WILBUR WRIGHT'S LATEST WONDER

Beats World's Record for Aeroplane With Passenger on Board.

MEANS SALE OF PATENT

Fulfills Terms of Contract With Weiller Syndicate—French Journalist Flies With Him and Hugs Him on Landing.

LE MANS, Oct. 3.—Wilbur Wright, the American aeroplanist who holds the world's record for an aeroplane flight, established another world's record this afternoon for the time and distance with a passenger. With a French journalist by his side, he remained in the air for 55 minutes and 37 seconds, circling the field 24 times and covering a distance estimated at 58 kilometers, or about 36 miles. His best previous flight with a passenger was 11 minutes, 35 2-5 seconds.

By his feat today Mr. Wright practically fulfills the conditions of a contract signed by him and Lazare Weiller, who represents a syndicate, whereby Mr. Wright receives $100,000 and the syndicate takes in return the patent rights of the Wright machine for France and the colonies with the privilege of manufacturing aeroplanes on this model.

The sun was setting when Mr. Wright and his passengers started and the flight was completed in the moonlight. When they alighted, the French journalist in his enthusiasm threw his arms around Mr. Wright's neck and the great crowd of spectators was hardly less demonstrative in its manifestations of delight.

WILL COMPLETE BRIDGE

City of Hood River and Contractors Finally Agree on Terms.

HOOD RIVER, Or., Oct. 3.—(Special.)—A controversy between the Columbia Bridge Company, which is building a $4000 steel bridge across the Hood River, and the Hood River City Council, which has kept residents here keenly interested for several weeks, and threatened to involve both parties to the contract in litigation, was settled today at a meeting of the Council and representatives of the bridge company.

The bridge company claimed it was being asked to do work not called for in the specifications and wanted an additional sum which the City Council considered too much. Work was ordered stopped on the structure by the Council, and the company and its bondsmen notified that the contract was void. The bridge company refused to stop work and stated that it would complete the work in accordance with the specifications. At the meeting today an agreement was reached whereby the bridge will be completed. The city is anxious to have the bridge finished before the Winter rains set in, and wants the structure strongly built, as the current and floods in the river have washed away several bridges at this point within a few years.

PUBLICITY STOPS WRECKS

Newspaper Man Made Member of Board of Inquiry.

CHICAGO, Oct. 3.—(Special.)—Publicity is credited with having decreased accidents on the Harriman system of roads between 20 and 50 per cent during the past three years. This result is indicated by a report which has been made by Julius Kruttschnitt, director of maintenance and operation, to Edward H. Harriman, of a novel plan which has been tried out on that system of roads.

Besides decreasing accidents publicity has served, it is stated, to improve the discipline and increase the efficiency, and it has also protected roads against newspaper misrepresentation and unfair hostility on the part of communities.

The board of inquiry does its work quickly and it is not infrequent that a newspaper representative is a member. Men who neglect their duty and cause wrecks can stand being hauled onto the "carpet" in the general manager's office, but they cannot stand the light of publicity.

WANTS NEW YORK TRIAL

Jerome Says Cost Would Be Too Great in Westchester County.

NEW YORK, Oct. 3.—The total cost to New York County of the prosecution of Harry K. Thaw for the shooting of Stanford White has been $54,837, according to papers submitted by District Attorney Jerome to Justice Mills at Newburgh today. The purpose of Mr. Jerome's application to Justice Mills was to have the approaching trial on the question of Thaw's mental condition transferred from Westchester to New York County.

Mr. Jerome said in the papers that the trial in Westchester County would entail much greater expense than if held in New York County. He states that under the circumstances he cannot go to Westchester County to take part in the trial, October 12 having been fixed as the date for trial. There will be no jury.

WOMEN ELECT OFFICERS

Washington Suffragettes Select Mrs. Smith de Voe President.

