Bet. Taylor and Yamhill

Covell Furniture Co.

184-186 First St.
Bet. Taylor and Yamhill

OF THE

Opens TOMORROW MORNING and Continues Daily Until Every Piece of Furniture, Carpet, Stove or Range Is Closed Out

Hours of Sale

Store will open at 9 A. M. and close promptly at 5 P. M. EACH DAY

For 20 Years

We have served the public faithfully, giving them full weight, full measure and an honest dollar in merchandise for every dollar left at our store. At the CLOSING OF OUR BUSINESS we want to thank our many friends and customers for the generous treatment

which they have always shown us, and at this great sale we want to do even better than we ever have before. For that reason, at this great sale of Furniture we will give our customers TWO BIG DOLLARS in merchandise, for every dollar left with us at this sale. Wishing our friends to receive the full benefit of our loss, which must necessarily occur at the winding up of so large a business. WE HAVE POSITIVELY REFUSED TO CLOSE OUT THIS STOCK TO DEALERS, as we have been requested to do, to save it from being thrown on the market and the consequent lowering of prices.

Terms

Goods will be sold for cash only and must be paid for at time of purchase. No deposits will be received for later deliveries, and no goods will be sent out C. O. D. We must insist on this, as we have reduced our working force as much as possible to save the purchasers all we can, and we keep no books.

Our Carpets

We will sell at less than cost of the raw material to save you money. We will quote prices in the piece or cut off. If you want them made and laid, will furnish you a man at cost.

Our Ranges

Are the best in the market—and to save you every cent we can, take them as we received them from the factory and they are yours at less than the cost at the factory.

Warning

As we have been asked to close out our stock in bulk to dealers, which we have positively refused to do, it will naturally call forth many fake sales. This is positively the only furniture house in the city that is retiring from business.

Our Furniture

As we have only a plain, honest statement to make to you, and as we have no baits to offer or traps laid to mislead you, we have not filled this ad with pictures of \$100 buffets at \$40, but simply ask you to see for yourself—we'll demonstrate to your satisfaction

CHICAGO IS COMING

Junket Arranged for Rose Festival and A.-Y.-P.

CADETS TO GO IN PARADE

Entire Force of O. A. C. Will Be on Hand for Daylight Pageant.

Floats to Be Taken to Seattle for Portland-Oregon Days.

Announcement that Chicago's Association of Commerce would send a special train-load of delegates to Portland and Seattle early in June to attend the A.-Y.-P. Exposition and the Rose Festival here in a large sense a triumph for the exploitation forces of the floral carnival which Portland will hold in June. Last December, General Manager George L. Hutchin, of the Festival Association, a former Chicagoan, appeared before the association and delivered an address strongly advocating a business men's excursion to Portland for the reason that New York was getting the greatest bulk of business with this city. Mr. Hutchin pointed out at the meeting that New York captains of industry came out here every year and corralled all the trade they possibly could and showed that Chicago houses were left out in the cold. He impressed upon the association the fact that Chicago was not very well acquainted with the Pacific Northwest and that it was high time a special excursion be arranged for. The Seattle fair and the Rose Festival here furnished the requisite inducement for having the junket pulled off in June. Yesterday President Hoyt, of the Festival, wired to Chicago for a complete itinerary of the trip, together with a request for a personnel of the party that will visit the Northwest at this time. Aside from the fact that the A.-Y.-P. fair has designated June 12 as "Chicago Day," no details of the plans of the visiting business men from Chicago have been received here. The Illinois State Association of Portland has undertaken to direct the programme of entertainment for the delegation while here, and will work in harmony with the commercial organizations and the Rose Festival in this matter. Word was received at Festival headquarters yesterday that the entire force of cadets from the Oregon Agricultural College at Corvallis would take part in the big daylight parade of Thursday, June 10. Word was also received that Roseburg would send a float for the "Spirit of the Golden West" parade here. McMinnville, by its business men's committee, agreed to enter a float consisting of a huge elephant made out of English walnuts, it being estimated that about 25,000 nuts would be required to construct this unique design. The St. John committee of the Rose Festival meets with the executive committee the coming week to arrange for its part in the week's celebration. Last night, General Manager Hutchin went to Seattle to conclude arrangements for the exhibition at the A.-Y.-P. Exposition of all the 20 Oregon floats of the "Spirit of the Golden West" parade on Portland and Oregon days at the fair. Those floats are to be made a part of the Oregon state exhibit and will appear in all functions in which this state will play any share.

BOOSTING CLARK COUNTY

J. M. REEVES TAKES UP NEW DUTIES.

Will Prepare Abundance of Detailed Information for Easterners Who Make Inquiries.

