OWNERS WANT PARK

**Mount Tabor Land Will Be
Sold Reasonably.**

PLANS FOR FINE DRIVEWAY

**Citizens Will Hold Meeting to De-
termine Upon Recommenda-
tions to Be Made to
Park Board.**

On this page is reproduced a birdseye view of the 124 acres of land in Mount Tabor which the park committee of the Mount Tabor Improvement Association recommended for purchase by the city, to be devoted to a park.

This area embraces a number of scenic attractions and is well adapted for the desired purposes. After a careful canvass among the owners of the various tracts of land, the conclusion was reached by the Mount Tabor Park Committee that the properties can be had at an acreage cost of not to exceed \$100 an acre. It is believed at the present time that this can be done at no greater expense to the city providing condemnation proceedings are instituted.

The proposed area has a frontage on West avenue of 321 feet, as well as an opening from the corner of East Tarnhill and East Sixtieth streets, connecting with the winding road back of the Portland Sanitarium. An opening from the end of the Mount Tabor carline on Tabor Heights, and another on the County road east of Mount Tabor, now known as East Seventh-street, will make the property accessible from the south. By a circular driveway connecting with the Water Company's right of way from the Section Line road, the proposed park can be entered from all four sides. This tract includes the 124 acres recommended by Olmsted Bros.

A meeting is to be held in the near future to discuss the question of a park, and a definite conclusion will be reached at that time as to what will be recommended to the Park Board.

Frank J. Perkins is secretary of the Mount Tabor Park Committee.

FARMING PROJECT ASSURED

**Half Capital Stock in Realty Board
Plan Subscribed.**

About half the capital stock of the Realty Board's intensive farm plan, proposed by Whitney L. Boise, has been subscribed. At the last meeting of the board the capital stock was authorized in the sum of \$10,000, to be divided into shares of \$10 each. So far nearly every member of the board has subscribed for shares, and information has been received that railroad companies, merchants and business men generally are interested in the proposal and will be glad to take shares. The board, however, desires that the stock shall be subscribed by its own members to as great extent as convenient, and has appointed James O. Rounsvree and Whitney L. Boise a committee to present the matter to the remaining members and close up the subscription list.

At the next meeting of the board the subscription committee will report, and it is expected that a committee will then

be appointed to consider and recommend a tract for purchase and subdivision. The plan has attracted the attention of those interested in colonizing the state with additional desirable classes of immigrants who will enter heartily into the development of the resources of Oregon.

BARBERS EXPECT VICTORY

**Union Representatives Wage Strong
Fight Against Low Schedule.**

Members of the Barbers' Union are sanguine of victory in the vigorous warfare they are waging against several shops which formerly held union cards. The union is directing its fight against three of these shops in particular and was gratified yesterday to see one of the shops post a sign announcing "any beer since these shops withdrew from the union, the organized barbers have directed a strong fight against them. Pickets have been posted and men, carrying placards announcing the shop to be unfair, have been patrolling the street in front of each establishment. Not less than 20,000 boxes of matches were distributed on the streets yesterday by members of the unions. Each box is labeled with the name of one of the three shops and sets forth the fact that it employs non-union help. On the under side of the box is a suggestion that all friends of organized labor patronize only shops that employ union labor.

BUILD NEW WASCO LINE

**Construction Soon to Begin Into
Rich Valleys.**

Active construction of the electric railroad planned by the Wasco Electric Light & Power Company is promised within the next few weeks. The Portland Construction Company, which has the contract, is awaiting the completion of the surveys from Condon to Mayville, when work will

be started. A second surveying gang left the city yesterday to assist the first party in completing the mapping out of the projected lines.

The railroad will touch Fossil, Dayville, Prineville, Madras, Detroit, beside a number of smaller places. It will open up 14 valleys to the outside world. The company itself has mapped out five town sites. It is planned to have the road completed by the end of next year, so that crops will be hauled out to market.

The project includes the development of the mining industry throughout the country to be traversed by the line. There is a large mineral district to be entered and a big reduction plant will be operated by the electric company. Power will be generated by plants located on the Deschutes and John Day rivers. It is expected that sufficient power will be forthcoming in excess of that needed by the railroad to operate the ore reduction plant and enough left over to distribute to power consumers throughout the district served by the railroad.

