American-Hawaiian Company Announces Regular Schedule From Portland.

NEBRASKAN IS FIRST SHIP

Local Merchants Will Receive Freight in Portland Between 25 and 39 Days From Date of Shipment From New York.

Representative Roberts, of Cook & Co. through Local Agent Kennedy, of the American-Hawaiian Steamship Company, American-Hawaiian Steamship Company, has advised the transportation committee of the Chamber of Commerce that the line of steamers operating out of New York, via Tehauntepec, will make Portland a regular port of call. The first steamer will be the Nebrasian, which is acheduled to reach Portland September 21. After that date there will be a 21-day service. The steamers which will serve Portland will be the Nebraskan and Nevadan, each of which has a capacity of about 7000 tons. The vessels will leave Salinas Cruz, the western terminus of the railroad at the lethmus, every II days, stopping at San Diego, Portland and Seattle, north bound, and at San Francisco, south bound. This arrangement will give Portland shippers an opportunity to ship East as well as West.

West.

The American-Hawalian Company dispatches a steamship from New York each Thursday. This will give three opportunities for shipment of Portland freight between each sailing of the Portland steamer from Salinas Cruz. The time in transit from New York will depend on the date of the steam shipment and will run from 29 days for the longest to 25 days for the shortest. Freight leaving New York September 3, 19 or 17, will reach Portland October 12 via the steamship Newadan.

The transportation committee of the Chamber of Commerce has issued a circular letter to all merchants setting forth the facts and asking the co-operation of

To Take Big Cargo at Montesano.

MONTESANO, Wash., Aug. 15 .- (Spe cial)-The steamer Casco, Captain Ahlin, arrived yesterday afternoon and will take a cargo of 800,000 feet of lumber for Re-dondo, Cal., from the docks of the Montesano Lumber & Manufacturing Com-pany. This will be the largest cargo ever taken down the river from this place. This steamer was here some time ago and took only a part of a load, fin-fahing in the lower harbor, fearing the channel would not permit a full cargo, but she made the passage down the river in perfect safety, drawing 16 feet of water. So this time she will take a full

Brings Silk and Chinese.

VICTORIA. B. C., Aug. 15.—After escaping the disastrous typhoon at Hongkong by scarcely more than a day, and experiencing good weather throughout her voyage until fog banks delayed her off Vancouver Island, the Empress of China reached port last night with 62 saloon passengers, 51 second-class and 364 Chinese steerage bassengers, of whom 32 debarked at this port. The cargo included raw silk and silk goods valued at a mil-lion and a quarter dollars.

Pulled From Auto and Beaten.

SEATTLE, Wash., Aug. 15.-Frank Spatin, chauffeur for the Craden Maxey Company, was brutally beaten early this morning by three men, to whom he had refused to give a ride. Spatin was out on a lark in the auto, and near Lake Washington he was stopped by three men. They asked him for a ride, and when he refused, dragged him from the car, beat him into insensibility, and took the car. The machine was found later on Rainier boulevard, five miles away.

Captain Hoben Heaves Anchor.

Captain Andrew Hoben surveyor for the Bureau Veritas, is the owner of an automobile. Captain Hoben docked the machine in front of the pilot's office yesterday afternoon. There was strong wind blowing and fearing that the machine raight carry away the lines the master put out a patent anchor with one fathom of hemp cable. It is reported that the Captain placed the fourth cook on watch but that the latter deserted his post. Captain Hoben recently returned from San Francisco and while in the Bay City was presented with the patent anchor which serried with the patent anchor which served him so well yesterday.

Steamship Alesia Reaches Port.

With only a small quantity of freight for Portland, the steamship Alesia, of the Portland & Asiatic Steamship Company, reached Portland late last night from Hongkong and Japanese ports via Hono-lulu and San Francisco. The Alesia sailed from the other side with a full cargo but the amount brought to Portland was small. All Eastern shipments were dis-charged at San Francisco. There is a full outward cargo awalting the steamship.

Major McIndoe to Inspect Jetty.

Major McIndoe, United States Engineers, accompanied by Assistant Engineer Bagnal and other officials of the Government, will leave for Fort Stevens this morning on the steamer Arago. It is the intention of Major McIndos to make a thorough impection of the works at the mouth of the river. The party will return the latter part of the week.

The steamship Rose City sailed for San Francisco yesterday with a full passenger list.

The steamship Alliance sailed last night for Coos Bay ports. She carried 450 tons of freight and a good passenger list. The steamship Breakwater is due to arrive this evening from Coos Bay ports. The steamship Northland sailed yester-day for San Pedro and way ports.

Arrivals and Departures.

POETLAND, Aug. 15.—Arrived—German steamship Alesia, from Hongkong and way. Salied—Steamship Rose City, for San Francisco; steamship Alliance, for Coos Bayports; steamship Northland, for San Francisco, Santa Bastera and San Pedro.

Astoria, Aug. 15.—Arrived at 9:25 A. M. and left up at 2:40 P. M.—German steamer Alesia, from Hongkong and way ports via San Francisco. Arrived down during the Night—Steamer R. D. Inman. Left up at 12:29 P. M.—British ship Andorinha. Arrived down at 3:39 P. M. and salied at 5:30 P. M.—Steamer Rose City, for San Francisco.

land.
San Francisco, Ang. 16.—Arrived—Steamer National City, from Fort Bragg; steamer Helen P. Drew, from Greenwood; steamer F. A. Kilburn, from Eureka; steamer City of Topeka, from Eureka; steamer Santa-Monica, from Grays Harbor. Salled—Steamer Geo. W. Elder, for Portland; steamer Argo, for Eel River; steamer City of Pueblo.

Seattle; steamer John Poulson, for Astoria, schooner C. T. Hill, for Coquille River; steamer Ravalli, for Eureka; steamer San

BIG COPPER DISTRICT RICH

BAKER CITY, Or., Aug. 15.—
(Special.)—Few realize in the West and fewer in the Middle West and fewer in the Middle West and feast the wonderful riches of the great Seven Devils copper region, bordering on the shores of the Snake River opposite the extreme eastern line of Oregon. Not only on the Idaho side, but on the Oregon side, are famous mines from whose bowels will pour the richest copper the world has ever produced, sinking into nothingness even such mines as those now world producers for a quarter of a century. It is estimated by those now on the ground that this one region within a radius of Homestad, the post-office on the Oregon side, where is situated the Iron Dyke mine, will pro-

Yield in Inland Empire Exceeds Early Estimates.

GENERAL PLANS COMPLETED FOR . MAIN FACTORY AT GORDON FALLS

WOOLEN MILL, AS IT WILL APPEAR COMPLETED.

Gordon Falls, will be 200x60 feet, with a wing 100 feet long. It has not yet been decided whether the struc-

ture will be built of cement or of ctone. The building will accommodate machinery for a six set mill, but whether or not the full equipment will be installed at the outset has not yet been determined. E. Y. Judd

and T. O. Doud, Eastern stockholders of the company, are now procuring figures on the machinery, which is

to be of the latest type. There is to be no shafting, as each machine is to be operated by its individual motor. In the near future the architects will prepare the plans for the hotel at Gordon Falls, and as soon as possible the building will be started, as it is the intention to have various buildings ready for occupancy

at as nearly the same time as possible. J. H. Cunningham, engineer for the company, has begun work on

ly the section tributary to Portland, and I find that the previous estimates of the

wheat crop have been too low and while the results will not come up to last year's exceptionally large crop, I am inclined to place the total yield of Oregon. Wash-ington and idaho close to 50,000,000 bush-els. In fact, I should not be surprised if the results in Idaho will bring the to-

"I took occasion to investigate con-ditions as closely as possible and from my observations I feel safe in putting the State of Washington down as producing 31,000,000 bushels. Idaho will produce

every bit of 6,000,000 bushels, leaving 13,-000,000 for Oregon.

Crops Break Record.

better than anticipated, running from se to 45 bushels to the acre.

"The country adjacent to the North-ern Pacific from Pullman south will, ac-cording to all reports, have a record crop, while the Camas Prairie district in Idaho

while the Camas Prairie district in Idaho claims to show much better results than last year. The predictions are that the yield in the country tributary to the Northern Pacific, will, if anything, be increased. Around Cottonwood, Idaho, harvesting is well under way and the farmers all predict a heavy yield of Fall grain. The Spring crop will be a little below normal. Around Pomercy, harvesting is progressing satisfactorily. Conservative estimates place the yield of barley at 32 bushels, and Spring wheat at 20 bushels.

Yield's Quality Good.

goes all the way from 40 to 48 bushels per acre and in many cases the results seem to indicate better results by 20 per

cent than at first expected.

tal figure above the 50,000,000 mark.