VANCOUVER, Wash., April 10.—(Special.)—J. M. Reeves, the new manager of the publicity department of the Commercial Club, is hard at work organizing what he calls his "Information Fund." This fund will be a collection of all available facts with regard to Clark County's commercial, industrial and agricultural advantages. Every one will be given an opportunity to contribute to this fund, and when all the information is gathered Mr. Reeves proposes to classify it, publish some in pamphlet form and keep some of it to answer in detail the inquiries from home-seekers that are pouring into his office.

Speaking of the advantages of Clark County, Mr. Reeves said: "To anyone headed westward in search of a location for business, or for fertile land suitable for every line of agriculture, all that is necessary to attract him toward Vancouver and Clark County is to show him the map. "It doesn't take long to convince an Eastern man that Vancouver holds the strongest position of any city in the country from an industrial standpoint, and it is this formidable position that makes her growth substantial and certain. "Show any man what the land of Clark County is producing; how it is protected on the north and east by highlands cutting off the fierce winds from these directions, and if he knows anything about soil he'll plant his fortune in Clark County land. "If Vancouver were wiped off the

map today and left as nude as a desert nothing under the sun could prevent her from becoming the great commercial and industrial center that her location on the map forces it on her. **Veteran Dies, Aged 81.**—WILLIAM MILLER, aged 81, a member of Stevens Post, G. A. R., Seattle, and formerly of Barron, Wis., died at the Washington State Soldiers' Home, April 9. He served in Company B, 24th Wisconsin Infantry, and Company A, 11th Wisconsin Infantry, during the Civil War. **Spring style shoes, Rosenthal's.**

STUDENT HAS AIRSHIP

SENIOR AT UNIVERSITY OF OREGON BUILDING ONE.

Lee Hurd, Student in Engineering Department, Busy With New Invention.

UNIVERSITY OF OREGON, Eugene, Or., April 10.—(Special.)—Lee Hurd, senior, and captain of the baseball team, has started construction of a flying machine of the glider type. Hurd has received plans and intends to hurry construction as fast as his spare time will permit. The plans call for an aerial craft after the fashion of the heavier-than-air machines, but built on a much smaller scale. A glider proceeds against the wind, depending upon the oncoming breeze to keep the vessel aloft. To ascend in one of these small airships the starting place must be an elevation such as a hill or a house-top. The navigator is supported by two horizontal bars and steers the machine by shifting his weight from side to side. The youthful aeronaut is constructing the flying machine in the wood-work department of the University. According to specifications, two planes will be built, each 26 feet in length. The framework of the planes will be constructed out of straight-grained spruce lumber, which will equal in size as near as possible the point of maximum strength with the minimum weight. No material will be used which is more than 1 1/2 inches in width and 1/2 inch in thickness. The framework will be braced with No. 14 or 15 piano wire. Unbleached muslin will be stretched over this skeleton. The muslin will then be treated with a preparation consisting of a slack and rubber compound, which makes the cloth both air and water tight. The mixture

PUBLIC MARKET IS OPENED

Interest Shown in New Enterprise at First and Washington.

With but few unoccupied stalls, and most of these leased, the Washington Public Market at First and Washington streets yesterday opened its doors, with every indication of complete success. Large crowds visited the market throughout the day and inspected the products attractively displayed in the various stalls. The arrangement of these is excellent. The lighting and ventilation are also well provided for. If the market maintains the standard indicated by the produce displayed there yesterday, it should become popular with Portland housewives. The market will be open from 8 A. M. to 6:30 P. M. on week days and from 8 A. M. to 10 P. M. on Saturdays. General Manager T. R. Robe and his assistant, W. S. Van Buren, expressed their satisfaction with the evidences of the public interest in the enterprise. During the day 3500 market baskets were given away to purchasers. The building is owned by the Broadacre Farm Products Company and was started last January. The structure occupies a full quarter block and cost \$25,000. **"Cocktail War" Is Called Off.** CHICAGO, April 10.—Dry Martini cocktails, Turkish cigarettes and benedictine do not appeal to a large part of the traveling public when they are served

REPUBLICAN CANDIDATE FOR COUNCILMAN OF THE TENTH WARD.

Mr. Walter has been a resident of the Tenth ward for eight years and is a large property-owner in that ward, and is thoroughly alive to all the interests of the ward, and is interested in the advancement and growth of Portland. Mr. Walter is a member of the Commercial Club and Summer Post, G. A. R. His residence is 820 Haight ave. He pledges a thorough business administration of the office if elected.
