## STORM BATTERS MOCLIPS VILLAGE

Seawall Gives Way and Summer Hotel Is Threatened for Several Hours.

ONE INDIAN LOSES LIFE

Gale Off Grays Harbor Christmas Day Worst in Co Years-Logs and Debris Scattered for Miles Along Shore.

ABERDEEN. Wash., Dec. 26 .- (Special)-Moelips, a Summer resort 30 miles distant from this city on the Northern Pacific Rallroad, with a population of 500 and an immense Summer notel narrowly escaped being washed into the Pacific ocean Christmas even-ing and Christmas morning during a tremendous storm which swept over the Grays Harbor country and lashed the waves into fury.

A sea wall, which the residents of

A see wall, which the residents of Moolips and the Quinimuit Indians had just completed north of the hotel at a cost of \$1500, was washed away. The wall was sucked out and scattered broadcast. One Indian lost his home and a portion of his farm and other residents of the little burg were forced to fly from their dwellings in the face of danger.

The Moolins River broke from its

the face of danger.

The Meclips River broke from its banks and the whole town, until the ebbing lide reduced the flow of water, was inundated. The big Summer hotel, huilt at a cost of 140,000, was for a time in danger, a portion of the piling which protects the bank upon which the building stands being forced. which the building stands being forced out. The sea wall in front of the hotel saved the building from destruction. The sea wall stood long enough to save the town, for when it finally gave way the tide was receding.

The storm is reported to have been the worst in 20 years, driving floating logs and timbers with violence against the coast and battering buildings nearest the tideline. All up the coast it is

the const and battering buildings nearest the tideline. All up the coast it is
reported the storm raged with fury,
but just how much damage was done
will not be known until the sea is
calm enough to permit communication
to be re-established north of Moclips.
The residents of Moclips were kept
in a state of fear during the storm,
but nothing could be done to prevent
damage after the sea wall was demolished.

#### FAST HORSE ESCAPES THUG

Sam Cochran, of Vancouver, Hurries Out of Reach.

VANCOUVER, Wash, Dec. 26.—(Special.)—As Sam Cochran, of this city, was driving home last night from St. John, Or., an attempt was made by two men, a short distance this side of Maegley Junction, to hold him up, but he escaped with only the loss of his

It was dark, but as he drove along he noticed two men walking on the road a little ahead of him in about a foot of water, though off from the road, which was higher and drier. This was suspicious, so he prepared to make a iash between them. As he came up to them, the smaller man on the right reached for the horse's bridle and the big man on the left made direct for the rig. Cochran gave his horse a hard cut with the whip and she aprang for ward with a leap, the small man miss-ing the bridle and the front wheel of the rig striking the big fellow square in the chest and stomach, tum-bling him over in the water and mud. The horse sped on and Cochran did not return to see whether the fellow was injured He says he has refused \$300. the mare, but he would not take

This is the third time an attempt at a holdup has occurred at that particular

#### COUNTY GATHERS EXHIBIT

Fruit, Grain and Grasses to Be Exhibited at Scattle Fair.

VANCOUVER, Wash., Dec. 28.-(Special.)-Chat Knight, who was appointed by the County Commissioners to collect an exhibit for the Alaska-Yukon-Pacific Exposition, has nearly completed the work. The total cost of the exhibit will be \$3000, the expense being borne by the

county. The different varieties of wheat, hay and grain will be shown.

Mr. Knight has apples preserved in solution in large glass jars, some of these apples being five and six inches in dameter and of beautiful color. Some of the pears weigh three pounds each. The ex-hibit will also include strawberries, peaches plums prunes, both dried and green, cherries, figs, raspberries and other small fruit.

Clark County soil is particularly adapted to raising English walnuts, almonds and filberts, and several varieties of chestnuts, and the exhibit will include fine specimens of all these nuts. In the exhibit at Seattle, the entrance to the booth will be made of different varieties of nuts in glass cases. Wood from Clark County will be used in the construction of the cases, and it will be polished in such a way as to show the natural grain.

