. And he came back with this ar-gument, that I must admit has sound reasoning to back it up:

Players Have Some Rights.

"Young players who make good have a right to go into the major leagues. If they think you are going to hold on to them. In spite of chances they have, they will sulk. I get better ball out of my men because they appreciate that I am looking after their interests and that I will give them a chance. Of course, it weakens my club, but I must depend on the new material that is at hand every year."

And Berry is one man who is likely to be affected, for several of his men are wanted up in the big brush. Ellis, for instance, is desired by the Reds, Gray and Hosp are two pitchers who are looked upon with envious eyes and Delmus is rated a great shortstop, easily good enough for faster company. Bob Easterly, the catcher, by the way,

Bob Easterly, the catcher, by the way, is the last of the Angels sought. Garry Herman, of the Cincinnati Reds, made Berry a tempting offer for Easterly, who is wanted for immediate use. Berry refused and told Herman in his telegram that the managers of the Coast League clubs have agreed not to dispose of any of their players while the season is under way. It is a sensible rule and one that the magnates will do well to live up to every year. to every year.

Baseball Gamblers Arrested. *

The gambling element that infests Recreation Park was given its first slap a week ago when plain clothes policemen, acting under the orders of President Ewing, caused the arrest of two men who had made a bet and a thrd man who was a stakeholder. The cases were continued in the courts and while it is possible that it will be hard to convict, the effect will be right.

the effect will be right.

These gamblers do not help the game in any way and, on the other hand, they have a demoralizing effect. They how at the players who lose and show their feelings against the umpire, whose decisions may have cost them money. It is to be regretted that the police could not arrest some of the men who have not arrest some of the men who have been most prominent in gambling, but at all events, if they stop the evil, the end will have been accomplished.

Oaks Have Many New Men.

The Commuters are baving a strenuous time to get into the running. When the Oaks appeared at Recreation Park, in San Prancisco, last Wednesday, there were a world of new faces, among them several pitchers who will be given a trial. One of these twirlers, Symons by name, a gaunt appearing individual, who pitched once for Mike Fisher's Fresno club, had a chance last Wednesday.

Among the other newcomers are Tisher, a bush pitcher, who has been working as an electrician the last 12 months; Christian, the new pitcher from Texas, and Houston, the Portland boy. There is a chance that Houston will be used at third base, as Van Haltren has an idea he can use Hogan more ef-

The Gans-Nelson fight that was called off because Tex Rickard didn't come through, has been remade, this time with Jimmy Coffroth as the promoter. There is no \$30,000 purse, but the scrappers will work for a perfectively in the box. centage of the gate receipts, and will box 45 rounds at the Mission-street arena on Wednesday, September 9, Ad-mission day in California.

are to fight for 70 per cent of the receipts, which will be divided 60 per cent to the winner and 40 to the loser. Benny Selig, for Gans, says that Nelson will take two-thirds of the in-

son will take two-thirds of the interest in the moving pictures as a bonus, while Willis Britt hints that the Dane will get something more substantial in the nature of a bonus of 20 per cent of the receipts.

However that is, they have signed and deposited their forfeits with Tom Corbett, as the stakeholder. Eddie Smith, of Oakland, a well-known referee and newspaperman, has been selected as the referce. Jack Welsh was the referce at the last fight on the Fourth of July, but somebody, most likely Britt, put in the protest. Eddie Smith has done some good work as the third-man in the ring and ought to satisfy every one concerned.

to satisfy every one concerned.
According to his present plana, Gans
will remain at Harbin Springs until
two weeks before the fight and will do two weeks priore the ign and will de-the rest of his training, as usual, at Bifty Shannon's resort, in San Rafael. Battling Nelson is just now in the East, enjoying the fruits of his vic-tory, but he is expected back by Au-gust 10, and will then decide on the course of training that he will go

Unreasonable Telegraph Tolls.

Peter Grant sheds some new light on the Rickard fiasco. Grant had a letter this week from his Ely partner, who assured him that Rickard had raised the \$30,000, but met with unforeseen conditions. In the first place, the railroad company refused to grant better than a \$12.10 rate. The big trouble, however, was with the telegraph company. It seems there is an independ-ent line running from Ely some dis-tance, where it connects with the big companies. This independent concern stood out for a rate of 5 cents a word, even from the newspapers, and Rick-

ard couldn't figure where he was going to get much advertising. That was what he was after, and so he quit. San Francisco people do not take much stock in the story that Rickard will offer \$20,000 for a Burns-Johnson fight. He might, indeed, make such an offer, but couldn't get the fight, at least this Fall. Burns is on his way to Australia, and Jack Johnson is in England. Rickard wants, a fight in September or he must wait until next Spring. The chances are very strong-ly in favor of his waiting. Jim Jeffries is standing by his word

that he will quit the fight game. It will be remembered that when Coffroth made the Attell-Moran fight in New York, Jeffries was selected as the referee. The other night the San Francisco promoter received a let-ter from Jeffries, in which the heavy-weight said that for the time being at least he has retired from the fight game and therefore he would have to

When Attell and Moran reach San Francisco, which will be the first of the week at the latest, new articles will be signed and another referee chosen. Their fight is to take place on Labor day, September 7.

