

BILLY SUNDAY ON HOOD RIVER FARM

Evangelist Makes Special Trip From East to Buy More Fruit Land.

SEES VALLEY FROM AUTO

Entertained at Home of Willis Van Horn—Will Hold Meetings Tomorrow—Expects to Bring Mother West This Summer.

HOOD RIVER, Or., April 17.—(Special.)—All the way from Springfield, Ill., to inspect the land he had already bought and to buy more, Billy Sunday, accompanied by Mrs. Sunday, arrived here last night and today made a tour of the valley. The noted evangelist is being entertained at the home of Willis Van Horn, one of Hood River's most successful and wealthiest apple growers, and will remain here until Tuesday, when he leaves for Marshfield, La., to open a series of his exhortations to save sinners. From there he will go to Muncie, Ind., where he will close his evangelistic season, and then expects to come back to Hood River and spend the summer on one of his fruit ranches.

Mr. Sunday still shows evidences of his encounter with an irate auditor at Springfield, when he sprained his ankle, by limping a little, but otherwise appears to be in the best of health and is more enthusiastic over the Hood River country than ever. On his arrival he was met by his brother, Ed Sunday, who recently bought a place at Kennewick, but says he will dispose of it and buy an orchard here.

Mr. Sunday was also met here by Dr. E. L. House, formerly pastor of one of the prominent Congregational churches in Portland, but now located at Spokane, and who owns an orchard at Hood River, and Leslie Butler, of the Butler Banding Company, who took Mr. and Mrs. Sunday to the Van Horn home in his automobile.

It is said to be Sunday's plan to have a half brother come to Hood River and manage his fruit ranches and to bring his mother here to reside also.

In response to a request from Pine Grove Grange, Billy Sunday will hold a revival meeting tomorrow afternoon in the Grange hall at Pine Grove, and in the evening will address another meeting to be held in the city at the United Brethren Church. Arrangements have been made at the latter place for an overflow audience, as the largest public gathering that has ever taken place at Hood River is anticipated.

SLAUGHTER PENS CLOSED

Deputy Adams Enforces State Law at Walla Walla.

WALLA WALLA, Wash., April 17.—(Special.)—Owing to the violation of their slaughter pens, which are situated at the edge of the city limits, Deputy State Inspector W. G. Adams today closed the shops of three of the meat markets of this city, and until their pens are properly cleaned and placed in condition to pass inspection, they will not be allowed to operate.

Citizens living in the portion of the town where the stockyards are located have complained continually of the nuisance and made such vigorous protests to the Council that steps were taken by the owners to remedy the evil. After following the health rules for a short time, the slack methods were resumed.

Mr. Adams will remain in the city a week, inspecting the various places of business.

IN JAIL; PROPERTY SOLD

On His Release, ex-Convict Has Sister Arrested in Seattle.

SEATTLE, Wash., April 17.—(Special.)—While her brother, Elmer Johnson, was in the penitentiary, having been convicted of larceny by embezzlement, Mrs. Laura Johnson Gillan, wife of D. G. Gillan, employed in the stables of Conway Bros., is accused of selling property belonging to her brother, valued at approximately \$30,000 and using the money for herself.

This afternoon Johnson appeared at the Prosecuting Attorney's office, having been discharged from the penitentiary, and swore to a complaint against his sister. A warrant was issued.

Johnson says he gave his sister power of attorney so she could do as she saw fit in his best interest with his property. Johnson was sent to the penitentiary November 12, 1907, and the sales are reported to have taken place the following year.

DEATH MYSTERY UNSOLVED

Coos Bay Authorities Give Up Investigation of Girl's Demise.

MARSHFIELD, Or., April 17.—(Special.)—Investigation of the death of Miss Mabelle L. Barnes, who died suddenly two weeks ago, has been discontinued. The stomach was sent for examination to the State Chemist at Corvallis, but as he is out of the city, it has been returned without analysis. There was no other evidence to show anything but a natural death, so the coroner's jury returned a verdict of unknown cause.

LANDOWNERS MUST PAY

Contractor Wins Suit Involving Chelalis Street Improvements.

CHEHALIS, Wash., April 17.—(Special.)—The case in the Lewis County Superior Court, involving payment for the brick pavement in front of the property of several Chelalis-avenue and Park-street owners was concluded before Judge Rice today. The court held against the property owners, and that they must pay. B. S. Davis, the Tacoma contractor, for the work. The complaint alleged defective workmanship, and that the price at which the contract was let was exorbitant. This necessitates a higher rate of assessment.

PERSONAL MENTION.

Mr. and Mrs. Sidney Mayer are at home at 712 Nevada street.

George R. King, one of the leading organists and singers of San Francisco, arrived during the week to locate in

MILK MEN FINE

Commodity Fails to Meet Test as to Fat Percentage.

