COMPLETE'S PLANS

Construction Worl t on Pennoyer Block Will B egin Early Next Year.

PRAISE LOCAL PROSPERITY

Corporation's Workf in Three Western Cities in Fo ar Years Represents Investment of \$6,000 1000.

The Oregonian car t now make a definite statement of the intentions of the Trustee Company, of Portland, regarding building on their property, generally known as the Penn yer block, at Alder, Morrison, West Parit and Tenth str Excavating is to be gin in February and construction of the building is to start as soon thereafter as material can be

A. L. Hawley, president of the Trustee Securities Company, of New York, and Judge W. D. Wood, of Seattle, the found-Judge W. D. Wood, of Seattle, the found-ers of the trustee companies, who have been at the Portland Hotel for the past few days, have been a looking into matters connected with their interests in this city. Mr. Hawley said hast night that while it was the original intention of the com-pany to begin ope rations on the building for Olds, Wortman & King soon after the lease with that firm was effected, the financial depression in the East made it inadvisable to undertake the building until "the atmosplære cleared." He said that at present Eastern capitalists are again regarding the Pacific Coast as offer-ing the very test opportunities for profitable and safe investments, and in discussing the plans of his company, made this stater sent:

Development of Portland.

"Portland is a naking a splendid show-ing among the caties of the Pacific Coast. It is very interesting to see how her It is very interesting to see how her conservative and substantial development of the past, to gether with the splendid producing coursey in her immediate territory, give here a position of noticeable advantage over the other cities on the Coast, in the matter of revival of business with the coast, in the matter of revival of business with the coast. ness. Not to speak disparagingly of Los Angeles or Seattle, for these cities are also showing rigorous business develop-ment, it is. Sowever, a noticeable fact to me, that Portland has not only re-gained substruitlal footing, but is well along the road to prosperous conditions. "I have been spending the past two and a half me so hs in Los Angeles, where and a half meanths in Los Angeles, where we are just, completing a ten-story office building and have been for the past week in Seattle knoking over the field, and giving atteration to the construction of our large eight-story, fire-proof office building the m. On coming to Portland three or four days ago, I was pleased and encouraged to find such a favorable and substantial condition and progress and substan fial condition and progress in the bush sess way. There are, I be-lieve, fewer "for rent" signs in Portland than in anif city on the Pacific Coast, and this, you know is a very critical test of the general conditions of a city.

Enterest in East.

"Our Nevs York office reports renewed interest in cities of the Pacific Coast, and as evidence of this, I am pleased to say that it the past 60 days we have made substantial sales of Spokane, Los Angeles and Seattle securities in New York, and the money has been forwarded to the Pacific Coast. After all, this is the real test of the appreciation of our cities by the Eastern investor. When he lets us bring his money out here to invest in brasiness property in our Pacific

vest in business property in our Pacific Coast cities, we cannot question this kind of an expussion of returned confidence.
"My two days" visit in Portland has been to fittally approve the working plan for the building we are to erect on the Pannovas block to be occurred by Olds. Pennoyer block, to be occupied by Olds. Wortman & King, and to determine when we are to begin the work. The plans are all approved, and I am going East in September to let the steel contract. It till taker from five to six months for fabrication, and transportation of the steel, so that this will begin to arrive in April of next year. We will excavate and put fin the foundation, beginning in February, so as to be ready to erect the teel, place the concrete work and fully | visit to Alaska.

inclose the building during the dry Summer months in 1999, our plan being to complete the building by Pebruary, 1910. We will complete our Los Angeles building by October, this year, and our Seattle building by January 1 next. This will enable us to send to Portland our construction force.

Millions in Building.

"We do not let contracts for construc-tion work for the good reason that we have our own architectural and construc-tion department and do all of the work ourselves. The allied Trustee Companies have in the past four years developed about \$6.225,000 worth of business prop-erty in Seattle. Spokane and Los An-geles, which is probably as much, if not more than any two concerns on the Pamore, than any two concerns on the Pa-cific Coast have handled in the same time. We have a working capital of \$1.400,000, which is now being used in construction of the Los Angeles and Seattle proper-ties, to be completed this year. Our next work will be the Portiand buildings, the one on the Pennoyer block to be erected

"Portland business property is today cheaper than similarly situated property in Seattle, Spokane or Los Angeles, and we look upon it as one of the very best fields for investment on the Pacific Coast.

MRS. J. B. HARRIS IS DEAD

Oregon Pioneer Passes Away at Home on East Side.