Coal mines in the vicinity of Fossil and Mayville will be opened up by the road and a great intensive development of the whole section is planned by the promoters of the trolley system.

Church bell ringing in London has become such a nuisance in some quarters of the city that the bells are muffled on week days.

GOOD YEAR FOR PICKERS

**HOP VINES ARE UNUSUALLY
FREE FROM LEAVES.**

**Conrad Krebs Says Those Working
in Yards Will Make More
Than Ever Before.**

Hop pickers in Oregon will make more money this year than ever before, according to Conrad Krebs, the owner of two big yards at Independence and Brooks.

"I believe that the individual earnings of the hop pickers will this season average the largest sum in the history of the industry in Oregon," said Mr. Krebs yesterday. "I base my prediction on the fact that there are hardly any leaves on the vines this year—in fact, they have not been so leafless in years. This will make the picking easy."

"We have decided to pay \$1 a hundred for picking, notwithstanding the

low market. Most of the growers have reduced their picking price to 80 cents a hundred, but we feel the pickers are entitled to receive good wages for their work."

The Krebs yards will require 1000 pickers this season, and most of them will be secured in Portland. Mr. Krebs opened an office in the Worcester building yesterday and has already engaged a considerable number.

LINEMAN GETS BAD FALL

**Fred Von Rossum Meets With Accl-
dent in Courthouse.**

Fred Von Rossum, a lineman, was painfully bruised by falling a distance of 14 feet in the upper part of the Courthouse, early yesterday afternoon. He was placing wires in the vacant space above the second floor when he fell, striking the ceiling of the second floor. The plaster gave way but he was supported by joists. Otherwise he would have fallen 20 feet additional and might have been seriously hurt.

He was taken from the joists, where he had become pinned. At first it was thought his injuries were serious and a carriage was called in which

he was taken to the Good Samaritan hospital. Here he was able to walk inside. A wrenched ankle and bad bruises seemed to be the extent of his hurts and he will be out in a couple of days unless internal injuries develop.

SCIENTIST TAKES RABIES

**Chicago Man Inoculates Himself
With Hydrophobia by Accident.**

CHICAGO, Aug. 22.—Antonio La Goria, founder of hydrophobia, has become inoculated with the disease he long has fought. The famous specialist became infected with the hydrophobia germ while experimenting on a rabbit in his laboratory. He now is a patient at his own institute under the care of his assistant, Dr. G. D. Bruno, and testing the efficacy of his own treatment. Although the disease has reached an acute form, the physician said last night he was not at all alarmed.

Dr. La Goria in dissecting the animal's brain, ran a sharp piece of bone under the nail of the index finger of his right hand. He thought nothing of the incident at the time, but later felt slight symptoms of rabies. Dr. Bruno was called into consultation and an examination showed that Dr. La Goria had become inoculated.

HIGHWAYMAN IS ROBBED

**Farmer Beats Off Assailant and
Keeps Watch and Money.**

NEW YORK, Aug. 22.—Raymond D. Tuttle, a farmer of Lincoln Park, N. J., was "held up" by two highwaymen, and in consequence one of them is poorer by a gold watch and \$25, which Tuttle will hold as the spoils. He was returning

from Paterson when the two men leaped into his wagon and commanded him to disgorge the contents of his pockets. Instead, the farmer struck one of the men, knocking him over the dashboard, and the horses trampled on him. As the animals continued to speed along, Tuttle continued to fight the other one. Within 100 yards from his home he tore most of the highwayman's clothes off and buried him into the road.

Later Tuttle searched the clothes and in a waistcoat pocket found the money and watch. The latter is worth \$20.