INSPECTOR KELLEY BUSY

Makes Rounds of Vancouver Milk Wagons Early in Morning and Finds Two Carriers Who Are Delinquent.

VANCOUVER, Wash., April 17.—(Special.)—Deputy Dairy Inspector Ernest Kelley, of Seattle, is in Vancouver, inspecting the milk situation and the city's supply of milk. He expects to remain here several days and visit all the dairies and creameries in the county.

He was out early in the morning and took samples of milk and cream from several of the milk wagons and later tested the samples with the following results: Hathaway & King's milk showed 4 per cent fat; cream, 21 per cent fat; Vancouver Dairy, W. H. Fletcher, milk, 3.2-10 per cent fat; cream, 21 per cent fat; Jersey Creamery, cream, 27 per cent fat; John Burke, milk, 3.1-10 per cent fat; cream, 18 per cent fat; Moseley & Church, milk, 2.2-10 per cent fat.

The state law requires that milk shall test 3 per cent fat. As the samples of milk of Moseley & Church were below the state standard, Mr. Kelley at once filed complaint and Moseley & Church were brought before Judge Scanlon and fined \$25 and costs—the fine.

Mr. Kelley is one of the three new deputy dairy inspectors appointed this month. The work of the State Dairy and Food Department has been increased since the last year, and it is necessary to increase the force. There are now in this department under J. Davies, of Davenport, a drug inspector, a meat and slaughter-house inspector, a dairy instructor and three dairy inspectors.

LOST BROTHERS FOUND

J. T. QUADE, OF THIS CITY, FINDS HIM IN POORHOUSE.

Unfortunate Relative Will Join His Brother Here Today, After 30 Years' Separation.

WALLA WALLA, Wash., April 17.—(Special.)—After having been ignorant of the whereabouts of his brother for more than 30 years, J. T. Quade, of this city, today discovered that his brother William had been confined to the poor farm of Walla Walla County for the past three months, and prior to that time had been undergoing the worst of hardships. William Quade, the poor relative, is 73 years old. He began early to follow the race track, and lost his all, finally being taken care of by the local authorities.

Leaving their home over 50 years ago, the brothers moved to Portland. Later separating, one remained there and the other seeking his fortune elsewhere. Following the fire at the local fair grounds last summer, William Quade, who was an employee there, began to lose his health, as the result of a horse stepping on him while endeavoring to escape from the stables, and after spending several months in a hospital was removed to the poor farm. Communication with the various postmasters in the Northwest by the keeper of the farm gradually led to the reunion, which will take place tomorrow, as William, the younger brother, left for Portland tonight.

SERVED IN STATE SENATE

Lewis B. Rhinehart Was Well Known Throughout Oregon.

Lewis B. Rhinehart, who died at his home in Portland on March 18, was born in Adams County, Ill., in 1837, and with his parents crossed the plains to Oregon in 1854, settling in Lane County near Eugene. He was for a number of years engaged in cattle raising in Eastern Oregon and later served as County Treasurer of Union County and Assessor of Baker County.

In 1884, Mr. Rhinehart was elected

The Late Lewis B. Rhinehart.

State Senator from Union County and served four years. After his term in the Legislature he removed to North Yakima, where he resided for 12 years. Later he came to Portland. Mr. Rhinehart is survived by his wife and son Arthur, of this city.

ARMED GUARDS ARE HIRED

Precaution Taken by Chinese Is Brought Out in Trial.

That wealthy Chinese in Portland have to resort to the expedient of hiring armed bodyguards during long out-breaks was revealed during the progress of the Yee Gung murder trial in the Circuit Court yesterday forenoon. It was also shown that the gurnahoe artists who serve as bodyguards charge for their service.

R. L. Levings, a private detective, was on the witness stand telling how he visited the Gung quarters with the police after a Chinese named Lee Tai Hoy had been shot down, supposedly by Gung and Lem Woon, who stands convicted of a part in the murder. After explaining that the place where the Chinese lived were miniature arsenals, Levings was taken up for cross-examination by Henry E. McGinn, representing Gung. He developed the fact that Levings had been serving as bodyguard for a wealthy Chinese family for some time.

"How much did you charge him?" Mr. McGinn asked.

Levings tried to evade this question, but when pinned down said he and an associate got \$20 a night for "hanging around" in the vicinity of the Chinaman's house.

Considerable progress was made in the case during yesterday forenoon, and it will be ready for the jury by the middle of the week. Adjournment was taken at noon so that the attorneys might go to the ball game. The case will be resumed tomorrow morning.

GRIGORY—the great money-saver. Sells homes for less than rent. See his ad on page 6, sec. 4.

EARLY BUYERS

SECURE FIRST AND BEST PICKING

Suppose you drop in today and select your Spring attire, while the assortment of Spring and Summer fabrics is at its best, and before the rush season is in full swing.

