WOODRUFF IS RAPPED HARD

"Too Much of Football Player; Not Enough Lawyer," Says Report.

OREGONIAN NEWS BUREAU, Washington, June 12.—"Too much of a football player and not enough of a lawyer," is the scathing verdict of the Senate Judiciary committee in the case of George W. Woodruff, nominated some weeks ago as Federal Judge for Hawaii. In consequence of this verdict, the committee has declined to report the nomination of Mr. Woodruff, and it remains pigeon-holed in the committee room. Unless there is a change of sentiment among members of the committee, the nomination is not likely to be reported, and therefore Woodruff is not likely to be confirmed. Mr. Woodruff is little known as a lawyer, he has a wide reputation as a football coach. A graduate of the University of Pennsylvania, Mr. Woodruff is written down one of the star players of the institution, and as coach of the Pennsylvania football team in later years, he has acquired fame. He produced a crack team, and moreover, he originated some of the most effective of modern plays known to the football world. That it is solely on his football record that Mr. Woodruff's fame depends. As a lawyer he is practically unknown outside of Washington city. For a number of years he was chief legal

advisor to Gifford Pinchot, Chief of the Forestry Service, and though not famous, he should be noted for having expounded the doctrine that any Government official is empowered to do anything which he is not specifically forbidden to do by the Federal statutes. It was on such advice from Woodruff that the Forest Service reached out and undertook to do by regulation what any other department would not have dared do without sanction of law. When President Roosevelt made Mr. Garfield Secretary of the Interior, Mr. Pinchot secured the appointment of Woodruff as Assistant Attorney-General for the Interior Department—this officer being the chief legal advisor of the Secretary of the Interior. In that office Mr. Woodruff remained only as long as Secretary Garfield, and then he resigned. It was a wise and timely resignation, however, for it is well known in official circles in Washington that on questions of law, and particularly public land law, there is a vast difference between the interpretation of the statutes by George W. Woodruff and the interpretation by E. A. Hallinger. Naturally a man as well versed in land law as Secretary Hallinger, would not desire as legal advisor a man whose ideas were at such striking variance with his own. The Judiciary committee, that has charge of Woodruff's nomination, has gone carefully into the record of Mr. Woodruff, and in addition to the foregoing facts, has found that Mr. Woodruff, since his admission to the bar, has had no court practice. Members of that committee, all of them experienced lawyers, hold the antiquated notion that no lawyer is competent to sit upon the bench unless he has had considerable experience in court. In view of those facts, their verdict is apparently in accordance with the evidence, and soon President Taft will be confronted with the facts, in the expectation that he will name another man. The understanding is that Woodruff's appointment was merely a fulfillment of a promise made by President Roosevelt to Messrs. Garfield and Pinchot. It is also reported that the people of Hawaii are anything but pleased with the appointment of Woodruff, and their protest is likely to be presented along with the finding of the Judiciary committee.

PROMINENT CELESTIAL GETS BULLET IN LETTER.

Boise Chinamen Rally to Side of Asiatic Woman, Who Leaves Doctor Husband for Highbinder.

Activities of the highbinder who are creating consternation in the Chinese quarters of Boise have evidently extended to this city, and now the lives of several prominent Celestials here are threatened. Among local Chinese whom anonymous letters seem to place in jeopardy is Wong Non Gar, grand master of the prominent Celestials here and Mission Society. He has already received four warning letters, one of which contained a 44-caliber bullet. The Federal authorities, as well as the police of Boise and Portland, have been asked to ferret out the mysterious senders of the epistles. The present state of affairs is said to be the result of an internal imbroglio that has been brewing among the Chinese of Boise for the last several weeks. The difficulty is believed to have had its origin when the young wife of Dr. Ah Fong, a prominent Americanized practicing physician of that city, separated from her husband and was accused of taking up her abode with Lon Wee Deo, a well-known gangster of the mysterious society. The highest Celestials in Boise's Chinatown endeavored to effect a reconciliation between the alleged wayward young wife and her husband, more than 30 years her senior. When a factional strife, as a result of the physician's difficulties, threatened to divide the Boise Chinese, the police of that city were enlisted to quell the incipient uprising, but all efforts on the part of the authorities to influence Mrs. Ah Fong to return to her husband proved futile. In his capacity as missionary of the Sacy Gai Choon Yee Tong Mission Society Wong Non Gar, of this city, then took the matter up and visited Boise with a view of pacifying the hostile sides. Despite his efforts the hostilities increased, and finally the life of Dr. Ah Fong was threatened. Now highbinder have rallied to assist their constituents and all the Asiatics who hoped to bring about an amicable settlement of the affairs of Dr. Ah Fong and wife have been threatened in anonymous letters. The subject has been placed before Moy Back Hin, Chinese Consul here, who is exerting an effort to avert bloodshed.

UNIVERSITY OF OREGON, Eugene, Or., June 12.—(Special.)—Owing to the fact that the school year is so nearly over, the installation of the local chapter of the Acacia fraternity will not be made until next fall. The Masonic Club announced this week that it had been accepted as a chapter of the collegiate Masonic body known as the Acacia Fraternity. This makes the third national fraternity to enter the University of Oregon, for the Acacia is like Greek-letter fraternities except that its members must be a Master Mason. Oregon is the smallest institution in the country to be thus honored. Some of the members of the old Masonic Club here are well advanced in Masonry, which doubtless had influence in obtaining the charter. Next year the chapter will be housed in a fine building near the campus. Only undergraduate members will live in the house, it is understood. In the roll of chapters of the Acacia Fraternity, 23 colleges and universities are represented, in part as follows: University of Michigan, Leland Stanford, Jr., University of Kansas, University of Nebraska, University of California, Ohio State University, Harvard University, University of Illinois, University of Pennsylvania, University of Minnesota, University of Missouri, Cornell University, Purdue, University of Chicago, Yale, Columbia, Iowa State College. The fraternity was started at the University of Michigan, ten years ago.
