Demonstration and special sale of the famous "Nemo" corsets

An educational corset event

Mrs. A. L. Craig, one of the most expert of all the New York corsetieres, has been sent here by the Nemo people to show our customers the very newest and most stylish models in the famous "Nemo" Corsets.

Mrs. Craig will be in our Corset Department on Monday, and throughout the week, and will be pleased to give our patrons the benefit of her expert advice as to the selection of models, fitting and adjustment. She will undertake to end your corset troubles.

Nemo "flatting-back skirt"

The greatest corset novelty of the season. Newly invented and patented, and applied only to No. 520 (Self-Reducing) and No. 501 (Willow-Shape). This ingenious device applies reducing pressure only when you STAND. When SEATED the "Skirt" relaxes, and you are as comfortable as if you had no corset on. This novel invention produces the Nemo "New American Shape" in its perfection. It is the LAST WORD in scientific corset making.

New nemo "relief bands"

A distinct novelty, which is applied only to No. 404 and No. 405 (Self-Reducing). The RELIEF BANDS are an improvement over the famous Nemo Relief Straps. They are extra wide and strong, follow the convexity of the lower abdomen, and give perfect support from UNDERNEATH. Model No. 404, for very stout women, is made in sizes up to 42. It is the largest ready-made corset in the market.

Corsets for stout women

The famous Nemo-self-reducing

Nearly every woman knows that the Nemo "Self-Reducing" is the only corset ever made that really helps a stout woman to reduce her abdomen with absolute comfort and hygienic safety. * It is now sold all over the world.

Three new features

FIRST—The "Flatting-Back Skirt" (in model No. 520 only). A newly-patented invention which produces a degree of reduction never before possible. Its full power is exerted when you stand, but the "Skirt" relaxes when you are seated, and you are comfortable.

SECOND—The new Nemo Relief Bands, an improvement on the famous Relief Straps (in models 404 and 405 only); extra wide and perfectly support the abdomen from underneath.

THIRD—The long, unboned skirt effect, in No. 405, whereby the upper limbs, as well as the hips and back, are greatly reduced.

There is a Nemo Self-Reducing Corset to fit every type of stout figure. Our new No. 404, with Relief Bands, is made in sizes up to 42.
Prices for Self-Reducing Corsets \$3.50, \$4.00, \$5.00 and \$10.00
There is no longer any reason why any stout woman should have her corsets made to order. Come this week and be fitted in a Nemo.

Nemo
WILLOW-SHAPE No. 601

Corsets for slender forms

The famous Nemo

"Back-Resting" "Willow-Shape"
"Military Belt" "Swan-Shape"
"Dress-Adjusting"

Don't imagine that all Nemo Corsets are made for stout women, just because millions of stout women will wear no corset but the Nemo "Self-Reducing." Our new Nemos for slender figures are equally superior in their way, and each has some hygienic or practical special feature which does something valuable for you.

Nemo back-resting corsets—\$4.00

"It rests your back," gives support where you need it most, relieves back-ache like magic.

Nemo willow-shape corsets—\$5.00

Has the novel "Flatting-Back Skirt," and makes a slender figure even more sylph-like.

Nemo military-belt corsets—\$4.00

No. 305 has the extremely long lines of present fashion; induces the wearer to stand upright and breathe freely.

Nemo swan-shape corsets \$2 to \$4

With all the graceful chic of the Boulevards, but with American excellence of workmanship. The acme of correct style. And there are other Nemo models for medium and slender forms, all with the well-known Nemo style and durability—a fit for every figure.