Mrs. J. B. (Harris, an Oregon pioneer died yesterday at her home, 635 East Morrison street, aged 64 years. The cause of death was paralysis, she having suffered two strokes last June. Mrs. Harris was born in Missouri and crossed the plains with her par-ents when S years old, settling on a donation land claim three miles southwest of Eugene. In 1863 she was mar-ried to J. B. Harris, of Harrisburg, Linn County, and lived on a farm there for 20 years, when the couple moved to Eugene, spending 18 years there and then moving to Portland In 1901.

Mrs. Harris was the youngest daughter of Elder Phillip Mulkey, a

ploneer Christian minister. The re mains will be taken to Eugene burial in the old family cemetery. neral arrangements had not been made

Kelly Finds Catcher.

Joe Stutt recently received a letter from "Father" Tom Kelly, the veteran balltesser, who is now numbered among the players of the speedy little four-team Coos Bay League. Kelly is with Marshfield, and writes that there are a number of splendid young players now cavorting around the diamond in that league. He especially recommends Peralta, a husky young catcher, who, Kelly thinks, is capable of making good in faster company. Tom also states that Young Thiele, the pitcher who was with Los Angeles for a minute or two this season, is worthy of a

Feed Merchant Brings Action After Street Mishap.

CUPID INVOLVED IN CASE

Plaintiff Also Concerned in Litigation Following Alleged Promise to Marry Elizabeth

In dividing our attention, diverling our energies and our money to the development of properties in your city, we back our judgment; for we certainly would not take up the subject of investing in Portland if we did not look upon it as an advantageous investment field."

Mr. Hawley left for Spokane last night.

Peter Johnson, proprietor of a feed store at 380 Hawthorne avenue, was sued lately by Elizabeth Bock, who asks \$5000 for alleged loss of his affections and brought action on his own behalf in the Circuit Court yesterday. He will be out only \$100, even if he loses his case with Miss Bock and Peter Johnson, proprietor of a feed if he loses his case with Miss Bock and wins one against Dr. G. E. Watts. Johnson accuses Dr. Watts of having run him down with an automobile May 24, severely injuring him, so that he was forced to occuy a bed at one of the hospitals for three weeks. John-

son also filed a motion asking Miss Bock to explain where they were on May 27, when, as she alleges, he pro posed marriage to her. It is his pur-pose to show that he was in no condition to be proposing at the time.

Johnson's demand on the Watts exchequer is as follows:

Two breaks in shoulder bone @ \$1250.82.500
Demodished buggy 175
Doctor, surgeon 155
Surgery, bandages, anaesthetics, bed 155
Loss to feed business through stay of three weeks in the hospital... 2,000

Total84,000 The Watts auto was running at a rate of from 40 to 80 miles an hour when the collision occurred, according to the complaint. Johnson alleges that he was driving leisurely towards town and was struck from behind. He was taken home, kept for three days, and then removed to the hospital for three weeks.

In a second legal document Johnson shows curlosity as to how he promised to marry Miss Bock while in such a condition. According to that woman's complaint they were to have been married May 28 and had their prospective home furnished. She declares Johnson falled to appear and her heart was broken to such an extent that not less than \$5000 can ease the wound and make life seem worth living again.

Sues for Last of Shipment

W. N. Daniels, on behalf of the La Grande Creamery Company, sued the Northern Pacific Railway Company, in Northern Pacific Railway Company, in the Circuit Court yesterday, to recover \$1136.99 damages because of careless-ness in the shipment of butter and poultry. It is alleged that the company accepted 37 boxes of frozen poultry and \$30 boxes of butter for shipment to the local creamery from Concordia, Kanssis, The butter and poultry was theseworks. The butter and poultry was thoroughly leed before being shipped, but was not leed en route. The poultry was not even fit for restaurant use when it arrived, while the butter was little better, having been flavored by the odors of decaying poultry. So Daniels wants the value of the shipment.

Divorced From Drunken Husband. Ada Miller Brown, late of San Fran-

cisco, got a divorce from her drunken husband, Frederick Emery Brown, in the Circuit Court yesterday forenoon, Mrs. Brown and her sister told of Brown's habits, saying he was always good-natured and always drunk. He made a good salary but turned it over to needy salqonkeepers as fast as he to needy saloonkeepers as fast as he got it. Mrs. Brown got just about enough to worry along on and no more. One day he left, saying he was going to take a lucrative position. That was many months ago. He is yet missing. Brown is a San Francisco newspaper man. By decree of the court, his wife is now a grass widow.

HOUSEHOLD SUPPLIES.

ing good in faster company. Tom also states that Young Thiele, the pitcher who was with Los Angeles for a minute or two this season, is worthy of a trial in the Pacific Coast League.

