Exquisite French Millinery

Trimmed Hats from France—As ever, French ateliers sent us real creations. Of course, from these places come the most pronounced examples of the Directoire period. Prominent among the foreign hats are those from Germaine, Reboux, Susanne Talbot, Esther Mayer, Georgette and Virot. Most of the shapes are large. The brims of most of them droop slightly. In the matter of colors employed in the trimming schemes, the tones are rich and the combinations harmonious. Large roses, carnations, other flowers, fancy feather bandeaux, wings, aigrettes, spangles, braid trimmings, gold and silver bands are much used in trimming. Prices range up to **\$100.00**

Our showing of new models at \$9.95, combining style, practicability and, above all, reasonably priced—is far ahead of any display made in this locality. Small or medium Semi-Dress Hats, suitable for street or dress wear; large Hats with all the grace and chic effects such as are usually found on only the more expensive patterns—are among the styles in this assortment. Color range complete, at **\$9.95**
