

BIG SHIPMENT OF FLOUR TO SIBERIA

Portland Mills Will Dispatch Cargo to Vladivostok on Oriental Liner.

DEAL LARGEST IN MONTHS

Alesia Probably Will Take Shipment on Next Trip - Will Escape Heavy Duty in Effect January 1.

The largest flour deal made with the Orient in several months was closed by the Portland Flouring Mills Company yesterday.

The quantity of flour involved in the deal was not made public, but it is large enough to induce the Portland & Asiatic Steamship Company to divert one of its November steamers from its regular route to the Northern Atlantic.

It is understood that the heavy purchases by the Vladivostok buyers at this time is in anticipation of the increase in the flour duty that the Russian Government proposes to put into effect in the Siberian ports on January 1, 1909.

OSLER SAYS: "DON'T DRUG"

Condemns Modern Medical System

PHILADELPHIA (Pa.)—Here is a new code of ethics for doctors laid down by the famous Dr. William Osler.

No doctor can cure all diseases. That's all "moonshine." They are "pretenders."

If you can't cure a man, tell him so. Physicians use too many drugs.

There are only a few drugs worth handling—I'll not name them.

Just what I've been telling you for years, but you wouldn't believe me.

Now, many of the world's leading doctors and scientists confirm my claims by their statements that drugs are worthless.

The most recent of these is Dr. Wm. Osler, of Oxford University. You know Dr. Osler is the man who said that our usefulness on earth ceases when we are forty years old.

Men like Osler don't indulge in idle talk. There's a reason for everything he says. He knows what he is talking about, for he is a doctor and has practiced medicine.

Every doctor on earth knows almost as well as Osler the worthlessness of drugs, yet there are but few that acknowledge it.

How does electricity cure? you ask. By helping Nature. Nature will cure you when she has the power.

Electricity is that power. The stomach, heart, liver, kidneys and digestive apparatus are run by electric energy, which is created by the digestion of food in the

ommendation of well-known business men and after remaining here several months, went to Tacoma. Upon his return he learned that his accounts had been questioned, and disappeared. It is supposed he left for some Oriental port by steamer.

According to the mill officials a number of checks sent in payment of goods delivered never reached the treasury and Pinkham is formally accused of withholding them.

MY DIRECT-METHOD TREATMENT WILL RESTORE YOUR LOST STRENGTH

By "strength" I mean vigor, vim and the ability to perform all the duties and enjoy all the pleasures of life.

Weakness is the result of a diseased condition of the prostate gland; this is the most common cause of weakness.

My fee for a cure is \$10 in any complicated case.

WHY OTHER DOCTORS DO NOT CURE

I want you to notice in particular how silent other specialists are on the subject of Men's Weakness.

WHAT WEAKNESS IS

I discovered many years ago that weakness, so called, is merely an inflamed and congested condition of the prostate gland.
