$350,000.
Guaranteed stock with principal secured by bond of Granite Securities Company, certified by Columbia Trust Company, or Broadway Bank & Trust Company, all of Los Angeles, Cal., payable 10 years after date of issuance. Bonds in escrow with Merchants Bank & Trust Company, of Los Angeles, to be delivered to holders of stock five years from date of issuance, unless stock meanwhile pays dividends 100 per cent of its face value, amounting therefor, to minimum dividends of 20 per cent per year.
The corporation issuing this stock is the owner of patents upon an invention which is declared by a number of engineers of standing to be an epoch-making machine of great value and one which, in operation, will probably enable the company to pay very large dividends upon its stock. The stock is offered, with the bond guarantee, at about one-tenth its par.
We can recommend this stock to those who, having their capital secured, are willing to risk their interest for ten years in an enterprise promising to yield within two years from the present, such profits as can only accrue to the owners of a great invention who have acquired their holdings upon a comparatively nominal basis. Full descriptive circulars furnished on application.
