

LAW GRADUATES OF STATE UNIVERSITY TAKE EXAMINATION FOR ADMISSION TO BAR

CLASS OF 1909, DEPARTMENT OF LAW, UNIVERSITY OF OREGON.

Top row (left to right)—F. T. Collier, Alva W. Person (treasurer), Leon W. Behrman (president), Circuit Judge Calvin U. Gantenbehl (dean), D. P. Matthews (vice-president), James F. D'Arcy (sergeant-at-arms), Willard M. Conklin.

The class of 25 which passed the examinations of the law department, University of Oregon, this year took the bar examinations at Salem last Tuesday and Wednesday. Their papers have not yet been returned. Beside the class from Portland, 20 others took the examinations at Salem. In other years the bar examinations have consumed but a half day, but this year it was necessary to set aside two days. The standard which law students are required to reach in Oregon has also been raised by the lengthening of the course to three years, where it formerly covered but two. The present course places the Oregon law school on a footing equal with, if not higher than that of Eastern law colleges. The class sessions are held evenings, the lectures being given at the Courthouse in Portland. C. U. Gantenbehl, Circuit Judge, is dean, and gave the lectures on "Evidence" during the term just closed. Judge Wolverton lectured on "Federal Procedure," Judge Gilbert on "Constitutional Law," Judge Morrow on "Supreme Court Practice," Hon. H. H. Northup on "Pleading," Otto J. Kraemer on "Justice Court Practice" and Thomas H. Greene on "Bankruptcy." The law class examinations were held May 19 and 26.

Oregon's Newest Soldier Is Medal Winner for Expert Marksmanship

Ronald De Vore Johnson, 25 Years Old, Son of Pioneer, Grandchild of Patriotic Clergyman, Is Graduated a Second Lieutenant From West Point.

THE newest second lieutenant from Oregon in the United States Army is Ronald De Vore Johnson, of this city, who is to return to Portland a medalist. The young soldier was born in Oregon City, Or., in 1884, and was graduated last Friday from the United States Military Academy at West Point, N. Y., in the class of 1909, which was composed of 163 men. Mr. Johnson is the son of William Carey Johnson, L. L. D., both of his parents being well-known pioneers who formerly lived in Oregon City. Lieutenant Johnson is a grandson of Rev. Ezekiah Johnson and of Rev. John F. De Vore, D. D., patriotic and pioneer clergyman of the Pacific Northwest. Oregon's most recent Army officer received his home education at the Portland Academy, one of his classmates being Ensign Raleigh Hughes, of the United States Navy, and a graduate of Annapolis. It is worth noting that Portland Academy has furnished several officers, both to the United States Army and Navy. Mr. Johnson played football and baseball both on the Portland Academy and Multnomah Amateur Athletic Club teams, and is remembered here as being one of the greatest ends and quarterbacks among Oregon's native sons. After graduation from the Portland Academy, he entered Stanford University and played baseball on the freshman team. Thereafter he was appointed from Oregon by the late United States Senator Mitchell to the United States Military Academy, entering with a class of 163 members in June, 1905. In his "plebe" or first year at West Point, Mr. Johnson was appointed athletic representative of the class of '05, and secured places on both the Army football and baseball teams. For two years he played quarterback, one year as halfback and in the past season he played end and was chosen by Walter Camp as a member of one of the All-American football teams. At West

Point Lieutenant Johnson was the successor of Lieutenant Thomas W. Hammond, United States Army, a graduate of the West Point class of '05 and a classmate of Lieutenant Alvin B. Barber, formerly of this city. Lieutenant Johnson's best work at the United States Military Academy embodied engineering, modern languages, marksmanship, horsemanship and drill. He is one of the 51 survivors of the original West Point class of '05. Lieutenant Johnson is coming home to Portland to pass his month's graduation leave with his parents.

GIVE AID TO UNEMPLOYED

Churchill's Bill Plans to Bring Man and Job Together.

LONDON, June 12.—(Special).—Winston Churchill's bill for the establishment of labor exchanges consists of four operative clauses. Power is given to the Board of Trade to establish and maintain labor exchanges; to assist any labor exchanges maintained by any other authorities, and to collect and furnish information as to employers requiring workpeople and workpeople seeking engagement or employment. Power is to be given to the board to take over any labor exchange. Under clause 2, the Board of Trade may make general regulations with respect to the management of labor exchanges; and, subject to the approval of the treasury, authorize advances to be made in the way of loan towards meeting the expenses of workpeople traveling to places where employment has been found for them through a labor exchange. Provision is also made in the bill for the punishment of anyone making false representation to any exchange officer for the purpose of obtaining employment or procuring workpeople.

BERNHARDT WINS DAMAGES

Playwright Must Pay Actress \$2000 for Costumes for Faust.

PARIS, June 9.—(Special).—Madame Sarah Bernhardt and M. Henry Bataille had come to terms over a "Faust" by the latter, which the former was to bring out. As occasionally happens in the theatrical world, after having completely agreed, they eventually fell out with the same thoroughness, and each sued the other for breach of contract, claiming damages. The courts have just decided that the contract appeared to have been equally broken on both sides, but that the one fact which stood out was Madame Sarah Bernhardt's having spent money on dresses and scenery for M. Bataille's "Faust," and the author accordingly will have to pay the actress back \$2000 which she laid out on his play, while she must return his manuscript.

CHEMISTRY OF HELL

It has been pointed out in more than one scientific organ during the comparatively few years that have elapsed since the discovery of the radio-active elements how readily the new knowledge lends itself to the belief in an eternal hell of fire and brimstone. To the lay mind, as a Paris paper points out, hell is supposed to be a scientific impossibility, whereas it has been made, on the
