New School, DEMANDED.—At a mass meeting held Friday night in Woodlawn Mathodist Episcopal Church, patrons of the Woodlawn school entered a vigorous protest against further use of the old school building, which within the past year has been successively condemned by the building inspector, the fire marshal and the health department. Some six years ago the half of a new building was erected for the use of the district and the old one moved aside as a reserve for emergency purposes. By reason of the rapid growth of Woodlawn as a resi-dence district it has accommodated the overflow from the new building from the beginning, and having become unsafe and unsanitary, citizens are protesting loudy against the action of the Boart of Educa-tion in spending money for repairs on the old attracture. against the action of the Board of Educa-tion in spending money for repairs on the old structure instead of providing for the completion of the new. A committee beaded by Councilman Vaughn will wait on the Board and present a plea for safe and sanitary provision for the school children of the community, and another meeting is called for Wednesday eve-ning, June 5, to receive the report of the committee and consider further action.

A BOOST FOR PORTLAND Adoption of Modern Conveniences

Means Greater Growth.

Do you want to see the City of Port-land, which now has a quarter of mil-lion people, and which may have half lion people, and which may have half a million people in ten years, absolute-ly prevented by law from using modern appliances and inventions? That's what the amendment to the city char-ter, article IV, chap. VI, prohibiting the use of any patented article in any public improvement in the City of Port-land will accomplish if it is adopted. It is up to you, the voters of Portland to say if this amendment offered under initiative petition shall be adopted. Think about it and you will make a cross after the number of the ballot 161, NO. A. ACHTERT, 485 Clay st.

## THE EXCISE BILL.

The Excise Board Amendment, ballot No. 164, provides for taking the liquor traffic out of politics by plac-ing its supervision in an Excise Board instead of the Council. It prohibits breweries from operating saloons and selling liquors in competition with the regular licensed salonbace to selling liquors in competition with the regular licensed saloonkeeper. It pro-hibits women, chairs and amusements in saloons. It prohibits hotels and restaurants from serving liquors in private rooms and boxes. It prohibits grills, hotels and restaurants from serving mixed drinks, such as cock-tails doped with liquor, the stuff the bad man gives to his girl friend. The old cry, "It will hurt business," is al-ways set up when you attempt to regu-late the liquor traffic. This amendment, if adopted, will not hurt the decent hotel business, the decent restaurant business nor the orderly saloon busi-ness. If you want any other proof that you should vote for the Excise Board amendment, go any night to the en-
