### MOON BOY IS DEAD

#### Father Hears News Just as He Goes to Meet "Kidnapers."

#### RANSOM OF \$5000 ASKED

Letter Saying Lad Is Kidnaped Proves to Be Cruel Hoax—Boy Drowned in Village Pond While Skating.

FLINT, Mich., April 3.—Just as Luman N. Moon, the father of 10-year-old Harold Moon, who disappeared from his home here on February 27, and who was thought to have been kidnaped, was on his way to meet the suspected kidnapers and arrange for a ransom, word was brought to him that his boy's body had been found in a pond near that village. A pair of rusty skates, still attached to the boy's shoes, revealed the cause of the lad's disappearance, and made it evident that he had been drowned beneath the ice while enjoying the last skating of the winter.  
Rewards aggregating \$1200 had been offered for the return of the boy, and some time ago Mr. Moon received a letter from a man at Delavan saying that if he would deposit \$5000 in the mouth of an old canon in the public park his boy would be returned to him. Mr. Moon turned the matter over to the police, and detectives advised him to prepare a dummy package and follow the instructions of the letter.  
This Moon did, and while detectives concealed themselves near the canon he left his house with the dummy package of bills in his hand. He had gone but a few blocks when word of his boy's death was brought to him. For while the father was overcome, but his indignation at the cruel hoax that had been played upon him moved him to proceed, and he placed the package in the canon.  
Then, with the detectives, he stood in hiding nearby. The officers were sympathizing with him on his loss, when a man stepped out of the bushes, seized the package from the canon and hurriedly disappeared. His movements were so rapid that the detectives lost track of him, and but little hope is entertained of his identity being discovered.

### PROHIBITION VOTE SOON

Missouri Solons Set April 8 as Day to Decide Question.

JEFFERSON CITY, Mo., April 3.—The proposed constitutional amendment establishing state-wide prohibition was today made a special order for April 8 by the House of Representatives of the Missouri Legislature. The committee on constitutional amendments reported the measure today without recommendation. The Democrats tried to force its immediate consideration, but by a strict party vote the Republicans defeated this effort. By 30, it is claimed that the measure will receive 77 votes in the House and 22 in the Senate and thus pass both branches of the General Assembly.  
There was a small sized riot in the House before the final vote was taken. Democrats complained that no op-

portunity had been given to present a minority report on the proposed amendment and left their seats.  
Immediately there was a rush for the door, the Republicans seeking to block the exits. U. G. Crandall, Republican, and H. L. Johnson, Democrat, came to blows, but were quickly separated. Most of the Democrats left the hall but later returned.

Concerning the acts of the state legislatures, the Supreme or other high court of the state shall have similar right.

The contracts may be made for not more than a year at a time, and bonds must be given by the institution receiving the deposit obligating it not to lend any money for use in any kind of gambling venture.

#### Great Britain Alarmed at Reports of German and American Outlay for Vessels.

LONDON, April 3.—(Special.)—Strange as it may seem to Americans, the campaign for naval increase, conducted with astonishing success in all parts of this country, is based secondarily upon the conclusions drawn from the Washington programme. In the Navy League's circular it is pointed out that the "United States has six Dreadnoughts building and two projected, a total of eight," and this, together with the German programme, "gives 21 large armored ships for the United States and Germany, compared with 23 for Great Britain, or only 18 if we assume that the Cabinet will fail to authorize four additional Dreadnoughts."