SEATTLE, Wash., Oct. 3.—(Special.)—The Washington Equal Suffrage Association today elected the following officers: President, Mrs. Emma Smith de Voe, of Melmont; first vice-president, Mrs. May Arkwright Hutton, of Spokane; second vice-president, Mrs. Jennie Jewett, of White Salmon; third vice-president, Miss Ellen Graham, of Avon; recording secretary, Mrs. Anna E. Goodwin, of Columbia; corresponding secretary, Mrs. Ellen S. Leekenby, of Brighton Beach; treasurer, Dr. Cora Smith Eaton, of Seattle; auditors, Dr. Anna Scott, of West Seattle, and Miss Bernice A. Sapp, of Olympia.

The board of trustees, which was composed of men, was ousted, and three women were substituted. They were Mrs. B. B. Lord, Mrs. Georgia Smith and Mrs. Kropp.

An important feature of the afternoon was the raising of funds to carry on the fight for woman suffrage, particularly before the Legislature. Dr. Cora Smith Eaton, treasurer, took the platform and made the appeal. Mrs. May Arkwright Hutton, of Spokane, started the fund with a pledge of $100 and others followed in quick succession from $50 down to $5, some pledges representing local clubs and others those of individuals. The total amounted to $1000 and another $1000 will be raised later to carry on the campaign.

Features of the convention were addresses by Supreme Judge Milo A. Root and Rev. J. D. O. Powers, of Seattle, who favor equal suffrage.

TAFT SPEAKS IN KANSAS

(Continued from First Page.)

skilled workmen to millions, who are now receiving the highest wages in the world and are enjoying comforts of living that they have in no other country. The principle of protection is that all industries that need it shall be protected by a customs tax equal to the difference between the cost of production here and the cost of production abroad.

"That cost of production is determined chiefly by three elements: the cost of material, the cost of labor and the interest on capital, or what is known as the manufacturer's profit.

Why Tariff Should Be Cut.

"The normal operation of protection on the plan above stated, where competition has free scope, is to lower the cost of producing and so to reduce prices to the public. As a consequence, after ten years operation of a particular schedule, it ought to result that the cost of production in this country is made less and therefore the difference between the cost of production in this country and abroad is less and therefore the duty ought to be reduced.

"If I am elected, as I expect to be, I shall exercise all the legitimate influence that a President or a head of the Republican party can exercise to see to it that the plighted faith of the party on this subject in letter and spirit is observed."

Topeka Dons Red Cloak.

As did Denver last night, so Topeka did tonight, putting on her cloak of red fire and rocket adornment, producing her political marchers, and lent her enthusiasm to create the proper degree of political exuberance. The two meetings were each addressed by the candidate, Senator Dolliver and other speakers. The audiences taxed the capacity of the buildings and furnished inspiration for the speakers.

The train leaves at 4:30 o'clock tomorrow morning for Kansas City, where the candidate will tomorrow make a short address at the Y. M. C. A. building and then rest for the work of the week.

FINDS NO PANIC IN KANSAS

Taft Received With Joy by Farmers. Talks of Prosperity.

HUTCHINSON, Kan., Oct. 3.—That the political significance of the Taft special, with its heavy load of state and National political leaders, which passed today through Southern Kansas, was fully appreciated, there could be no doubt. The crowds at every station were large and enthusiastic. The speakers, including, besides the candidate, Senator Dolliver, Mr. Stubbs, candidate for Governor, J. L. Bristow, candidate for Senator, and others, were applauded with vigor.

"The interest and enthusiasm surpasses even our most sanguine expectations," declared Senator Curtis to the candidate. "Judge Taft, you will carry Kansas by from 25,000 to 35,000 majority."

Mr. Taft left no doubt as to his careful study of economic conditions pertaining to Kansas. He told his audiences that on the one item of corn the farmers of the state received $40,000,000 in 1907 more than they would have received under Democratic rule, which brought the price of corn to 18 cents a bushel instead of 44 cents, the present price. The crop of oats, barley, potatoes and hay, under Republican rule the same year added $18,000,000 to the income of Kansas farmers, while the difference between $16,000,000 and $96,000,000 had been added in the value of horses and the price of mules.

At Stafford, a voice interrupted Mr. Taft to ask:

"How about the panic?"

"Are you suffering from a panic here?" was the retort, and tremendous applause seemed to be the answer, but the candidate added:

"If you think Mr. Bryan's election will avoid panics, then I advise you to vote for him."