#### MILL AWAITS MACHINERY

Building for Vancouver Flour Factory Is Completed.

VANCOUVER, Wash., Dec. 26 .- (Special.)-Construction work on the new flour mill of which Bashford & Son, of Roseburg. or., are the owners, is com-pleted and the building is now ready for the machinery. The machinery is expected to reach here by January 15, and it will require about 90 days to install it, so that E. L. Bashford, the superintendent, says he does not ex-pect to have the plant in operation much before April 1.

The switch from the North Bank railroad is already built to the mill.

The plant will have a capacity of 100 barrels a day, and the total cost of the mill will be \$35,000. It will run night and day,

#### Marine News of Seattle.

SEATTLE, Wash. Dec. 26.—The American steamers Trement and Shawmut have not been chartered, as reported, but have been laid on the berth for New York, carrying salmon and other cargo, one of them to load at San Francisco. The vessels leave here between the middle of

next month and February 1, to be turned over to the Isthmian Canal Commission.

United States Local Inspectors Whitney and Turner have suspended for 20 days the liceuse of Mate W. C. Ansell, who was navigating the steamer Northland when sile ran on Enterprise Reef, November 5.

ember 27. The steamer Buckman sailed for San rancisco at 1 P. M.

The steamer Jefferson left for Skagway at 9 P. M., with freight and 25 passengers. The steamer St. Croix, purchased on the Atlantic by Schubach & Hamilton for the Nome trade, will be brought to Seattle by Captain Frederick Warner, who left tonight for New York, after re-signing as port captain for the Alaska Steamship Company Steamship Company

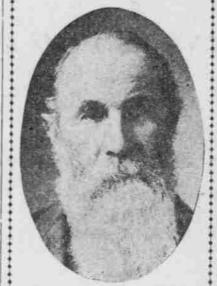

#### LIGHTNING FIRES TREE

Forest Giant Blazes All Day Near South Bend.

SOUTH BEND, Wash., Dec. 28.—(Special.)—At about 6 o'clock Thursday morning this locality was visited by a brief but unusually severe electric storm, during which a giant tree on North Butte was struck by lightning and burned flercely all day and until the flerce storm of Thursday night

Some time during Thursday night a heavy fall of rain set in accompanied by a gale of wind, the flercest that has visited this section for some years. No damage was done, but the tide was im-

LIVED FIFTY-SIX YEARS IN LINN COUNTY.

William Marks. Deceased. ALBANY, Or., Dec. 26.-(Special.) -William Marks, Oregon pioneer of 1852 and resident of Linn County for more than half a century, died

Tuesday morning at his home in Mr. Marks was born in Washington County, Indiana, July 11, 1839, and crossed the plains to Oregon in 1832. Coming with his purents to Linn County, he took up a donation land claim four miles northwest of Lebanon, near Tallman Station on the Albany-Lebanon line. He lived there until two years ago, when he moved to another

farm he owned just north of Lebanon. He had lived in Linn County

continuously for 56 years. He is survived by his widow and the following children: James W. Mark, of Coyote, Cal.; John H. Marks, of Denver, Colo.: Mrs. William Adams, Mrs. E. T. Slayton and ville, Or.; Mrs. Charles Reddick, of Lebanon, and Mrs. Elbert S. Robe, of Albany, Professor A. Wiley, principal of the Shaver pub He school, of Portland, is a stepson. Mr. Marks is also survived by two brother, James M. Marks, by two brothers. James M. Marks,

mense. At high-water the tide lands in this vicinity were covered several feet deep by water blown in from the bring ocean, giving the Willapa River the

## WATER SUPPLY BAD

Service for State Institutions Defective.

Suggests That State Co-operate With City of Salem in Securing Supply From Pure Mountain Streams.