Mrs. W. L. Whitmore, of Portland, and Mrs. Geary Young, of Oakland, Or., have returned to this city after a two weeks' visit to Alaska.

Copies of the articles were sent to the Secretary of State at Salem and Will be filed at the state capital within the next few days. Officers were elected as follows: President, C. W. Nibley, Salt Lake City; vice-president, J. N. Teal,

Portland: secretary and treasurer, Alex Nibley, Salt Lake City.

President Nibley will reach Portland within the next few days and will make all arrangements to start work on the big cement plant to be erected in the immediate vicinity of Portland, which will be the president of the property of the president of mediate vicinity of Portland, which will be the biggest cement manufacturing establishment in the Pacific Northwest. The company has not yet closed negotiations for a site for the plant, although several are being considered. It is said that the establishment will probably be placed at Oswego, although this will not be decided until the arrival of President Nibley, who will complete the purchase of a site. of a site.

and in operation within the coming year. Directors of the new company are: T. B. Wilcox, C. E. Ladd, J. N. Teal, Allen Lewis, Tom Richardson, all of Portland; C. W. Nibley, W. W. Riter, Joseph Geoghan, Charles Burton, H. G. Whitney and J. F. Nibley, Salt Lake City.

GRANGE PLANS BIG FAIR Patrons of Husbandry at Milwauki Prepare Programme.

At the meeting of Milwaukie Grange, Patrons of Husbandry, yesterday it was September 24, 25 and 26-Thursday, Friday and Saturday. It will be opened Thursday night, September 24, with an entertainment mainly by pupils of the public school and an address by Senator Fulton. Friday afternoon there will be the baby show, in charge of Captain James P. Shaw. Saturday there will be a barbecue and good roads convention. Judges J. H. Scott and Lloriel Websier, of the Good Roads Association, will make addresses, and in the evening there will be a dance. Special efforts will be put forth to present a superior agricultural and industrial exhibit of all lines. Both the upper and lower halls of the Grange building will be used, and a large tent will be secured for more space if it be found necessary. Harmony and Oak Grove Improvement Associations will cooperate. At the close of the fair the exhibits will be taken to the Clackamas and Saturday. It will be opened Thurshibits will be taken to the Clackamas County Fair, which will be held at Canby the first of October. Following are the

Executive committee in full charge, Mrs. Maggie A. Johnson, Richard Scott of a site.

Offices of the new company have been opened in the new Bosrd of Trade building and the two sons of President Nibley, Alex and J. F. Nibley, will remove from Sait Lake City to Portiand and will make this place their permanent home.

When complete, the new industry will employ about 200 men and will be operated day and night. The initial capacity will be about 1000 barrels of cement a day, It is expected to have the plant complete.

MAY NOT GET FRANCHISE Opposition at Mount Scott to Kel-

say's Water Project.

Circulation of remonstrances against granting a water franchise to the new water company formed by B. S. Kelsay was begun in the Mount Scott district vesterday. These remonstrances will

be presented to the County Court ask ng that the hearing be had at some

time when Mount Scott can be represented in the matter. A meeting was held in the neighbor-

hood of Firland, near Mount Scott, Friday night, to hear reports on the Kelsay project and also to consider the question of forming a corporation of Firland and Anna Marie Park. The committee reported that it had been unable to obtain any information con-cerning the proposed water plant. There was some discussion of the Keisay project and a copy of the com-pany's petition to the County Court asking for the franchise and profising water within six months, was read. After considering the matter of forming a corporation and getting a water supply through a municipality, this movement was rejected by a large vote. There are some in favor or Kelsay project and others oppose it. Rosenthal's windows are money-savers

There are certain mineral medicines which will remove the external symptoms of Contagious Blood Poison, and shut the disease up in the system for awhile, but when the treatment is left off the disease will surely return. Then the loathsome symptoms of ulcerated mouth and throat, copper-colored spots, falling hair, sores and ulcers, etc., are usually worse because the disease has made rapid progress on the internal members, and weakened the constitution and general health of the sufferer. S. S. S. is the only remedy that can be used with perfect safety in the treatment of Contagious Blood Poison, and with the assurance that a lasting cure will result. This medicine, made entirely of roots and herbs of recognized curative and tonic value, antidotes and destroys the powerful virus of the disease, and by purifying the blood of every particle of the poison and enriching and strengthening the circulation, removes every symptom of the trouble. S. S. S. does not hide or cover up the disease in any way, but drives it entirely out from the blood, leaving not the slightest trace for future outbreaks. Home treatment book with valuable information and any medical advice desired sent free to all who write.