Extend Parcel Express

Sellwood and Oregon City to Be Given New Service.

SALEM, Or., April 17.—(Special.)—On Monday, April 19, the Portland Railway, Light & Power Company will extend its present package freight service to Oregon City and intermediate stations on Sellwood and Oregon city divisions.

Traffic Manager Hunt of the company has requested permission to inaugurate his service on short notice, and today the Railroad Commission telegraphed the desired permission.

JAP WORKMEN ADMITTED

Arrive in Seattle to Place Exhibits at A.-Y.-P. Exposition.

SEATTLE, April 17.—The Japanese steamship Tosa Maru, on arrival today from the Orient, brought to Seattle the first of the Japanese exhibit to the A.-Y.-P. Exposition. Ten skilled cabinetmakers and carpenters are on board, and they are here to carry out plans of the Japanese workmen were permitted by the immigration officers to enter the country with the presentation of concessions setting aside competition of Japanese laborers. They will be returned to Japan as soon as their work at the exposition is completed.

RUNAWAY INJURY FATAL

W. J. Cudmore, White Salmon Rancher, Dies After Accident.

WHITE SALMON, Wash., April 17.—(Special.)—W. J. Cudmore, a prominent rancher near here, died today from injuries received in a runaway accident. Mr. Cudmore was hauling hay and the wagon frame slipped forward, causing him to be thrown overboard and all medical aid proved futile. Mr. Cudmore leaves a wife, father and mother.

Echo Buys Hook and Ladder Truck.

ECHO, Or., April 17.—(Special.)—For the past two years the Echo fire department has consisted of hose carts Nos. 1 and 2, but now in addition the fire ladders have been purchased. The new hook and ladder truck, with Ray Smith as captain, have been chosen to man the truck. At a meeting of the company held last night it was decided to have a Fourth of July celebration.

Impure Blood Thoroughly Cleansed

Relieved of All Impurities Through the Use of Stuart's Calcium Wafers.

The blood is a thick, opaque fluid of a rich, red hue in the arteries, and a purplish blue in the veins. It derives its color from numerous small bodies floating in it which are called red corpuscles. If the blood be examined under a microscope the red corpuscles will appear as thin, circular disks, floating in a transparent, nearly colorless fluid.

Those red corpuscles number 5,000,000 to the cubic centimeter, but if either to the lungs, or to the skin, it either happens that they become very much diminished in number, a condition known as anemia or leukopenia. There are also other circular bodies in the blood known as white corpuscles, but which are much less numerous than the red.

The red corpuscles are the stimulating and animating elements of the blood. They absorb oxygen in their passage through the lungs, and convey it to the tissues of the body, where, combining with food elements absorbed from the stomach, it evolves animal heat.

Whenever the kidneys fail to properly filter the blood of its impurities, or whenever constipation occurs, the impure foreign matter collects in the blood-current, is carried to all parts of the system in the circulation, and is usually deposited in the form of pimples and other eruptions upon the skin.

Most of these eruptions appear upon the face, for the reason that there is there a thinner skin than anywhere else. Many people commit the error of trying to cure the pimples or eruptions by the application of salves and lotions, which is a great mistake, as the cause of the trouble is deeper seated, and the skin disease is simply the outward manifestation of the impure condition of the blood within.

Calcium Sulphide is the greatest blood purifier in existence. Instead of driving the blood impurities out through the pores, it sends them out through the proper channels—the kidneys and intestines.

STUART'S CALCIUM WAFERS contain calcium sulphide, combined with other powerful alteratives or purifiers, which act rapidly and powerfully upon the morbid products of the blood, expelling them completely, preventing their return, and incidentally removing pimples, boils, blackheads, carbuncles, tetter, ringworm, scurvy and all other skin blemishes.

Call on your pharmacist and secure a package of this wonderful blood-cleansing remedy; price 50 cents. Also write us for trial package free. Address F. A. Stuart Co., 175 Stuart Building, Marshall, Michigan.

WATER SAID TO BE PURE

Dr. L. Victoria Hampton Finds No Sign of Contamination.

Dr. L. Victoria Hampton is authority for the statement that the water being supplied residents of Portland is entirely pure and free from all sewage contamination. Dr. Hampton asserts that at no time since the disabled condition of the main in the Willamette River was discovered have the consumers been with other than germ-free water, even during the three days that water was taken from the Willamette River and distributed throughout the city from the Palatine Hill pumping station.

"I was surprised to see the report that the water supply at any time during the last week was infected," said Dr. Hampton last night. "With the exception of last Wednesday, I made a chemical analysis of the water every day. It was pumped from the Willamette River and found it to be entirely free from all contamination. By another analysis made today, I found the water absolutely pure. There is no occasion for any alarm for fear of an epidemic of typhoid fever or any other malady on account of the water. The water is pure and nobody need hesitate about drinking it freely."