AMERICAN ATHLETES AHEAD

Defeat Irish by Seven Events to Four at Dublin.

DUBLIN, Aug. 1.-The American team was victorious over the Irish athletes in the games held this afternoon at Ball's Bridge, Dublin, under the auspices of the Irish Amateur Athletic Association. The visitors won seven events to the Irish-

men's four. Summary:
Half mile run-Melvin W. Sheppard,
Irish-American A. C., first; time, 2:01 1-5.
G. N. Morphy, Ireland, second,
Running high jump-Harry F. Porter,
Irish-American A. C., first; 6 feet 1½
Inches, Leahy, Ireland, second; 5 feet 10 inches,

inches.

100-yard dash-Robert Cloughen, Irish-American A. C., first; time, 110 2-5; Lawson Robertson, Irish-American A. C., second; Murray, Ireland, third.

Hammer-throwing-Lee J. Talbot, Irish-American A. C., first, 168 feet 2½ inches, which beats the Irish record; Walsh, Ireland, second, 155 feet 10 inches.

220-yard race-Roche, Ireland, first, six inches ahead of Cloughen, Irish-American A. C., time 23.

Mile run-Morphy, Ireland, first; time, 4.02 4-5. J. P. Sulliyan, Irish-American A. C., second; Dowling, Ireland, third.

440-yard race-J. B. Taylor, Irish-American A. C., first; time, 45; Morphy, Ireland, second.

Ireland, second.

130-yard hurdle—C. J. Bacon, Irish-American A. C. first; time, :16 4-6.

Ahearn, Ireland, second.

Putting the weight—Horgan, Ireland, first, 45 feet 10 inches; Barrett, Ireland, second, 45 feet 45 inches; Lee J. Jalbot, Irish-American A. C., third, 43 feet ½ inch.

AT SHEATH GOWN Lloyds Agency Refuses to Insure Garments Popularity.

NEW YORK, Aug. 1.-Evidently the British business man, viewed by members of the London Lloyds, does not believe that the "sheath gown" is des-tined to become popular in the United States. At any rate, the members of the famous London insurance company refused to issue a policy for \$10,000 on a consignment of "sheath" gowns recently imported from Paris by a local department store. The uptown merchants, feeling somewhat skeptical as to just how well the latest Paris custom would take with New York women, asked an insurance broker to obtain a policy insur-ing the sale of the gowns, in other words, to insure the popularity of the "sheath"

The Britisher knew that the London The Britisher knew that the London Lloyds were willing to write a policy on anything, from presidential elections to the safeguarding of an automobile race course, or the fluctuations of the stock market, and promptly applied for a policy on the sheath gowns. To his surprise, however, he was, to use his own words, "turned down cold." He applied to several other companies with the same

THE AMERICAN WINNERS IN OLYMPIAD.

The Americans who secured first places were: Sheppard, 2; Sheridan, 2; Ewry, 2; Hayes, 1; Flanagan, 1; Rose, 1; Porter, 1; Irons, 1; Bacon, 1; Smithson, 1. The biggest individual point winners were: Sheppard, 11%; Sheridan, 10; Ewry, 10. Olympic records were broken by Sheppard in the 1500 meter and 800 meter events; by Flansgan in the hammer-throw, by Lemming in the free siyle javelin, by Porter in the running jump, by Sheridan in the Greek style discus. by Voight in the five-mile run, by Irons in the running broad tump, by Bacon in the 400-meter hurdles, by Gilbert and Cooke in the pole vault, by Carpenter in the 400 meters (Carpenter was disqualified), and by Smithson in the 110-meter hurdle. record for 120 2-10 yards high hurd-