SALEM, Or., Dec. 26,-(Special.)-One of the urgent needs of the state, a shown by the biennial report of th Superintendent of the State Insane Asy lum, made public today, is a supply of pure water for the state institutions. The water now used at the anylum and The water now used at the asylum and penitentiary, except for drinking and cooking purposes, comes from Mill Creek, a small stream notoriously unclean. It is only by the strictest regulations that the patients are prevented from using this water at times. At the prison it is necessary to boil the water used for drinking at some periods of the year.

Because of the needs of the state the

riods of the year.

Because of the meeds of the state the Governor is co-operating with the city authorities in Salem with a view to devising a plan by which water may be secured from a mountain stream, probably the Breitenbush or the Santiam. In his message to the Legislature Governor Chamberlain will recommend such measures as may be deemed practical with this end in view. A committee representing the state and the city of Salem is now at work investigating sources of water supply and probable cost of construction of a water system, and it is expected that a full report will be ready by the first

a full report will be ready by the first of January. Two plans are under con-sideration—one that of joint owner-ship of the system by the city and the state, each paying its proportion ac-cording to the number of consumers, and the other that the city shall build and the other that the city shall build the plant and the state enter into a contract to purchase its water supply from the city at a rate justified by the cost of the system. In the pre-limitary consideration of the matter it has been estimated that the cost of constructing a nine like from the Cast. constructing a pipe line from the Cas-cade Mountains would be about \$450,-800, but further investigation may change this estimate very radically. If the state should pay in proportion to the number of its wards and employes who use water its share would be about one-fifth or perhaps one-fourth

The source of the water supply for the city and the state institutions is the Willamette River. The intake pipe is buried under 30 feet of gravel, and during low water there is about 100 feet of gravel between the river and the mouth of the junke size. It will the mouth of the intake pipe. It will thus be seen that the supply is just as pure as can be secured from the Both the city and the state however, desire a supply of mountain water, and for this reason the plan of co-operative construction of pipe line was proposed.

#### LODGE HOME IS DEDICATED

Centralia Oddfellows Celebrate Completion of \$10,000 Temple.

CENTRALIA, Wash., Dec. 26 .- (Special.)—The formal dedication of the new Oddfellows' Temple, just completed here, took place this afternoon and evening, ocated on Main street, one block from the postoffice, and in its completed condi-tion cost the order over \$18,000. Nearly all of the Grand Lodge officers of the state are here and over 40% visiting mem-bers, besides Rebekahs in large num-

At 8 o'clock began the initiation of a ship. Pollowing those ceremonles came a banquet, seating 250 people. The Odd-fellows have done themselves proud in welcoming visitors.

#### Centralia Team Champions.

CENTRALIA, Wash, Dec. 26,-(Spe cial.)—In the football season just closed the Centralia team won the championship of Southwestern Washington. Their rec-ord is: Chehalis, 57 to 0; Aberdeen, 15 to 0; Puyallup, 28 to 5; Olympia, 5 to 0; Olympla, second game, 11 to 5.

ENGLISH WALNUTS AS GROWN IN YAMHILL COUNTY

COLLECTION WHICH WILL BE EXHIBITED AT ALASKA-YUKON-PACIFIC EXPOSITION.

COLLECTION WHICH WILL BE EXHIBITED AT ALASKA-VIKON-PACIFIC EXPOSITION.

MINNVILLE, Or., Dec. 26.—(Special.)—This unique collection of English wainuts, grown in Yambill County, has just been placed on permanent exhibiting in the rooms of the Commercial Club, and will be taken to Seattle next Spring in time for the Alaska-Yukon-Pacific Exposition. This exhibit was collected by the Wainut Club of this city, the Prime, the Oak Hill and other smaller wainut orchards disposing of their choicest stock to the committee from the Wainut Club.

An estimated marketable product of 20 tons of walnuts was produced in this county the past season. There are at least 2500 acres of walnut trees in the county, moskly of recent planting, and only a small per cent of bearing age. Of this acreage, about three-fifths is adjacent to McMinnville, the home of the only walnut club in the state, composed of those persons who are engaged in walnut culture, and who have no land to sell and are not engaged in the real estate business. This organization has, by the expenditure of their own funds for advertising, brought the walnut industry of Yambill County to the notice of the people of the East. It has also been no small factor in establishing a market for Oregon-grown walnuts.

