10

BUYING IN SOUTH

Hop Trade Turns Attention to California.

HEAVY SONOMA DEALINGS

Twenty Thousand Bales Is the Estimate of the Quantity Unsold in Oregon-Business

in Yakima.

The active center of the hop market has shifted to California. While truding in this state has slowed down materially, business In the south has increased. There were also of 230 hales of Sonomas of fair grade, on Friday at 7 to 7% cents, and 1000 hales of Sonomas changed hands yesterday at 257.508.25.50; brewing, \$26.50 OATS-No. 1 whits, \$31831.50 per fon; gray, amount 57 cents.

There is also trading under way in Yakima. MoNeff Bros., securing 550 bales in that section resterday. As there are still a good many Takima hope unsold, it is evident that the first estimates of that crop were entirely too low. McNeff Broz. also bought 262 bales of Oregon hope at Au-Graham, Sproisky and Fred Kiel lots, at T and Til cents.

While the Oregon market is quiet, there has been no weakening here on the part of holders of choice goods, and offers of 7% to 5 cents for fancy lots do not prove tempting to growers.

According to Herman Elaber, about 20,000 bales of hops remain unsold in Oregon. "The quantity of hops contracted was greatly overestimated," he said yesterday. "I do not believe over 20,000 bales were contracted. About 20,000 bales of spot hops age been sold to date and shout 20,000 remain in first hands. As dealers grow some 15,000 bales, these figures would indicate a total crop of \$5,000 bales. I am not giving these figures out as positively correct, but merely a rough guess in the absence of The choice end of the crop is protty well cleaned out."

ALL GRAIN MARKETS ARE QUIET. Very Few Bids are Made at the Beard of Trade.

The quiet conditions prevailing in all the grain markets were shown by the few bids made at the Board of Trade. Values were practically unchanged. A sale of three cars of alfalfa meal at \$15 was posted. The price will be advanced to \$19 Monday. The range of futures was as follows: (F. O. B. Open High, Low, Close,

based. Eastern Concords moved well at the former prices, 37% 240 cents per 10-pound basket. Penches continue to come in but there is practically no sale for them, and prices are nominal. Pears and apples are in fair demand. A straight car of casabas from Mantica. Cal., will be in Monday. They will offer at \$263 per dozen.

There was a good demand for vegetables a of every description and prices generally were steady. Cabbage receipts are on the

Utah Canneries Close Down. Regarding the dumage done to Urah crops by frost, the Ogden Journal says: "The tomate crop has suffered most, but fruits of all surts have been badly damaged. The crop which has been destroyed was almost equal in value, twice over, to last year's crop. Yet the total output of Weber County canneries this Fall will be probably only 10 per cent of that of last season, than one-fifth as much as that turned out a year ago. The from have resulted in closest entire paralysis of the industry.

factories will close a season which has but

FOREIGN SELLING FEARED

No Disposition to Place Commitments With Sunday Interval at Hand - September Foreign Trade Returns.

NEW YORK, Oct. 17 .- The stock market NEW YORK, Oct. II.—The stock market was oppressed by the revival of uncasiness in Europe over the difficulties arising in the way of a settlement of the Balkan trouble. Trading in the London market was over for the day before the New York market opened and the effect of the foreign depression, therefore, was largely seutimental. A recurrence of large liquidation for foreign account would not accord with the plans of the organized support of the New York market. With the Sunday interval at hand there was no disposition to place speculative commitments.

The continued Paris demand on London for

imports for the same time to the amount of \$30,585,508.

The sustained demand for remittances abroad under these circumstances arouses much interest in the conjecture as to the offsetting occult factors. Large liquidation of foreign holdings of American securities undoubtedly plays an important part. Extra inducements offered by great central banks abroad to attract gold are a factor. The influence of our own abundant bank nots circulation is not lost sight of. The September trade statement also records a total of imports valued at \$95,101,138, the largest since November last year and but \$5,200,000 below September of last year. This showing is accepted at evidence of the restoration to normal trade which is going on in our foreign as well as our domestic commerce.

The feature of the bank statement was

commerce.