HITCHCOCK SEEKING MONEY

Will Call on State Managers—No Doubt About Illinois.

NEW YORK, Oct. 3.—Chairman Hitchcock, of the Republican National Committee, has postponed his departure to Chicago to next Tuesday. It is understood that the cause of Mr. Hitchcock's detention here is the continuation of the plan for obtaining money from the various state managers for the National campaign.

He was asked if he had received any reports from Illinois that that state was in doubt. He said there was local disaffection here and there in Illinois, but there was no reason why it should affect the National ticket.

CONFERS WITH LABOR CHIEFS

Roosevelt Talks Politics With Morrissey and Keefe.

WASHINGTON, Oct. 3.—The President today discussed the general political situation with Patrick H. Morrissey, of Cleveland, chief of the Order of Railway Trainmen, and Daniel Keefe, of Detroit, sixth vice-president of the American Federation of Labor and head of the Longshoremen's Union, who had been invited to the White House for that purpose. Upon leaving neither would say anything regarding the matters discussed.

BEVERIDGE IS ON HIS WAY

Opens Campaign in Montana and Is Headed for Oregon.

HELENA, Mont., Oct. 3.—Senator A. J. Beveridge, of Indiana, opened the National campaign in Montana here today. He spoke in Butte tonight and then proceeded westward to Washington and Oregon. The tariff question furnished the principal theme, although Bryan came in for no small share of his attention.

MRS LITT ON WAY HOME

Reported Disappearance Only Rumor, Says Her Son.

Mrs. H. B. Litt, of Portland, who was reported several weeks ago to have disappeared in Paris, is now on her way home, according to her son, Harry Litt. Mr. Litt says that, with his father, Mrs. Litt left Cherbourg yesterday and is expected to arrive in New York October 9.

According to Mr. Litt, the reported disappearance of his mother had little foundation, in fact. Mrs. Litt visited a convent in Northern France, where she had friends, and the rumor started with some of her acquaintances who did not know of her contemplated visit to the convent.

Declare Murphy Incompetent.

KLAMATH FALLS, Oct. 3.—(Special.)—Directors of the Water Users Association this afternoon recommended to the Secretary of the Interior that D. W. Murphy, project engineer, be removed for alleged incompetency.

CRY OF COERCION

Mack Says Employers Threaten Their Workmen.

WILL CAUSE PUNISHMENT

Democratic Chairman Says Threats of Dismissal Are Bribery—Talks of Exposing Employers Who Use Terrorism.

NEW YORK, Oct. 3.—Norman E. Mack, chairman of the Democratic National committee, said today before leaving for the West that a special fund of $5000 had been appropriated and set apart for the purpose of punishing any person or corporation which endeavors to coerce employes in the National election. Mr. Mack explained that numerous complaints had been received by the National committee from employes throughout the country that they had been threatened with dismissal if they persisted in support of the Democratic ticket. Mr. Mack continued:

"This is attempted bribery, and is punishable as such. Threats of dismissal or to reduce wages of employes if they vote for Mr. Bryan or promises of higher wages if they vote for Mr. Taft are plain bribery. We are not afraid of the effect of such tactics in this election, because the laboring man cannot be bribed or scared into submission to the will of his master but I think it is the duty of this committee to protect the American workingman from such methods.

"It is not advisable at the present time to give the names of these employes. That would be an injustice to them. But the name of every guilty employer will be published and full publicity given to his case, both before and after election. The slip in the pay envelope a few days before election advising how to vote will not be permitted this year, as in former campaigns."

CROMWELL BLOCKS GAME

Sets Jerome on Trail of Manufacturers of Scandal.

NEW YORK, Oct. 3.—W. J. Curtis, of the firm of Sullivan & Cromwell, of which William Nelson Cromwell is one of the partners, yesterday visited District Attorney Jerome and reported that certain men, whom he named, were endeavoring to obtain money from Mr. Cromwell because of his interest in the transactions leading up to the purchase by this country of the Panama canal. Mr. Cromwell was counsel for the Panama Company and is a member of the Republican National advisory committee. Mr. Jerome, it is said, promised to investigate the matter.

According to Mr. Curtis, the persons complained of were considering the advisability of making public a statement that Mr. Cromwell, in connection with M. Bunau-Varilla, a French speculator, had formed a syndicate and purchased for about $3,500,000 the stock and bonds of the defunct de Lesseps company and of the newer concern which had taken over the old company with the full knowledge of the intention of the United States Government to acquire the French property at a price of about $40,000,000. A representative of Mr. Cromwell said last night that no syndicate had been formed for the purpose of handling the Panama bonds and that the acquisition of the bonds by this Government was through regular channels and no intermediate holding company.

CHEERED BY HIS HOME FOLKS

Bryan Smiles as Audience Rends Air With Cheers.

LINCOLN, Neb., Oct. 3.—W. J. Bryan tonight got among his home folks and attended a monster Democratic rally in the Auditorium in this city, over which he presided. The principal speaker of the evening was Senator Gore, of Oklahoma. Every reference by him to the Democratic candidate brought the great audience to its feet, and the air was repeatedly rent with cheers. Mr. Bryan smilingly bowed his acknowledgments of the demonstration of his fellow-townsmen. It was the first occasion in some time that he had appeared before them on a platform.

Mr. Gore and Mr. Bryan were escorted from the Lincoln Hotel by the Bryan guards, headed by a drum and fife corps and the two had a warm reception as they rode through the streets to the auditorium building. At the close of Mr. Gore's remarks Mr. Bryan spoke briefly, expressing his thanks for the interest manifested in him and touching on a few issues of the campaign.

BRYAN BANKERS' COMMITTEE

One From Each State to Campaign Among Financiers.

CHICAGO, Oct. 3.—The appointment is announced at Democratic headquarters here of a bankers' committee, composed of one prominent banker in each state, who are to work for the election of Mr. Bryan. Most of the members are presidents of banks. A statement from National headquarters announcing the appointment says:

"It is the intention of the National committee from this date to give special attention in this campaign of interest to the bankers of this country. The committee feels that the bankers are much interested in the conditions which confront them and in which they are required to choose between the postal savings banks, proposed by the Republican party and the guarantee deposit plan, proposed by the Democratic party."

The bankers' committee has not yet met to elect officers.

QUOTES FROM OLD NEWSPAPER

Bryan Still Exercised by Bodyblows of Roosevelt.

FAIRVIEW, Lincoln, Neb., Oct. 2.—Mr. Bryan gave out the following statement today:

"When I criticised the President for using an office which belongs to all the people as a party asset, I did not know that I was using language so much like that which had been employed before, but my attention has been called to an editorial in the New York Tribune of October 25, 1882. It criticises President Arthur for taking part in the campaign in behalf of the Republican ticket and says:

"'Why should he assist in the campaign of any party? He is the President of the whole country and not the manager of elections in any part of it.'

"This is so completely in harmony with my criticism that I am glad to indorse it, although it was not brought to my attention until today."

OPPOSE MAYOR'S CRUSADE

(Continued from First Page.)

and their parasites throughout the community. We think they are better placed where they are now, where they do receive some police regulation. We are in favor of the strictest police control and regulation of this class.

"To tell of misery, disease and death which results to innocent ones from the shirking of this obligation on the part of the community is to tell that which is well known by all physicians but is not understood by the community at large.

Speak of Morat Cowardice.

"By the innocent ones we mean those who in after years marry the victims of disease. Experience teaches us that it is impossible to eradicate the social evil, but it can be controlled and we have no sympathy with the moral cowardice that would conceal this evil and shirk the responsibility of its regulation."

The jury pays its respects to Briggs, the rockpile chief in no uncertain terms. The rockpile system is approved of. But the jurors say there is evidence that liquor and opium have been have been easily procured. Attention is also called to the fact that the number of prisoners at the Kelly Butte rockpile does not tally with the number sent out by the county. For example, it is shown that 23 were sent out by Sheriff Stevens and that but 18 could be accounted for when the County Court's man, Briggs, had gotten charge of them. Briggs is not accused of having let these men off for a consideration, but the implication is very plain.

Briggs Should Be Ousted.