BY W. J. PETRAIN. Plans for the New York reception to the All-American team of athletes, which won the great majority of the stadium games in the recent Olympic contests at London, are well under way, and when the victorious athletes reach home they will be greeted by a demon-stration of enthusiasm surpassing any-

thing of the kind ever witnessed on this side of the Atlantic. When the New Yorkers have finished feting the successful athletes, President Roosevelt, who is one of the greatest living exponents of outdoor sports, will give a feast in honor of the team

at Oyster Bay. With this example to follow, it is no wonder that the citizens of Oregon are responding liberally to commemorate egon's share in America's great ath-

letic success. The people of Oregon seem to realize the glory attached to the feats per-formed by Forrest C. Smithson, Alfred C. Gilbert and Dan J. Kelly, the tric of Oregon boys, who, in competition with 2000 picked athletes from all over the world, succeeded in gaining two first prizes and one second. This record is one of which the state of Oregon may well be proud, for it has not been surpassed in the history of modern ath-

A state that can produce three such athletes as Smithson, Kelly and Gilbert, can not afford to overlook such an op-portunity as is now presented for wide-spread advertising. The plans for a gigantic welcome to be extended the victorious trie are well under way, and on every hand the ready co-operation of the Portland and Oregon business anxious to join in greeting the Olympic winners.

The work of arranging the programme for the reception to be extended Smith-son, Kelly and Gibert is in the hands of Portland and Oregon's representative citizens. As yet this committee is in-complete, but before the date of the complete, but before the date of the home-coming arrives, the various sec-tions of the state will be represented by delegates. Practically one month remains before the athletes will return. This is contingent on the length of time they will require to fill several European dates, which have been arranged in order to permit the lads to see something of the Old World, a trip that they have earned by their faithful services on the athletic

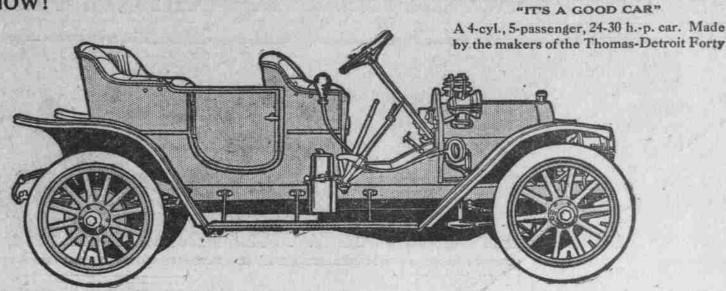

While the preliminary arrangements are while the preliminary arrangements are yet somewhat indefinite, it is safe to say that such a welcome as will be extended the Oregon boys on their arrival home will eclipse anything of the kind ever attempted on the Pacific Coast. By so honoring her athletes Oregon expects not only to advertise herself extensively, but more than all else, to stimulate the spirit of athletics in this state. By so doing the boys of today will be encouraged to emulate the examples set by the present winners. It is the example set to the youngsters on which a great deed de-pends in modern athletics.

These are the main reasons the peo-ple of Oregon are contributing liberally toward this fund, which promises to be adequate to make the reception a memo-

Open Railroad to Shanghai.

Ready for Delivery NOW!

This Astounding Car For \$1500

A millionaire's car brought, by mammoth production, down within reach of the many. Looks like the costliest cars-does all that the costliest do. Yet, so low in price-so economical in upkeep-that fifty times as many people can now own a powerful, high-grade car.

For two years-after we perfected the Thomas-Detroit Forty-we have worked to perfect this car.

Not to sell at \$1500; for nobody dreamed, two years ago, that such a car could ever be sold for that. We simply aimed at perfection in a light-weight car-a car with low cost of upkeep. We expected the cost to run at least \$2000.

But the panie last Fall cut the prices of materials, and we are giving you the benefit of our ability to purchase ahead.

Low-priced cars are not new; there will be more this year than

Note that this car is not an experiment-not a hasty makeshift. We have worked for over two years in perfecting it. Three of the new cars have been run over 7000 miles.

Designed by Mr. H. E. Coffin, our vice-president. He is recognized as the leading automobile designer in America. Mr. Coffin made two trips to Eu-

rope, to combine in this car the hest foreign features with the best American. He has thus made it the typical car of today. The lines are handsome, yet con-

servative. The car follows, in this respect, the leading cars of the year. The finish and upholstering are the same as are found in cars costing double this price.

The wheel base is 110 inches—com-

pare that with rival cars. We have only a 2-inch longer base in our \$2750 car.

Thus we give you a roomy and elegant five-passenger car-not a car that looks cheap because small.
Weight 2000 pounds, which means a low tire cost, a low cost of upkeep. Power 24-30 h. p.—sufficient for any requirement. Speed 45 to 50 miles

Now let us compare the mechanical features with some high-priced cars. The four cylinders are cast to-gether, as in the latest Fiat, the Darracq, and a score of great foreign cars. Our factory cost on this engine alone is \$261. Yet 4-cylinder auto-

mobile engines are sold as low as \$75.