The feature of the bank statement was the evidence of continued loan expansion, somewhat exaggerated in the \$14.076,300 increase of the clearing-house averages, owing to the week-end expansion from the week before. However, the \$9,950,800 increase in leans shown by the actual condition of the clearing-house banks and the \$9,335,900 loan increase by the other banks and trust companies are restimony to the continued pressure for banking credits. The accumulation during the week of \$3,800,000 cash operated to increase the average of that item \$237,000.

Bonds were heavy. Total sales, par value.

Blonds were heavy. Total sales, par value, \$1.842.000. United States 2s registered have advanced % and the 4s registered % per cent on call during the week.

Daily Treasury Statement. WASHINGTON, Oct. 17.—Today's statement of the Treasury balances in the general fund exclusive of the \$150,000.000 gold reserve, shows:

LOWEST SINCE JANUARY

CONTINUED SHRINKAGE IN NEW YORK RESERVES.

Bank Statement Shows a Large Expansion in Loans and

The continued Paris demand on London for gold gave rise to discussion of possible measures of protection by the Bank of England.

The figures of our own foreign trade statement for September pointed anew to the anomaly of the high foreign exchange rates now prevailing. The \$130,307,295 value of exports forms a record for September and the excess value of exports for the month of \$41,205,687 brings that item for the nine months of series about \$422,688,517. This is the largest trade balance in our favor that has ever expanded, but this was largely due to the bringing over into the week of part of the increase in the previous week; the reperiod. Gold has been exported in excess of imports for the name time to the amount of \$30,585,564.

The sustained demand for remittances shows in the indicated an expansion of shout \$5,000,000 less than that shown by the average. Deposits were augmented, both in the average and in the section of sources, the everage of its crease in the reserve abown by average conditions, while the statement of actual conditions on Saturday disclosed a quite small increase; the average server, it may be noted, was reduced to the lowest since January 25.

The statement of gaverage of the classified of the movement of money, the bank statement above expanded, but this was largely due to the intensity of the time mounts of the intensity of the intens

reserve rule. This is a decrease of 100 in the proportionate cash rese compared with last week. The st follows:

Loans Deposits Circulation Legal tenders Specie Reserve Reserve Reserve required Surplus Ex. U. S. deposits	1,358,433,500 1,416,647,900 53,309,400 80,640,000 304,962,500 385,633,100 384,161,975 81,471,125 83,779,450	Increase. \$14,676,300 13,894,500 204,900 1,714,690 *1,477,000 257,600 2,477,700 *8,238,100 *239,775

Prediction of Rain Weakens Chicago Market.

MAY END THE DROUTH

Heavy Liquidation Is Based on the Official Forecast-Corn Is Weak and Oats Are Steady.

CHICAGO, Oct. II.—Wheat prices on the local exchange declined more than I cent today, owing to heavy week's end diquidation, based chiefly on an official forecast of rain tomorrow throughout the Winter wheat belt. At the close the net losses were % to I'sgilac, compared with previous close, Corn and outs were easy and provisions weak. and cats were easy and provisions weak. The wheat market was weak all day with the exception of a brief period at the opening, when prices showed slight gains over the pravious close, owing to an advance of mearly one penny at Liverpool. The market was rather a "wet weather map" affair, the principal factor being the prediction of general rains tomorrow east of the Rockies, which promised to break the loop-existing drouth. The market closed weak and only a trifle above the low point of the day. December closed at 90% 600% and May at \$1.02% 61.02%.

cember closed at 99441094c and self-\$1.02491.024.

Cash core, steady to Mc lower. The market closed eney, with prices a shade to My Me to Mc lower. Final quotations on December were at 63%c and on May 63%c. Trade in oats was dull, but showed more steadiness than wheat or corn. Cash oats were steady for ordinary and Mc higher for best grades. At the close prices were M to Mc lower. December closed at 45%c and May at 5046504c. best grains.

May at 50 1400 14c.

May at 50 1400 14c.

Provisions were weak, the market being under moderate ceiling pressure all day. At the close prices were 5 to 12140 15c lower.

The leading futures ranged as follows:
