Dr. Franklin Baker, who is to deliver the memorial address, was for three years a resident of Colorado Springs, Colo., and was the pastor of the Unitarian Church in that city. For two years he lectured in the interest of the cult founded by Rev. B. Fay Mills, who has preached in Portland on numerous occasions. This new church is named "Fellowship," and it is upon this subject that Dr. Baker has spoken in different parts of the country. He said last night that he believed a preacher ought to engage in some remunerative business besides giving as much time as possible to advancing his religious views. Following out the idea that he has located in Portland and intends to engage in timber and irrigation business, he intends to lecture at stated times after he becomes settled in his work. He is a member of the same lodge of Elks to which Grand Exalted Ruler Holland belongs.

throughout the empire is marked. Suppressed excitement is felt everywhere and war talk is heard from the peasants, as well as the middle classes and the army. All seem to want to fight. That Germany is just now so keenly bent on fighting may not be generally known, but it is felt that if a man like Bismarck was now in power in Germany, the nation would be in the thick of battle by now. The present seems to favor such a condition. The strength of the German army, the weakened condition of Russia and the entire political atmosphere of Europe seem to every German to indicate a heaven-sent opportunity.

"I believe it is only a question of a short time until the Germans will insist on war if they have to create the cause themselves.

"The veil of aristocracy that has covered the surface of the German empire has been disturbed, and one is surprised to see what has been going on in the depths of the country. The people have been educating themselves and are beginning to see and to appreciate their own merits. Instead of sharpening and cleaning the weapons of their former lords, they are now forging weapons of their own and they are powerful ones. They are training their muscles and using their brains to use these weapons. Their hearts are possessed of the primitive instinct to fight. This has put them almost in a frenzy."

If you have headaches, pains in or over the eyes, or in back of the head, if you see floating specks, if the eyes itch and burn, if everything gets black at times, if the eyes twitch involuntarily, if you see double, if you see rings around lights, there is something wrong, and you should have them carefully examined by Thompson. You certainly cannot afford to let the condition of your eyes grow worse. Thompson will personally examine your eyes, without any charge whatever, and if you don't need glasses, he will be honest with you and tell you so.
