## FUND IS STARTED FOR BIG FESTIVAL

Voluntary Subscriptions of Nearly \$10,000 Made for Rose Celebration.

SPLENDID SPIRIT IS SHOWN

Portland Citizens Give Association Hearty Support for Subscription Campaign That Will Be Started in Earnest Tomorrow.

Between \$8000 and \$10,000 in sight! Such are the sinews of war with which the Portland Rose Festival will, temorrow, begin its third annual cam-paign for financiering the greatest

paign for financiering the greatest permanent civic demonstration ever undertaken in the Pacific Northwest. Less than two weeks ago, the officials of the festival announced through the local press that it was about to inaugurate another money-raising crussed for the purpose of perpetualing the magnificent floral and educational celebration which was bred and born with such small beginnings only two years ago. The result was a spontaneous response on every side to this half informal and half official appeal. The fruits as shown by the returned piedges, is gratifying beyond all expectations, for in some cases the business interests have contributed two-fold to what they gave last year.

Give More Than Last Year.

Give More Than Last Year.

Give More Than Last Year.

The same is true in the industrial fields, in the many walks of citizenship. Many have given three-fold, and a valiant number have set themselves down with four-fold subscriptions. Such early co-operation with the festival, in the minds of those who are to guide the fortunes of the great endeavor for the caming year, can spell but one thing—the unqualified success of the venture—success far beyond that achieved last June when so many unteward circumstances stood in the way of the promoters.

Banks, hotels, restaurants, business houses of various kinds, are included in the list of those who have come generously to the front. The letters which

erously to the front. The letters which accompany these voluntary subscrip-tions are couched in terms which can mean only that the entire citizenship, the entire commercial, financial and business community, is a unit in behalf of the splendid exploitation movement.

Leading factors in Portland's progpast few months have returned with the message that the Portland Rose Festival has advertised this city far more than the publicity department of the Alaska-Tukon-Pacific Exposition has advertised Scattle, and it must not be forgotten that both these enter-prises will attract the multitudes from other sections of the country to the Pacific Norhwest during the Summer of 1969.

Portland will give her finest, keenest and most honest efforts toward a cele-bration that will endure in fact for but a week, but which should endure for years in the memories of all who come and see. Portland expects to help Seattle in bringing the greatest throng of tourists and permanent population to the Northwest that ever headed this way, and assurance has been had from the Sound metropolis that Scattle will assist add it can to make the Portland show a grand, spectacular and monu-

### Two Cities Work Together.

In other words, the two great and thriving cities are to work hand in hand in the one great cause—the up building, the advancement in all progressive lines, of the entire Northwest. No such opportunity for united, concentrated action will probably ever be afforded again, and that is the impell-ing reason why the third annual Fes-tival management urges and expects the whole-souled indorsement of the

We want to impress upon every-

one what Eliers Piano House is ac-complishing, and what the Ellers name in the music trade stands forfair dealing, absolute reliability, high quality and reasonable prices.

We want everyone who ought to buy a piano, or a pianola piano, or a talking machine, or an organ, to

a talking machine, or an organ, to know of Eilers Plane House, its magnificent line of instruments, and its money-saving methods.

Through the co-operation of some of the leading Eastern piano and organ makers, which we represent exclusively in the Coast States, we are able to make a large appropriation to most thoroughly advertise this institution.

A fraction less than five per cent of our total sales during the ensuing two months will be devoted to this most far-reaching advertising campaign, one-half being borne by us, the other half by the respective manufacturers.

LOOK AT THE DRAWINGS.

LOOK AT THE DRAWINGS. LOOK AT THE DRAWINGS.

As stated in the drawing, the planes to be seen in this advertisement represent the total number of instruments sold in a given length of time by the entire Northwestern Plane trade. The Planes shown in the long column represent the proportion of the total sold by Ellers Plane Rouse. The Planes in the little column represent the proportion sold by all other dealers combined.

WHAT DOES IT MEAN WHAT DOES IT MEAN?

Eilers Piano House, therefore, handles nearly 80 per cent of the total! What does this indicate! It means that every one of the men and women who have bought the instruments pictured, made careful analysis of the situation, and they favored Eilers Piano House with their patronage because it was the best concern to deal with.

IT IS EASY TO WIN. If you want a Piane, or a Pianeia, or an Organ, or Reginaphone, it will pay you to go into this contest. It coats nothing except a little time and patience. No element of chance enters into this great opportunity. Merit alone tells.

#### LOOKING BACKWARD AND FORWARD

Less than ten years ago, at 107
First St. in Portland, the first
Ellers plane store was established
on the Pacific Coast. From this obscure beginning has grown the
great chain of Ellers stores now located in forty cities of the States of
California. Oregon, Washington,
Idaho and Nevada.

Ten years have witnessed an

cated in forty cities of the States of California. Or egon, Washington, Idaho and Novada.

Ten years have witnessed an astounding evolution in the musical development of our people. Then a piano was looked upon as a luxury on'y within the means of the wealthy. Today no home is counted complete in which the plano has not been provided for. In the lowliest cottage, as in the most magnificent maneion, the plano has come to be the greatest source of that cheerfulness and pleasure that go to make the ideal home environment, and with it has come the keen appreciation of the real value of good music in making our lives better and more wholesome and more happy.

It has been a period of wonderful progress, but there is still much to be done. There are still thousands of homes with scarcely an idea of what good music really is, where the growing generation is antirely deprived of this influence that goes so far towards making better men and setter women. Intil these homes for all musical instruments—the plano—the work of the Ellers stores will not have been completed.

Ten years ago planos were handled in comparatively limited numbers. Prices were high, even for infector ir setuments. Through modern methods, introduced and fostered by the Ellers Stores, a good plano no longer represents a little fortune, but its within the means of all. The Chickering, the Hazciton, the now famous Kimball, the beautiful Hobart M. Cable, the Lester, the Decker, and even the most fastidiously extravegant of them all, the Weber—planos owned only by the wealthy in the early years—have now become household names among the people.

The Planols Plano, for music lovers who cannot devote the requisite time to mastering an instrument, is now more easily obtained than an ordinary plano was ten years ago.