> "While fully appreciative of the commercial importance and no doubt unrestricted expansion of such cities as Tacoma. Seattle. Spokane, Lewiston, and othings with all the elements of mining

In the early Tos, W. A. Paul, a well known Linn County pioneer who died a few years ago, was hunting near Mount Jefferson when he discovered a quarts ledge of great richness. A sample of the ore which he brought to Albany assayed \$5000 to the ton. He kept his discovery secret and later tried in vain many times to relocate his great find. King was among the few friends he told of the dis-covery, and while the latter was visiting in Albany last month he met Smith, with whom he had mined in pioneer days. The two old men, both of whom bave lived more than four-score years, then deter-mined to search for the long-lost ledge, and W. S. Paul, a son of W. A. Paul, the

discoverer, accompanied them on the quest, which began July 30. from Kimberly says the fire threatening Kimberly is in a worse condition than ever if the wind changes. The ranger is trying to get 50 men to go to fight the The three men went far back into the mountains, about 30 miles north of Detroit, the terminus of the Corvallis & Eastern line, and searched together until Smith became ill and was forced to re-Smith became in and was forced to re-turn to the valley. Paul and King then continued the quest and came across a mine which had been located under the name of the Ogle Creek mine, which, from the descriptions of the country given him by his father, Paul believes to be the long-DECATUR, Ill., Aug. 10.—There is no truth in the rumor that Springfield ne-groes are urging negroes in this vicinity to go to Springfield and help the Spring-field negroes to fight. The negroes here lost mine. It was discovered last Wint by two brothers whose name Paul did not learn and the property is said to be very valuable.

Believing they were a year too late in

their search, Paul left for home, but King, | the case, though, for all the papers have who is rugged in spite of his advanced age and who has but lately returned from mining interests in the Klondike, remained in the mountains and is yet searching in hope of locating either Paul's lost ledge or some other good gold mine.

SAYS BROTHER JOHN LIES

Peter Claudianos Denies All Knowledge of Dynamite Outrages.

SAN FRANCISCO, Aug. 15-Peter Claudianos, the Greek arrested at Chicago several days ago, who arrived here last night, was placed in the City Jail after midnight, having been kept at some place not revealed by the prosecution during the evening hours. John Claudianos, brother of Peter, who is in jall on a charge of being implicated in the dynamiting of ex-Supervisor Gallagher's Oakland house some months ago and who involved Peter in the several confessions he has made, was not confronted with his brother last night.

According to a statement published here Peter denied any knowledge of the dynamiting cases in talking with the detectives on the train. "John is a liar," Peter is said to have declared. "I don't now the first thing about these

been printing lies about me and I'm sick and tired of it. What did I light out and tired of it. What did I light out for if I didn't have anything to do with it? Why, I knew if they caught me that I'd have to spend a lot of time explaining, and would probably have to stick around in jail here for three or four months. I didn't want all that trouble, so I lit out. I tell you I won't talk." Detective Burns, who brought Claudianos from Chicago, said yesterday that the cases against Peter and his brother ware perfect and declared they would be were perfect and declared they would be

Peter Claudianos was arraigned in the Police Court today on the charge of crim-inal conspiracy. He was represented by Attorney James W. Scott end Assembly-man Nathan Coghlan, at whose request Judge Shortall continued the case until Monday morning, when the date of the preliminary hearing will be set. Scott and Coghlan were retained by Nicholas Elustathiew, a wealthy Greek rancher of Oro-ville, an uncle of the accused Claudianos

District Attorney Langdon, who personally represented his office in the Police Court, declined to make any statement as to what information he and his chief special agent, William J. Burns, had obtained from Peter in the "sweating" to which they subjected him from the time they boarded the overland train in Nevada yesterday until its arrival here.

Cor. Second and Morrison Streets, Portland, Or.

MY FEE \$10.00

Different doctors have different ideas in regard to cures. Some call a suppreasion of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real aliment remains and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much worse condition. I claim that nothing less than complete eradication of disease can be a real cure. I treat to remove the disease can be a real cure. I treat to remove the disease and not merely the symptoms. I search out every root and fiber of the aliment, and I cure to stay cured.

I not only cure all weak conditions promptly, but I employ the only treatment that can possibly cure such disorder permanently. It is a system of local treatment entirely original with me, and is employed by no physician other than myself. This may seem a broad assertion, but is just as substantial as it is broad.

Contagious Blood Poison I cure this leprous disease completely. The system is thoroughly cleansed and every poisonous taint removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harmless blood-cleansing remedies. Do not submit to the dangerous misseal dosing commonly indulged in. Such treatment merely obscures the symptoms.