The growers of the 20 tons of walnuts in 1908 did not have to seek a market; the market sought them, and at a price 2 cents higher per poind than the walnuts from other sections of the country were selling for.

# GRAY'S GREAT REMOVAL SALE

HAS BEEN THE GREATEST CLOTHING EVENT IN THE HISTORY OF PORTLAND. Every one knew this to be a bona fide sale, and the great business we have done was a natural result. JUST A FEW DAYS MORE AND THE FRONT of our present store will be torn out; the future home of Chesterfield Clothes is being pushed forward toward completion as rapidly as possible. Get your suit or overcoat now; you know how great the values are, and that they are the finest clothes in the world. The following great price reductions prevail:

## R. M. GRAY

269-271 MORRISON STREET

SACRAMENTO MAN WOULD HAVE IT PROHIBITED.

In This Way Hop Market Would Be Benefited by Larger Use of Hops.

A. A. Merkley, of Sacramento, a Cali-fornia hopgrower, suggests as a measure of helping the hop market that the blewers be required by law to use more hops in their

ining of the signach and diseases the amoneys.

It is known that certain bitters, chemicals and acids are used in the brewing of beer which lessen the amount of hops that should be used. These chemicals fortify and preserve the heer, permitting it to be kept a long time or shipped without loss, and from the breweryman's business standpoint and "everybody look for their own kidneys." the brewer may be justified, especially so as long as there are no laws to prevent it.

Gambill Townly

or if there are laws no pains are taken to enforce them.

The brewer will tell you that heps are cheap enough, so why should they use substitutes? The answer is that "loo many hops in beer (that would naturally fortify it) make it too bitter to drink," and so, by a small quantity of bops and a quantity of the substitute and preservative a mild bitter is produced, and gives to it its lasting qualities, and also its harmful qualities. If the breweryman would use at least one round of hops and no emetitute to a barrel of beer (as it is generally understood is required to make mure been) the hopgrowers of the United States would not produce enough hops to supply them, according to the revenue reports, and the beer would not be too bitter to drink, but would be very palatable.

Again we are told that "too many hops are grown," when we know that "too few hops are used." Statisticians figure that for the past three years (if the proper amount of hops were used, and no substitutes used) the difference between the amount of hops grown and the amount of barrels of beer brewed would show a shortage of 150,000 bales of hops. Therefore substitutes equal to 180,000 bales of hops. Therefore substitutes equal to 180,000 bales of hops are interessed in this matter. Even the prohibitionist can assist, for when he is unable to suppress the making of it be can say. "If we must have been used to 180,000 bales for hops (prices are now below cost of production) in the face of these facts?

Not only the hop-growers but the whole people are interessed in this matter. Even the prohibitionist can assist, for when he is unable to suppress the making of it be can say. "If we must have been we must have pure been." To have pure been we must have pure been." To have pure been we must have pure been. To have pure been we must have pure been. To have pure been we must have pure been. To have pure been we must have been the thing and then see that they are enforced against the use of any substitute or preservantive for mail and hops.

Hop-growe

#### JESSE W. LOONEY IS DEAD

Marion County Pioneer Dies at Age

of 86.

cated near Jefferson, where they have since resided and where the deceased engaged successfully in farming.

He leaves three sons, Fred. Walton and Frank. He was a brother of J. B., D. H., B. F. and N. H. Looney, all well-known Jefferson citizens. He leaves four sisters, Mrs. Ellen Gains, of Albany; Mrs. Abbie Fairbanks, of Petaluma Cal.: Mrs. Fran-cis Cornell and Miss Pauline Looney, of Jefferson. The funeral will be conducted at 1 P. M. Sunday from the Methodist irch in Jefferson

#### YE OREGON GRILLE.

The Royal Hawaiian Orchestra will close its engagement on that evening. The two orchestras will render a continuous musical programme. If you wish to spend a pleasant evening in this famous grille, you should reserve tables at once, as the space is limited nce, as the space is limited

#### Native of Baker County Dead.

BAKER CITY, Or., Dec. 26.-(Special.) The funeral of Avon Love, who died Thursday at his home in this city, was held this afternoon by the Masmic or-ler, of which he was a member. Deder, of which he was a member. De-ceased was a member of the Baker City Packing Company and very prominent in business and social circles. He was born in Eagle Valley, this county. The funeral was largely attended.