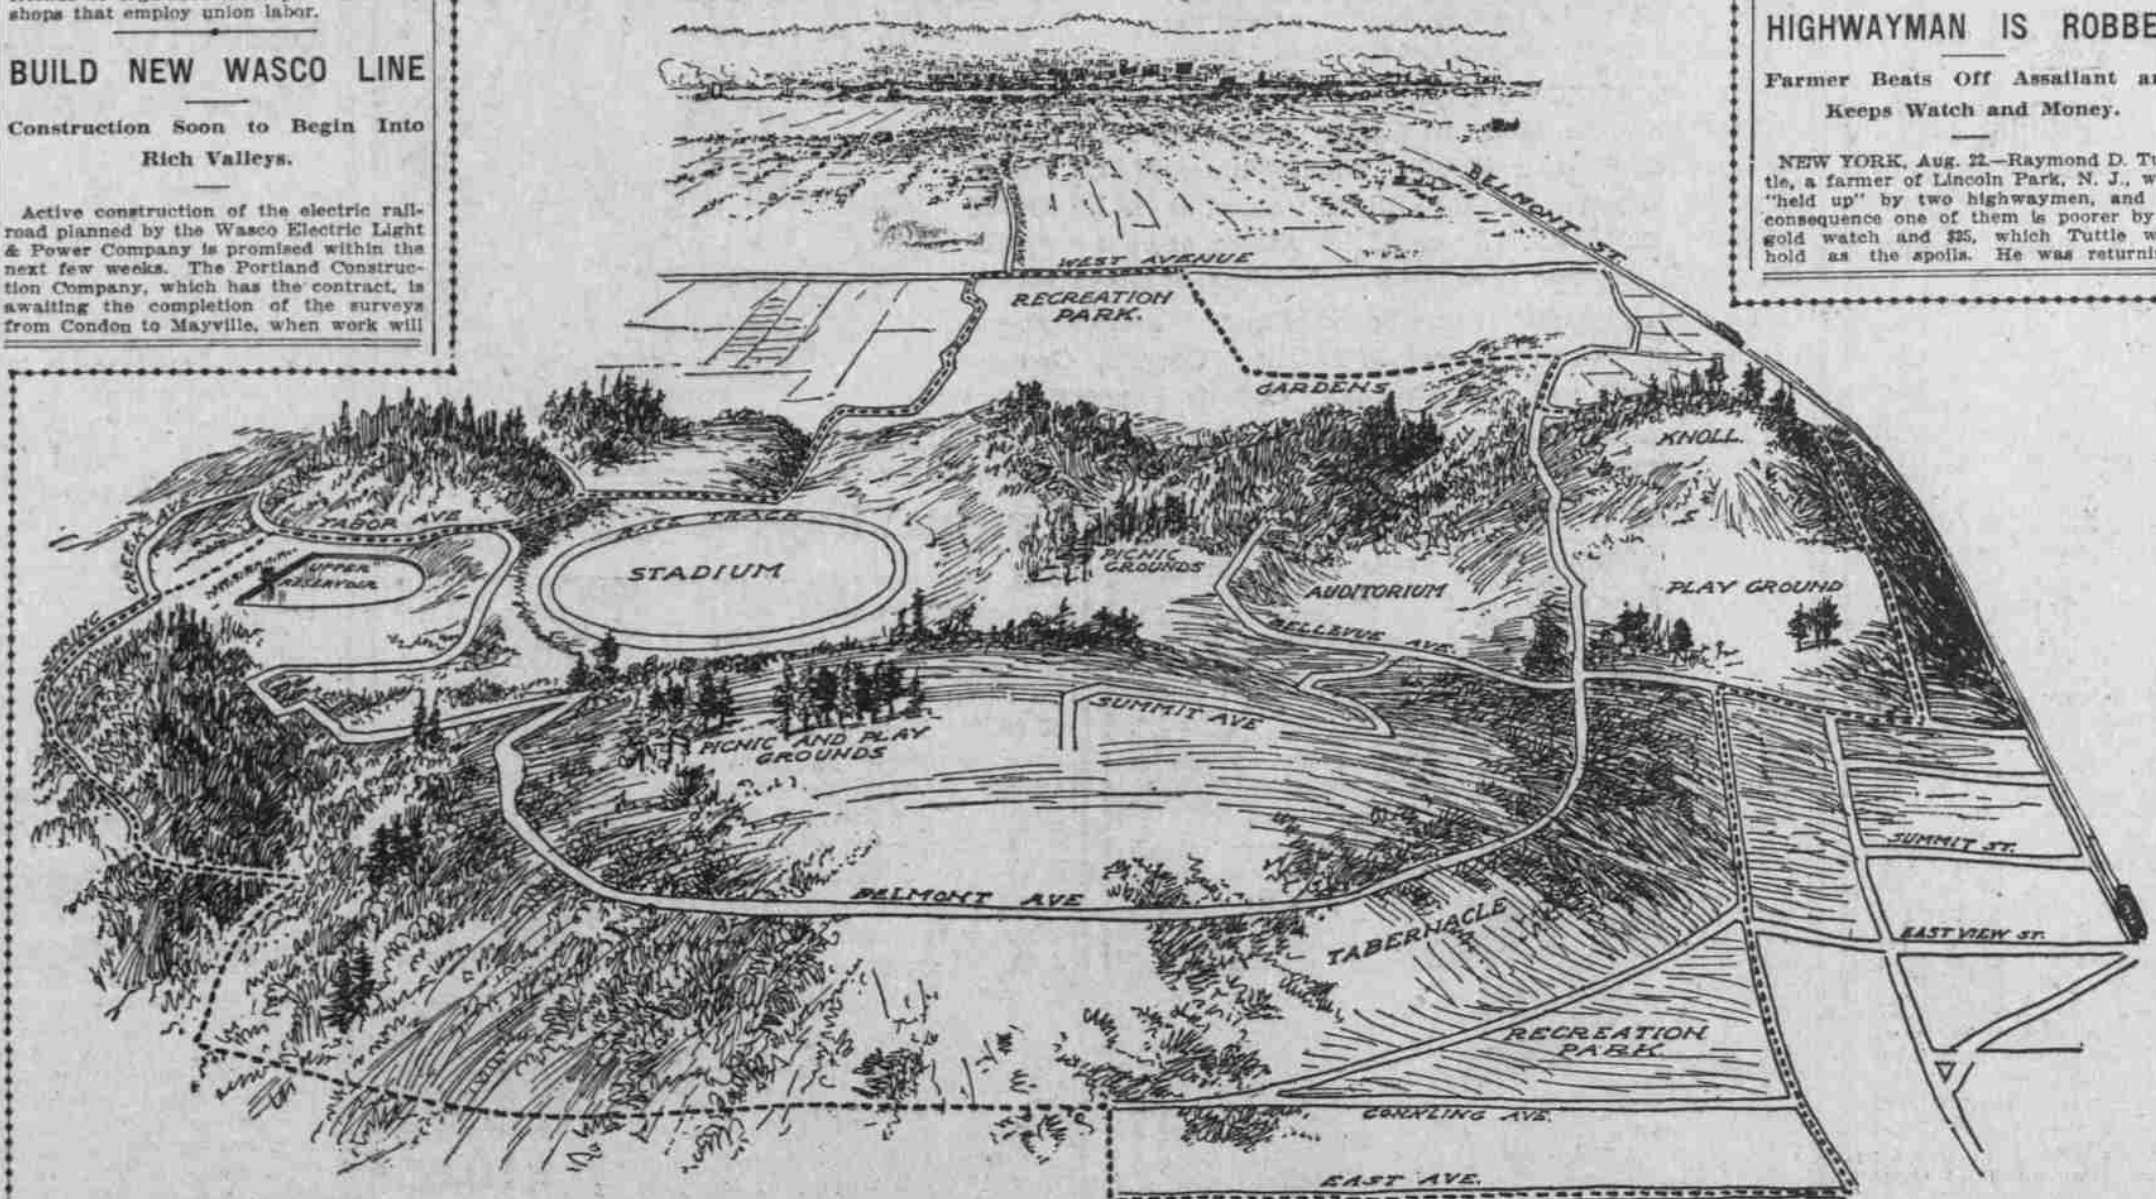

Wine Merchant Suicide.

NEW YORK, Aug. 22.—Francis E. Hill, 42 years old, of Bloomfield, N. J., junior partner of the firm of Henry C. Keller & Company, the wine and paper dealers of this city, committed suicide today by shooting himself through the head in the offices of that firm. Members of the firm know of no reason for the suicide.

Hear Talk by Minister Wu.

ASHBURHAM, Mass.—Aug. 22.—The feature of today's session at the conference of the Eastern Alliance of Chinese students here was the address to the students by Wu Ting Fang, the Chinese Minister to the United States.
