FAIRHAVEN MOURNS HER DEAD

Birthingplace of H. H. Rogers Does Honor at His Grave.

FAIRHAVEN, Mass., May 22.—Fairhaven, the birthingplace of H. H. Rogers, today paid tribute to the memory of the deceased financier. From 10 o'clock in the forenoon until 2 o'clock in the afternoon a service was held.

At 10 o'clock the doors of the church were thrown open and for an hour there was a procession of school children passing by the casket. From 11 A. M. to 1 P. M. the residents of the town were admitted and permitted to gaze on the features of the dead.

The funeral services, which were

held later, were private and were conducted by Rev. Robert D. Collyer, the venerable pastor emeritus of the Church of the Messiah, New York. Rev. Frank L. Phalen, pastor of the Memorial Church, assisted.

The interment was in the Rogers family tomb at Riverside Cemetery, where rest the bodies of Mr. Rogers' mother, his first wife and his daughter, Millicent.

TRIBUTE FROM HELEN KELLER

Counts Rogers' Friendship Precious Privilege of Life.

BOSTON, May 22.—In a letter published in the Boston Transcript today, Helen Keller, the deaf, dumb and blind young woman, pays a personal tribute to the memory of Henry H. Rogers, who had taken a great deal of interest in her education. "He had the imagination, vision and the heart of a great man, and I count it one of the most precious privileges of my life to have had him for a friend," writes Miss Keller.

MORSE VICTIM OF PLOT

PITIFUL STORY IS TOLD BY BANKER'S LIFE MATE.

Woman Says She Was Warned in Years Gone By That Powerful Interests Were Conspiring.

NEW YORK, May 22.—Mrs. Clementine Morse, wife of Charles W. Morse, the former banker, asserted in an interview today that long ago persons high in power vowed that they would ruin her husband, and that they have kept their vows against justice and truth. Mrs. Morse declared that Government officials had boasted also that they would cause Morse's downfall.

She asserted that her husband had paid every dollar owed to every depositor in the Bank of North America, and that of an indebtedness of \$7,000,000 more than \$2,000,000 had been paid.

Mrs. Morse said she had sold her jewelry gladly to pay the claims against her husband. Practically all of the furnishings of the handsome home on Fifth avenue, Mrs. Morse said, had been sold, and the house was about to be sold over her head.

"When I leave I will have no home; I do not know where I shall go," she added.

SIX MEN INJURED

"Hang-Fire" Blast Takes Toll in Utah Quarry.

RAILROADERS ARE VICTIMS

Conductor and Brakeman of Work Train Investigate "Missed" Explosion and Are Buried Under Flying Debris.

OGDEN, May 22.—Six men were blown up in a quarry at Promontory Point, 20 miles west of Ogden on the Ogden-Luain cut-off, at 1:19 this morning when one of a series of blasts, slow in exploding, caught two trainmen and four quarrymen, who had gone into the quarry to investigate the results of the discharge of the battery of holes loaded with dynamite.

Among the most seriously injured are Conductor Bert Jenkins, and Brakeman W. D. Tribe, who were in charge of one of the six worktrains pulling heavy material from the quarry for rip-rapping the cut-off across Great Salt Lake.

Within a few minutes after the accident, a special train was made up and the injured were brought to Ogden. From the train they were conveyed to the Ogden General Hospital.

This is the second or third explosion in stone quarries adjacent to the cut-off, the last two years and "missed" shots have been the cause of the trouble in nearly every instance.

TRUST FUNDS ARE STOLEN

ALL OKANOGAN LAND GONE

Excess Sale of Government Fails to Come Off Because No Acquire.

OREGONIAN NEWS BUREAU, Washington, May 22.—The excess land sale

under the Okanogan irrigation project, Washington, which was advertised for April 25, upon direction of the Secretary of the Interior, did not materialize, as all excess holdings were disposed of before that date.

In the first unit of the project opened by the Secretary's announcement of November 12, 1908, water right applications have been made for all except T. area. Of these 27 acres, 27 are included within the corporate limits of the town of Okanogan. Applications were not made for these lands for the reason that it is anticipated they will be supplied under a contract with the town authorities for water for municipal purposes.

All varieties of fruit trees in the Okanogan region give every assurance of an abundant yield, in spite of the unusually severe winter. Some of the young orchards from 1 to 3 years old suffered more or less from the frost. The past winter was an unusual one for the fruitgrower, and probably will not recur until all the orchards under the project are far enough advanced to withstand the cold.