#### Men Escape Quarantine.

VALPARAISO, Dec. 26.—The steamer Carabella, from Yokohama, is in quar-antine at Iquique with trachoma on board. Three of the Chinamen on the vessel made their escape and at present are in hiding on shore. It is feared that the contagion will spread.

Dance every Tues, eve., Ringler's Hall. Mich.

## **CORONER HARDEN INDICTED**

IS ACCUSED OF ATTEMPTED EMBEZZLEMENT.

Sensational Developments Predicted if Lewis County Official Is Placed on Trial.

CHEHALIS, Wash., Dec. 26,-(Special.) The Lewis County grand jury has re Charles R. Harden for alleged attempted embezzlement. The charge grows out the killing of two unknown desperadoe at Winlock by a citizens' posse a year ago. On the persons of the men were found some Canadian currency; \$22 or

one, \$20 on the other, The story in detail is a long one, and when the case is tried may develop sen sational testimony. Dr. Harden turned in the amount to the County Treasure on the last day of 30 allowed by law, and has the latter's receipt for same. It is stated that the grand Jury will mee again Monday, after which they willikely adjourn until the experting of the

### The Pimple and the Face

First Show Signs of the Blood Poverty Which Causes Most Skin Diseases.

SALEM. Or., Dec. 26.—(Special.)—Jesse:
W. Looney, a pioneer resident of this county, died at his home at Jefferson last night of typhoid. Deceased was born in Illinois \$69 years ago and came to Or-gon with his parents in 1842. The family located near Jefferson, where they have body. It also carries from every part body. It also carries from every par of the body all germ life, waste man

ter and decay. If through poor eating, indigestion, constipation, etc., the blood is filled with poisonous, decaying, irritating fluids, these poisons are carried to the lungs, where they are attempted to be leansed by the oxygen from air in-

If this does not accomplish the remits demanded the blood takes away the poison and carries it to the little cells of the skin, where they leave it. Here these poisons irritate and decay blackheads and other skin eruptions; at last bursting or are removed by man. When you have pumples it is a certain sign your blood is wrong, that the great human blood system is turned into an intricate series of sewers; canais which are filled with impurities Science long ago learned that Calciur Suiphide was the most powerful, harm less and beneficial blood purifler ob-

Stuart's Calefum Wafers, under chemical tests, conclusively profet themselves to be one of the best meth-

ods of preserving the full strength of this great blood cleanser. The real beauty of Stuart's Calcium Wafers lies in their rapid work. Their good effects are seen after only a few days' use and a face full of pimples has been made clear and clean after only five days' use of these wafers. These wafers, by the peculiar Stuart process, preserve and hold the full strength of Calcium Sulphide, so that the system obtains this wonderful purifier in Ita most efficient state.

Other methods of administering and preparing Calcium Sulphide have proven Stuart's ("delium Wafers to be the home."

Go to your druggist and buy a box of these little pimple eradicators today, price 50c., or send us your name and address and we will send you a trial package by mail free. Address F. A Stuart Co., 175 Stuart Eldg. Marshall

tuart's Calcium Waters to be the best

unty books, which is now well under way, is finished.

The jury reported that the county post farm and buildings are well kept, arged areded repairs at the Courthouse, and condomned the Chehalls City Jail.

R. Caughey, a Portland artist, returned yesterday from Seattle, where he was employed by the Alaska-Yukon-Pacific Exposition to draw a birdseys view of the exposition, under the di-rection of James A. Wood, director of exploitation.
