ALLEGES PERJURY IN WIFE'S DIVORCE

Thomas Hamilton Declares Woman Swore Falsely, and Wants Case Reopened.

SAYS HE SENT HER MONEY

Shows Receipts for \$900 Out of \$1200 Salary—She Testified He Sent Her No Funds. Father Wants Children.

Thomas Hamilton, an electrical engineer, returning from Alaska on a visit to his wife and family, found that his wife had obtained a divorce on the ground of desertion, filed a motion with the State Circuit Court yesterday afternoon to have the case reopened. He charges her with having committed perjury in obtaining the divorce and denies that he ever deserted her or had any intention of so doing. The matter was likewise called to the attention of District Attorney Cameron, who will be asked to file a charge of perjury against the woman, Mrs. Lena Hamilton.

Another Man in Case. Another complication in the unusual case is the woman's reported marriage to another man. This is denied by the woman and by her friends. Hamilton says, however, that when he reached the city last Sunday night and proceeded to her home on Grand street he was not admitted, and when his identity was learned by those inside they left the house. His wife departed by a rear way in company with a man named Guthrie, he says, and refused to speak to him.

Four children were granted to Mrs. Hamilton when she was awarded her divorce in July. She testified unequivocally that her husband had abandoned her. She said on the witness stand that he had not sent her a penny; that he had failed to communicate with her and that she had been compelled to earn her own living. And yet in Hamilton's array of exhibits is a postal order receipt showing that Mrs. Hamilton received a remittance of \$100 two weeks before she commenced action for divorce.

Unable to Leave St. Michael. The case went by default. Hamilton was served with papers a few days before the date of hearing. But at St. Michael he was shut off from communication. There was no steamer leaving for more than two weeks. He says his wife was familiar with this condition and chose her time for bringing action accordingly.

On being granted her divorce Mrs. Hamilton wired to him of the fact and said she was leaving the city. The telegram to this effect is included in the list of exhibits. Hamilton believes this was intended to throw him off the trail and discourage him from coming to Portland to look for her and demand an explanation.

As his savings had been sent to his wife, Hamilton avers that he had to remain at St. Michael until he earned money on which to leave. He asks that the default be set aside and asks for a rehearing of the case in order that he may secure the custody of his children.

Olive Oil Mostly Cottonseed. SAN FRANCISCO, Oct. 31.—The Federal grand jury has returned an indictment against the firm of Getz Bros. & Co., charging a violation of the National pure food law. It is alleged that in October of last year the firm shipped to John G. Munting, at Walla Walla, Wash., a dozen bottles of olive oil that had been adulterated with cottonseed oil.

ENTERTAINS ON HIS TENTH BIRTHDAY.

Lindsay McArthur. The spacious residence of Dr. McArthur, at Walnut Park, was last Saturday the scene of a festive gathering, which met to help the doctor's eldest boy, Lindsay, celebrate his tenth birthday. Games were indulged in until the call came from the dining-room, which was tastefully decorated with Autumn boughs for the occasion. Not the least appreciated of the refreshments was the birthday cake, surrounded by ten candles, and containing the old-time 5-cent piece and button. After supper the crowd repaired to the porch room to enjoy a peanut scramble. With many expressions of good wishes, the boys then bade their young host good-night.

The man with 112 years to his credit was born in the shadow of Plymouth Rock in May, 1786, and he recalls well the expedition against the Barbary pirates, the war of 1812 and other facts that the grandfathers of the present generation had not remembered since their school days. He embraced the vegetarian diet in the Spring of 1828, he says, and is a strong advocate of the turnip and the onion. He still walks with considerable sprightliness, although he guards against falls with a heavy stick.