INJURED IN RUNAWAY

MRS. ALFRED J. GANTNER IS BADLY HURT IN ACCIDENT.

Dashed to Street, With Husband, When Buggy Overturns She Has Hip Fractured.

In a runaway accident yesterday afternoon about 5 o'clock near the Greenwood Cemetery, Mrs. Alfred J. Gantner, wife of the president of the Portland Business Realty Company, 818 Board of Trade building, was seriously hurt and is now in a critical condition in St. Vincent's Hospital. Mr. Gantner, who was also a victim of the runaway, escaped without serious injury.

They were driving a spirited team of horses to a light buggy and in rounding a curve in the road one of the wheels struck a stump, throwing the buggy around and causing the team to take a long distance and was not caught. A message received afterward said that the horses had been seen three miles from the scene of the accident. The Gantners occupy rooms at 28 West Park street.

The first application of electric heating for household use was in Seattle, Wash. Now there are hundreds of fireplaces in use in private homes and laundries.

ATTACK ON HENEY

Enemies Allege He Draws Pay From Government Unjustly.

OFFICIALS DENY CHARGES

Department of Justice Says Prosecutor Not on Federal Payroll Since He Last Handled Land Cases.

OREGONIAN NEWS BUREAU, Washington, May 22.—The Washington Times today prints a story that an effort is being made by enemies of Francis J. Heney to deprive him of further compensation from the Federal Government. The story adds that if such effort be made, it will have to be given consideration, inasmuch as Heney has devoted most of his time lately to San Francisco cases in which the Government is not lawfully interested. The Times states that Heney's enemies are making it appear he has been drawing pay from the Government while he has also been on the payroll of Spreckels and other residents of San Francisco.

Inquiry at the Department of Justice shows that no complaint has been made against Heney. Department officials state that Heney is drawing no fixed compensation from the Government. He is paid only for his actual work, and is not on the regular payroll. If he returns to Oregon to try Hermann and Williams, unless he actually prosecutes cases for the Government, he will receive no additional Federal compensation. The amounts heretofore paid Heney were published in The Oregonian last February.

Filmer of the Japanese liner Nippon Maru, who is accused of violating a section of the passenger act, making it an offense, punishable by a fine of \$1000 in each case, to permit passengers to land from a foreign vessel without the express consent of the collector of the port, which was not given yesterday when Vice-Admiral Uryu and his wife were landed

SEATTLE MILLS BURN

FIRE LOSS MAY REACH \$200,000 IT IS FEARED.

Flames Devour Factories on Lake Washington—Firemen Have Trouble Reaching Scene.

SEATTLE, May 22.—The plants of the Lake Washington Lumber Mill Company, located on the shore of Lake Washington, at the foot of Charles street, are on fire, and it is feared they will be a total loss. It is thought that the loss will reach \$200,000.

The plants, which cover an area of nearly three city blocks, are surrounded on the land side by steep bluffs. The roads leading in the mills are almost impassable and the greatest experienced great difficulty in getting their apparatus to the fire. The wind is blowing from the south, carrying the flames toward the workers. The firemen are directing their efforts toward saving these buildings. The fire started about 11:30 o'clock.

GARRETSON AGAIN CHIEF

Conductors' Convention Hears of Impending Trouble in Mexico.

BOSTON, May 22.—A. B. Garretson, of Cedar Rapids, Ia., was re-elected grand president of the Order of Railway Conductors today. Oakland, Cal., became a candidate for the 1911 convention.

Chief Conductor Curtis, of the Mexico delegation, left for home last night on an urgent telegram stating that the re-

cent settlement of one of the longest Hartman lines in that country had been partially overturned, and that certain conductors were being discriminated against. It was not officially stated, but it was hinted that a strike had been authorized, if necessary, to enforce the agreement.

RUN OF SOCKEYE BEGINS

Season Is Early and Supply of Salmon Expected to Be Large.

PORT TOWNSEND, May 22.—Advises brought here tonight by vessels from Cape Hattery give the first news of the arrival of the season's run of sockeye salmon. The appearance of the fish in many days ahead of the expected arrival, and as this year is the fourth in the cycle when big runs are looked for, fishermen assume the situation for big returns is extraordinarily favorable.
