NEW YORK, May 2.—St. Yves, the Frenchman, won the international Marathen here today at the Polo Grounds in the time of 2:41:05. He plodded along at a steady gait all through the race, most of the time in the lead. At the finish he was five laps ahead of Syanherg, the Swede, who ended one lap ahead of Crook of Fall River, representing the Americans. Simpson, a Canadian Indian, finished fourth and Appleby, an Englishman, fifth. Dorando, the Italian, also finished, but had stopped too often to finished, but had stopped too often to the same to tribe against Mahmout, the Turk, at Chicago a few weeks and the troop of the Since defending his title against Mahmout, the Turk, at Chicago a few weeks ago, Gotch has been touring the West in exhibition and handicap matches, and the crowde he has been drawing in all the cities testify to the popularity of the foremost grappler of the age. He has been the American heavyweight champion for several years and won his title in a two-hour match with George Hackenschmidt, the Russian Lion, at Chicago a little over a year ago. Hackenschmidt returned across the finished, but had stopped too often to overcome the lead the others had. GOTCH HERE TUESDAY

WILL GIVE EXHIBIT WITH ED-DIE O'CONNELL.

Portland Sportsmen Are Anxious to See Champion Who Has Proved His Claim to Title.

Frank Gotch, the champion wrestler of the world, is on his way to Portland and will arrive tonight or to morrow. He will meet Eddie O'Connell. the Multnomah Club instructor in a handicap wrestling match at the Heilig Theater Tuesday night to throw him

Hackenschmidt returned across the big pond decrying Gotch's rough methods after that match and the Iowa tumbler followed him all the way to London to get another chance to prove himself the master of the big Russian but could not even get an interview. His match with the Turk is the only time he has really been called upon to defend his title, although he has met several men in straight matches since gaining it. He has now in prospect a return match with Hackenschmidt in Australia on the scene of the famous Jack Johnson-Tommy Burns battle-ground for a \$25,000 purse next Decem-ber.

While there have been wrestling champions of all ages, it is admitted on all sides that Gotch is the greatest of them all, in contra distinction to the standing of most of the present-day champions of the pugilistic ring. Gotch weighs 200 pounds. In spite of his size, he is faster than any of the middleweight men on the mat today. Even he does not know the limit of his strength, and when he is aroused to fury in a hard contest he is a more terrible opponent than the Russian Lion ever dreamed of being.

Judge Bradshaw decided the points of the terriers and buildogs, while Judge Taylor handed out the ribbons to the winners of the sporting breeds. These experts met with the approval of all the owners, and although some were disappointed in the decisions, yet they realized they were made on an impartial basis.

WEAK MEN

There's no economy in employing an amateur to do an expert's task. Nine times in ten failure follows. In a large percentage of instances the re suit is harm. The average physician is an amateur in the treatment of men's diseases. He doesn't treat enough cases to know a great deal about them. His time is so fully occupied in treating a full assortment of human ills that he cannot devote special study to any particular branch of practice. Most diseases are sufficiently simple as to require no special training other than that received in the medical colleges and that afforded by experience in general practice. The more complex and perplexing allments the family practitioner seldom cares to treat.

My Original Methods Cure Every Case I Take for Treatment

I know exactly what to do to effect a torough oure in every case that I accept for treatment. Though this is something that every specialist ought to know, it is a rare knowledge, indeed. The hundreds of evidences of mistreatment that come beneath my observation prove the general lack of a clear understanding of men's diseases and their treatment. I have devoted 30 years to the study and treatment of the very few allments constituting my specialty and have acquired the knowledge and skill and developed the original and scientific methods that enable me to accomplish results such as no other physician anywhere has ever accomplished. I understand my work from first to last, know what to do and what not to do, and treat every case without the slightest idea of failure. I positively confine my practice to the

DISEASES OF MEN

I Will Wait for My Fee Until You Are Well

Under mystreatment, the most aggravated cases of varicose veins are cured in a few days time. There is no pain, and it is seidom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout all the organs, and their natural processes of waste and repair are again established. If you are afflicted with varicose veins, consult me at once. Delay can but bring on aggravated conditions and nervous complications that will impair the vital functions and involve the general health. No other physician employs a like treatment, and so thorough is my work that there need not be the slightest fear of a relapse into old conditions.

"WEAKNESS."

"WEAKNESS."

