MAY RESCUE CREW

Victims of Russian Naval Disaster Have Chance of Life.

Plunger Rammed by Battleship May Be Raised by Crane and Imprisoned Men Saved From an Awful Death.

SEBASTOPOL, June 12.—Hope, though slight, is entertained that the 20 men who went down in the Russian submarine Kambala, which was sunk in collision with the battleship Rostislav during maneuvers last night, are still alive.

Desperate efforts are being made by the officers and men of the Black Sea fleet, with the assistance of divers and other workmen from Sebastopol, to raise the submarine before the imprisoned men succumb.

Admiral Bostrem, commander of the naval forces in the Black Sea, has taken personal charge of the operations assembled at the scene of the catastrophe. One of these is equipped with a powerful hoisting crane. All afternoon divers were trying to fasten chains around the hull, which lies in an awkward position about 28 fathoms down, in order to haul it to the surface.

So far their efforts have not been successful, but reports reaching shore indicate that there is a good chance of raising the boat. Apparently the submarine was not crushed, as had been feared.

WOMAN TO BE PRESIDENT

Julia Lathrop or Jane Addams to Head Charities and Corrections.

BUFFALO, N. Y., June 12.—A woman probably will be president of the next National conference of Charities and Corrections. Indications point to the selection of Julia Lathrop, of Hull House, Chicago. Another possible candidate is Miss Jane Addams, also of Hull House, Chicago. Today's session of the conference was devoted to the discussion of three subjects, conducted in separate sessions.

Henry H. Goddard, Ph. D., of the New Jersey Training School, of Vineland, demonstrated the use of the ergograph and the psychometer.

Submarine Struck in Dark

Vessel Had Been Successful in Manoeuvres Just Before Accident.

ST. PETERSBURG, June 12.—Dispatches received here from Sebastopol by Emperor Nicholas, and the Minister of Marine, give supplementary details of the sinking of the Kambala. The battleship squadron, without lights, was steaming in toward the harbor, when shortly before midnight the vessel was located a few miles out by a submerged, passed half a cable length to port of the lead g sloop, the Pantelimon, and theoretically put this vessel out of action with a torpedo.

After passing the first battleship the Kambala suddenly swerved through the line, and the Rostislav caught her
