New police regulations concerning theaters published today prohibit categorically the toleration by the management of any conditions that may prevent the public from seeing or hearing a performance, Even a mountainous style of dressing the hair may create trouble for a womin, as the ordinance says:

"If complaint be made by a spectator that because of the headdress of anyone before him he cannot see, the cause of complaint must be removed." In other words, the "rats" must be taken off, or the lady must leave. Women in theaters here no longe njoy greater liberties than men. Democratic Leaders Confer in Chicago and Decide to Make Middle West and Atlantic States Battle-Ground for Votes.

CHICAGO, Aug. 22.-William J. Bryn will make a determined effort to place New York State in the Democratic column. Plans to this end were carefully laid today at a three-hour conference of Mr. Bryan, National Chairman Mack, heads of the various oureaus of the National Committee, and members of the executive committee at Democratic headquarters, shortly after Mr. Bryan's arrival here from

Mr. Bryan will speak in New York, Syracuse and Rochester between September 16 and 20, and early in October will again speak in New York City and in Buffalo. Reports received by Chairman Mack gave strong hope to Mr. Bryan and members of the National Committee that the Democrats could carry New York if Mr. Bryan would speak in the principal centers of the

Send Kern to Pacific Coast.

It was further developed at the conference that Mr. Bryan would make a sharp fight in the Middle West, while John W. Kern, the Vice-Presidential candidate, would likely be called upon to make an extended tour of the Pacific Coast States.

After the conference had been called shortly before noon, Chairman Mack directed that the heads of the various emmittee bureaus submit reports of their plans and the progress made in their bureaus. The National Committeemen present told of the situation in their states, and it was generally agreed that the outlook for the Demo-

Political conditions in the Middle West were taken up, and Senator Culberson, chairman of the advisory committee, who has been spending the Summer in Maryland, informed Mr. West Virginia and Maryland would in all probability be found in the Democratic ranks.

Make East Battle-Ground.

It was the opinion of those taking active part in the committee's deliberations that the most effective campaign for Mr. Bryan would be to make speeches in all the Middle West states, speaking only in the principal centers and then to carry the fight through West Virginia, Maryland, Delaware, New Jersey and New York State. Much of the time, it was suggested. Mr. Bryan would spend on these in the various state campaigns.

Experienced brokers said they had never seen such extraordinary evidences of bold manipulation.

Wholesale matching of orders being sur pected, the sheets showing the day's transactions will be closely scrutinized as they go through the stock exchange clearing-house Monday. Prices Go Bounding Up.

Public interest in the stock market was at a low ebb at the opening this morning. The astonishment was general, therefore, when transactions in very large blocks of stocks began immediately after opening, and prices kept changing quickly without appar ent reason. Brokers noted this ec centricity, particularly when Great Northern, the old standard investment stock, went jumping half points between sales.

Sales of 5000 shares and upward of various stocks chosen for today's display were so frequent as to make a man dealing in 1000 shares look like a piker. In fact, a broker trying to execute an order for 1000 shares or less was overlooked.
