

Portland Heights Social Club Plans Functions

Number of Delightful Affairs Promised by "Cliffdwellers" for Coming Season—Membership of Club Growing Rapidly.

PORTLAND HEIGHTS is going to have a gay social season this winter and the activities will not be confined to the "Cliff Dwellers" themselves, but they are going to throw open their arms and welcome society folks from all parts of the city.

As present no one can appreciate the beauties of the interior finishes, but the possibilities are such that sufficient is left to the imagination to know that the clubhouse is going to be the prettiest and most complete of its kind in the city.

That the club is popular is evident from the number of applications for memberships that have been received. Of course, the club has as a nucleus for membership all of the stockholders in the company that purchased the club grounds and erected the building.

While the club nights will be a feature, the building of the clubhouse is going to have a wider effect on social affairs. It has been arranged so that any member of the club can secure the use of the clubhouse on certain evenings, and this means a series of private entertainments.

Announcement of the plans for the entire season will not be made for a week or two, when the social committee now working on the list of events will have completed its labor.