I am confident that I have cured more cases of so-called "weakness" than any other physician. There may be doctors in the large Eastern cities who have treated more cases than I but they cling to the old and ineffective practice of dosing with tonics. "Weakness" is merely a symptom of local disorder that requires local treatment. This is a truth that I have discovered, and that has been fully established by my success in effecting permanent cures. My method is original with myself and is employed by no other physician.

FREE CONSULTATION. To judge my ability without personal consultation may be an injustice to yourself that will cost a lifetime of suffering. Consultation is free and confidential and you place yourself under no obligation to me whatever by coming to talk with me about your case. SPECIFIC BLOOD POISON

SPECIFIC BLOOD POISON
Others dose the system with mineral poisons scarcely less dangerous than the disease itself. The best they hope to do by this treatment is to keep the disease from manifesting its presence upon the surface of the body. Under my treatment the entire system is cleansed. The last taint of virus is destroyed. Every symptom vanishes to appear no more. I employ harmless, blood - cleansing remedies, blood - cleansing remedies, they are remedies heretofore unknown in the treatment of this disease. They cure by neutralizing and absolutely destroying the prison in the system. Such cures cannot be other than complete and permanent.

A WORD IN CONCLUSION. A WORD IN CONCLUSION.

My ability to cure all diseases of men both quickly and thoroughly is merely a matter of superior skill; which is nothing more than natural aptitude and accurate k no willedge, gained through unusual advantages for attaining the utmost proficiency.

MY COLORED CHART of the male anatomy will be found both interesting and instructive—free at office.

If you cannot call, write for diagnosis blank.

READ CAREFULLY. What better proof or more sincere assurance can I offer than that I am willing to wait for my fee until I effect a cure? Could I afford to make such an offer if I was not absolutely cer-

tain of curing every case I take: My practice has demonstrated that no aliment peculiar to men is incurable. Failure to cure is usually due to lack of knowledge and improper treatment. You may consult me free of charge and learn your exact condition. I will not urge my services, nor will I accept your case unless I am positive of my ability to cure you.

CONTRACTED DISORDERS.

To but partially cure a contracted disease is almost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed, the probability exists that the disease will gradually work its way into the general system. Still greater is the danger of the prostate gland becoming chronically inflamed, which always brings partial or complete loss of power. Perhaps twenty-five per cent of the cases of so-called "weakness" are a direct result of some improperly treased contracted disease. During the past five years I have treated thousands of cases of contracted disorders and have effected an absolutely thorough and safe cure in each instance. There have been no relapses or undesirable developments whatever, and my patients have been cured in less time than other and less thorough forms of treatment require in producing even doubtful results. CONTRACTED DISORDERS

cure all diseases peculiar to men, such as Varicose Veins, Hydrocele, Nervous Debility, Contracted Disorders, Reflex Aliments, Specific Blood Poison, etc. My offices are open from 9 A, M. to 9 P. M. Sundays 10 to 1.

> Nelson-Battler's Mix-up as to Dates for Summer.

BY HARRY B. SMITH. SAN FRANCISCO, May 8.—(Special.)— The fight game, which has been tottering around all through the Winter months with the opening match that will take place at the Mission-street arena on Saturday, May 15, between Hugo Keily and Billy Papke, ought to have a prospercus Summer, so far as San Francisco is concerned. Coffroth, always the promoter who makes the big fights, has a number of matches in view, as has been, previously announced. With some of his fighters he has been having a little trouble, but I fancy that the differences will be easily straightened out.

The Papke-Keily fight is going to draw well, and it is a curious thing. When one realizes that on the only occasion that either man has been seen in San Francisco he was in a losing fight against Stanley Ketchel, one wonders at the interest that is being displayed. Part of this interest is due to the fact that it has been a long time between good fights. The rest is accounted for on various grounds. with the opening match that will take

How They Lost to Ketchel.

When Papke fought Ketchel, it was after knocking out the middleweight champion in Los Angeles. Everybody figured that Ketchel didn't have a chance. Coffroth thinks he will draw a \$7000 house
with the card, while some of his friends
tell him that it will go close to \$10,000
Just who will be the favorite it is hard
to say, when the betting public gets down
to a serious consideration of the dope.
Most likely, it will be Kelly. He certainly fought a better fight in San Francisco against Ketohel than did Papke.
Then, too, the case with which Jim
Flynn defeated Papke in a limited round
encounter does not speak well for the
"thunderbolt."

