THE AJAX STEEL RANGE is a model of simplicity. The walls are made double, and heavy asbestos is used as an interlining to prevent heat radiation. These walls are covered with blue planished steel that will not rust, chip, peel or turn when heated. THE AJAX STEEL RANGE is made to suit the housewife, and every new improvement has been thought out, and each new feature is practical. THE AJAX STEEL RANGE has every new feature, every improvement of the 1909 style. It has a six-hole top, a sixteen-inch oven, large-size warming closet, and is beautifully nickel-trimmed.