No serious abuses have been in practice in treatment of prisoners the jury's report sets out, although poor judgment has been showed on occasions. The report on the rockpile concludes with the terse statement that Briggs is not a fit man to have charge of the place. The result of this report is likely to be the discharge of Briggs and the placing of one of Sheriff Stevens' men in charge.

That the performing of criminal operations has become an established industry is set out in another section of the report. The suggestion is then made that there should be a new and more forceful law dealing with this subject, since the present law is of little or no effect.

Horror is expressed by the jurors at the number of criminal assault cases wherein girls from 5 to 8 years of age are the victims. "We believe that miscreants who commit crimes of this nature should receive the severest penalty which the law provides," is the comment on that condition.

One Indictment Is Made.

One indictment and two dismissals were provided in minor criminal cases. J. A. Stevens was indicted for obtaining money under false pretenses. Fred Thompson was acquitted of a burglary charge, as were R. R. McAdams and T. B. Bidwell, charged with obtaining money under false pretenses.

The grand jury presented its report a few minutes before 6 o'clock. It was received by Presiding Judge Gantenbein, of the State Circuit Court, who took occasion to compliment the jurors upon their earnest and conscientious work. He called attention to the fact that they had served at a considerable sacrifice to themselves, that they were to be commended upon having faithfully discharged all their obligations fully, freely and without complaint at the valuable time consumed.

The jury, during its month's career, returned 42 true bills and 19 not true bills on informations presented by the District Attorney. In 14 initiative cases, nine not true bills were returned and five true bills. The seven jurors were: A. E. Davis, foreman; H. E. Blossom, J. H. Day, A. B. Conrad, J. F. Jaeger, N. Wolf and A. W. Bagley, clerk.

TESTING OYSTERS AT COOS

University Biological Department Is Making Experiments.

UNIVERSITY OF OREGON, Eugene, Or., Oct. 3.—(Special.)—The biological department is gathering statistics from the Coos Bay country, with a view to raising oysters for commercial purposes. Prof. Sweeter and the members of his department have done considerable work along this line during the Summer, and if the statistics obtained prove the raising of oysters is possible and a paying proposition; oyster beds will probably be installed at various points on the coast within the next four years.

Thomas F. Bayard Married.

WILMINGTON, Del., Oct. 3.—At Rencourt, near Greenville, today, Thomas F. Bayard, son of the late Ambassador Bayard, was married to Miss Elizabeth Dupont, daughter of Mrs. Alexis Irene Dupont and the late Dr. Alexis I. Dupont.

LEADING CLOTHIER

SENT OUT OF REACH

Witnesses in Hains Case Are in Distant States.

ONE SENT TO FORT STEVENS

Army Officers Who Know Murder Deliberate Transferred From the Jurisdiction of New York Courts by War Department.

NEW YORK, Oct. 3.—It became known here today that three army officers, said to be important witnesses in the Hains murder case and friends of Captain Peter C. Hains, who is waiting indictment on the charge of shooting W. E. Annis, have been transferred from Fort Hamilton by order of the War Department to posts outside the jurisdiction of the New York courts. Consequently they will not be available to testify before the grand jury at its session Monday.

These officers are Lieutenant Farnsworth, transferred to Fort Stevens, Or., and Captain Patten and Lieutenant Andrus, to the artillery school at Fortress Monroe.

District Attorney Darrin, who withdrew the Hains matter from the consideration of the special grand jury yesterday because of absence of "important witnesses," said today:

"I shall appeal to Washington at once to have them returned to the jurisdiction of the Queens County grand jury. These men are familiar with the domestic relations of the Hains family. They are needed in proving the state's contention that the murder was deliberate and the work of sane men."

Colonel Ludlow, the commanding officer at Fort Hamilton, said this afternoon that Lieutenant Andrus and Captain Patten were ordered away from that post and reported at the artillery school at Fortress Monroe on August 28, while Lieutenant Farnsworth went to the Pacific Coast on August 1. He added that, as far as he knew, the transfers originated at Washington. He denied they could have had anything to do with the Annis case.

ASK PRIMARY CONVENTION

Walla Walla Republicans Decide Move Is Unnecessary.