How They Fought Before

As the fourth match between the same pair, it will also have its interesting points. The first time they fought in Milwaukee, Kelly broke his hand in the third round, but stayed out the ten. Papke, of course, was given the decision. The next time they went the same distance to a draw. The third time was in Los Angeles, when they fought what was called a 25-round draw. Kelly howled loudly that he had been robbed and was entitled to the decision.

This time the length of the fight has been fixed at 45 rounds and before the match has gone that distance one or the

other should have wen by a knockout. Each man is confident and the pains they are taking with their training shows that each wants that decision, as it will put him in a way for better matches in the Hyland-Nelson Fight.

Hyland-Nelson Fight.

After that fight comes the 45-round argument between Battling Nelson, the lightweight champion of the world, and Fighting Dick Hyland, a San Francisco product. And a surprisingly large number of people are going to have a bet on Hyland and fhink he will win. Dick is a good, tough boy, absolutely devoid of science. That is the most you can say for him. He is slow to think and slow to act. He understands little of boxing, but is rather a plodder and slugger. In that respect he is much like Nelson.

It may not be an interesting fight to watch from the standpoint of the man who enjoys scientific boxing, but it will be a struggle between two chaps who will devote themselves to in-fighting. Because of his youth and his strength Hyland is thought well of among the sports. Many of the wise ones are inclined to throw out the Nelson fights with Gans. They say that, when the Dane met the old master Joe Gans was a dead one and that anybody might have licked the for-

betting will favor Nelson.

Hyland has already started work at Croll's gardens in Alameda, where Kelly has his headquarters.

"I am going to wear Nelson down," explained Hyland in his methodical manner the other day. "I am not going to try to beat him early in the game, and I think I will get him hefore the firmula. think I will get him before the 45 rounds

have gone away."

And if Hyland beats Nelson, what a lot of rejoicing there will be in certain circles where the Dane is not thought of very highly.

Nelson's Play for Delay. Nelson's Play for Delay.

The proposed Nelson-McFarland match is all up in the air, but Coffroth hopes to straighten it out upon the arrival of the Battler, who is due the first of the week. McFarland, you know, made some cutting remarks about the forfeit that Nelson had not posted. Nelson replied that as a revenge he wouldn't give Mc-Farland a fight on July 5, but would make him wait until September 9. Then the Battler went ahead and matched himself for a 5-round fight with Cyclone Johnny Thompson for the Fourth of July. And he did all this without even asking Coffroth if the switch would be agreeable. is all up in the air, but Coffroth hopes to straighten it out upon the arrival of the Battler, who is due the first of the week. "Not a word until Nelson arrives and I have a chance to talk to him," replied Coffroth, when asked to tell his side of the story. "Nelson has to get over this Hyland hurdle first before he talks of other matches, and you know I think that Hyland will beat him. Will I give

Nelson and Thompson the Fourth of July date? If Nelson throws me down on the McFarland match he would on others. I think I can induce Nelson to change his mind. If he insists there are plenty of other cards that I can secure for the Fourth. Ketchel is willing to fight Lang-ford or Confessor Jack O'Brien or anyone I name for that date. I think I could get Jack Johnson it I wanted him. There are plenty of fighters nowadays, and I am not worrying."

Jim Jeffries has dropped clear out of sight. Until he told what he intended to do he was all the craze. When he said he would fight Johnson in another year, providing that some white man in the meantime doesn't beat the colored champion, and providing also a lot of other conditions, public attention faded away. The fight fans have made up their mind that if Jeffries will not fight for 13 months there is no use bothering him, and there you are. From a theatrical standpoint the retired champion seems to have made a big mistake.

standpoint the retired champion seems to have made a big mistake.

Although it has been announced and corroborated by Willis Britt that Stanley Ketchel is to fight 10 rounds with Sam Langford before Tom McCarey's club in Los Angeles, the sports do not think there is anything to the story. It was given out that Ketchel would receive \$10,000 for his end, and that \$5000 would go to Langford. Those of us who live in California appreciate that is a lot more money than the Los Angeles fight fans will contribute to the cause, and McCarey would not stage the fight for the love or glory that might be attached. It was quite evidently an advertising scheme. Willis Britt is for anything that keeps the name of his champion in the newspapers. It will be quite easy to concort an excuse for breaking the match at the an excuse for breaking the match at the
