A GOOD FARM.
LOW PRICES.
EASY PAYMENTS.
We are cutting up 300,000 acres of the old Military Road Land Grant through Southern Oregon, east of the Cascades, into 11,092 farms, selling them at $200 apiece, payable $10 per month. This grant is a series of valleys. The valley lands produce all grain and fruits equal to Willamette Valley, without irrigation. Had 27 inches moisture last year. Railroad building into Lakeview, where we give a lot free with each farm. Read our scores of letters from the oldest Lake County farmers, honest, conservative men.
George Conn, oldest living U. S. Land Office Receiver in Oregon, writes us from Lakeview, as follows:
"The United States Land Office records were moved here by me and I assumed the duties of receiver of the United States Land Office, and later established Lakeview, as the County Seat of original Military road was partially surveyed by me in 1865, and I am in a position to know the character of the lands. The road was established through the best portion of Southern Oregon, and even in 1865 I recall that the grass was, in many places, literally covered with wild plums, and with rare exceptions these natural fruits have borne fruit every year since, not to speak of the planted and cultivated fruits, which possess a very desirable flavor and have thriven quite as successfully. Of late years perhaps, the range, especially along the Military road, has been grazed too closely; still, if fenced it reproduces very readily, and constitutes a country which, even if used, as in the past, chiefly for stock, enables those who follow that business to become independent in a short time. Of course, that early date, and until about 1885, the natural grasses were over knee-deep and covered the great bulk of the grant, and if protected, this same condition would return."
This chance for the poor man to get a home will not last long. There are many more poor men than there are homes. See us at once.