We use the Unit Power Plant, as in the new Decauville, the Motobloc and others. Motor, clutch and transmission form a single unit, so they cannot get out of alignment. The body is suspended, for easy riding, after the style of the Mer-cedes. The valves are like those of the Napler. The % Elliptic Springs are like the Renault and others.

ever. Rivals may follow us with four-cylinder cars costing even less

But the novelty lies in a car that you can take pride in-a large and luxurious car - a perfect and powerful car - selling at a price

There we have no competition. Not a car selling within \$500 of our price can stand for a moment in actual comparison with the Chalmers-Detroit "30."

Ready for delivery-catalogues on application,

Selective sliding gear transmission; three speeds forward and reverse.

Perfect dust protection.

As completely fitted with annular

ball bearings as the Mercedes, Hotch-kiss and Renault. Very few of the costllest American cars use so many. The actual cost of the ball bearings

Brakes heavier than we used, until this year, on our "Forty." Anti-back-ing device to protect you on hills. Provision for double ignition system. The lubrication system which is now used on the "Forty" and which is being adopted on all leading cars. A multiple disc clutch-similar to that used on the Isotta, Fiat and many others. The gas intake is water-jacketed, to save you the trouble arising through cold gasoline.

Floating type rear axle, used here-tofore only on the highest-priced cars. Wheels 32 inches; tires 34g So simple in control that a novice

with the costliest cars. You will note we have stinted nowhere. We did not start out to make this a cheap car.

Then compare the same features with other low-priced cars, and you will see why we have no competi-Please send us this coupon new for

McGRATH RETURNS

Head of Portland Show Will Next Visit Spokane and Hopes to Secure Exhibitors From That City.

With 50 entries promised from Seattle and two carloads of high-bred horses coming down from Spokane, the Portland

tion to lovers of fine horses. The number of Portland entries will be almost double that of last season in the fancy exhibition classes, and the public will feel pride in some of the handsome new turnouts to be shown by local orders.

H. W. Treat, of Seattle, who made a

magnificent showing at the Portland show last Fall, will be here with a string of as handsome singles, pairs and teams as will be found on the Pacific Coast, having purchased about 30 fine animals for the Seattle and Portland events. Mr. Stimson will show here again, bringing three or four new pairs he has just brought out from the East, and J. D. Farrell will have some surprises in classy new saddlers. The Seattle exhibitors are especially classy on correct appointments and great preparations are being made to have the exhibitions faultless.

T. S. McGrath, president of the Portland Hunt Club, under whose auspices the Horse Show will be given, has just returned from a conference with Seattle owners, and is delighted with the spirit "We will have fully 50 entries from Se-

attle," Mr. McGrath said last night, "and they will all be high-class fancy exhibitions. The Seattle show, in September, is to be a big society affair, and no expense is being spared by the prospective exhibitors in securing horses and ap-pointments which will be winners." Mr. McGrath will go to Spokane this Horse Show will prove an especial attractive week for the purpose of booking entries. The Wests have strengthened consider

STAND PAT ON CURRENCY

| Aldrich Says Commission Will Merely Report His Bill.

NEW YORK, Aug 1-The Times this morning says: For several days members of the National Monetary Commission, appointed at the last session of Congress to devise plans for currency legislation and composed of nine Senators and nine and composed of nine Senators and nine Congressmen, have been in this city making preparations for their trip to Europe to study foreign banking conditions and to confer with bankers here. As a result it has become known in Wall street that Senator Aldrich, who is at the head of the Commission, has come to hold the opinion that the upshot of the Commission's studies will be not to promulgate a money measure entirely, but simply to make additions and improvements to the present so-called Aldrich-Vreeland law. In banking circles the news of this In banking circles the news of this opinion of Semator Aldrich has been received with great interest, for it is recognized that as head of the Commission and sponsor for the currency bill adopted in the closing hours of Congress, his words will have great weight. There is, of course disappointment of an extraord of course, disappointment of an extreme kind among many leading bankers who hope, however, that investigation of Enropean banking methods and its currency system may cause a change of heart in Senator Aldrich. Senators Aldrich, Wilson, Hale, Knox, and Representatives Vreeland, Overstreet, Burton and Padgett will sail from this city on Tuesday next on the Kron-pringessin Cecille for the purpose of mak-

ing an examination of the city banking systems of Great Britain, France and Germany. The Scotch Canadian, Swed-ish and Swiss methods will also be studied. Every facility has already been placed at the disposal of this committee.

New York City has one public park that is 250 years old, and that is Howling Green, which was the playground of the first Dutch