SPOKANE, Wash., Oct. 3.—(Special.)—Fearing that the direct primary law might be declared illegal and that they would thus be out of the political race, the Walla Walla Republican County candidates today met and discussed calling upon the county central committee to order an old-fashioned primary convention to again place them in nomination.

After debating the proposed action, it was decided to do nothing at present. The move originated through the contests of the new law now in the state courts and gave rise to a report that an Ankeny convention was being projected. This was emphatically denied tonight by Senator Ankeny's paper at Walla Walla.

COON'S SUIT IS UNDER WAY

Will Test Legality of Primary's Second Choice Provision.

OLYMPIA, Wash., Oct. 3.—(Special.)—Suit was brought today in the Supreme Court by attorneys for Lieutenant-Governor Charles E. Coon, who asked a writ of mandate to compel the State Canvassing Board to disregard second choice votes which would nominate M. E. Hay. Lieutenant-Governor and certify the nomination of Coon for that office, who received the highest first choice vote. Argument on the writ was set for Friday of next week.

FAULT OF TUG CAPTAINS

Testimony Shows Star of Bengal Was Left to Her Fate.

SAN FRANCISCO, Oct. 3.—The inquiry into the loss of the bark Star of Bengal was continued today before the United States Inspectors. The testimony of several seamen was taken to confirm the charge of Captain Wagner, of the lost vessel, that all of the 111 men who lost their lives might have been saved had F. Farrar and P. Hamilton, the captains of the tugs Kayak and Hattie Gage, displayed more heroism and not left them to their fate. It was developed that just before the tugs cut loose from the Star of Bengal they seemed to be pulling in opposite directions, as though their commanders were not acting in harmony. The captains of the tugs will be given a hearing before a decision is reached by the inspectors.

Captain Nicholas Wagner, Mate Victor Johanson and several members of the crew testified before a Federal Inspector that the blame of the loss of the vessel and 111 lives rested upon the towboat captains. Their testimony was to the effect that the tugs had made no effort to save the lives on the Bengal, but had remained away a period of 30 hours, during which time the ship was driven ashore. Captain Wagner affirmed that there was a period of two hours after the Bengal had been cut adrift during which every life might have been saved. Alf Olsen, a seaman, testified that the towline of the Hattie Gage had been cut on board the tug.

Captain Wagner has been directed to swear his charges before the proper inspector at Washington. The accused towboat captains will then be prosecuted for manslaughter.

RAID SECRET OPIUM STORE

Police Capture Two Chinese With Contraband Goods.

BELLINGHAM, Wash., Oct. 3.—As the result of the raid made late last night by local police on a Chinese chop suey house, which revealed the existence of a secret store for the retailing of contraband opium, the officers here believe they have unearthed the Celestials who have been guilty of retailing smuggled opium in this city for the past year.

The existence of opium merchants in Bellingham has long been suspected by the police, but until two men were captured last night with a quantity of the stuff on their person, it remained a mystery. The prisoners, Lock Jong and T. Kaammon, were taken to Blaine, Wash., today by Customs Inspector Hubbard, where they appeared before the United States Commissioner there. They were released on $200 bail each, and the case was set for final hearing Friday.

TAXICAB MEN ON STRIKE

Chauffeurs in New York Quit. Many Strikebreakers Available.

NEW YORK, Oct. 3.—Not a wheel of a red taxicab turned today, for the 500 chauffeurs employed by one of the companies operating the new style of cabs went on strike.

The men want the present method of compensation abolished and instead have fixed wages of $2.50 a day with no charge for gasoline, storing, uniforms and like, as hitherto. They also ask for recognition of the union. The company says it has a list of nearly 3000 qualified applicants for positions as chauffeurs upon whom it can call at short notice.

Sue for Timber Value.

SAN FRANCISCO, Oct. 3.—Suit for the recovery of $5174.87, said to be the value of timber cut from the Government lands allotted to the Indians of the Klamath tribe and sold by the Indians to the defendant corporation was filed by the Government attorneys here today against the Klamath Mill & Transportation Company. In a similar suit some years ago United States District Judge DeHaven held that the Indians had no right to sell timber off their allotments unless the proceeds of such sale went to the Government.
