## FARMERS DEMAND DOLLAR FOR WHEAT

Umatilla Growers Will Hold Grain-Decide Also to Build Railroad.

TO TAP RICH GRAIN BELT

Farmers' Union Will Organize Own Company for Construction of Railroad From Columbia River to Interior.

PENDLETON, Or., June 26 .- (Spe cial.)-Deciding to build an electric line from Thorne Hollow down across the wheat belt of Umatilla County to the Columbia River, and adopting a resolution to hold this year's wheat crop for at least one dollar per bushel, the County Farmers' Union held one of its most enthusiastic meetings here this afternoon.

There were a large number of grain growers present and all seemed to be of one mind on both propositions. The proposed road will have its Columbia River termination either at Cold Springs or Umatilia, making the line from 20 to 40 miles in length, and tap-ning the very best portion of the wheat hair.

A committee was appointed to investigate right-of-way and other matters and report at a meeting to be held in two weeks. At that time it is proposed to organize a company for the building of the road.

In connection with requiring the members of the organization to hold for one dollar, it was decided that arrangements be made for advancing money to those farmers who otherwise would be compelled to sell at whatever

#### FAIR PARK TO BE BUILT

Southwestern Washington Association Accepts Plans.

('HEHALIS, Wash., June 26.—(Specherialls. Wash, June 26.—(Special)—The executive committee of the Southwestern Washington State Fair, the grounds for which are located midway between Chehalis and Centralia, have approved the plans submitted by C. Lewis Wilson, the Chehalis architect, and bids have been called for putting the grounds into shape, building the fences, buildings, half-mile track, etc. The location is considered in

ideal for making a beautiful fairground.

At the entrance to the grounds, which will be at the east side county road connecting the two cities, will stand two high towers, with an entrance for vehicles at the center, and one for pedestrians on either side. To the left of the entrance will be the pens for livestock exhibits. In front of this will be the grounds for concessions. At the right of the entrance, near the fence, will be the home of the keeper of the grounds, and further on, the stables. Nearer the entrance, on the right, will be the machinery and floral halls, connecting by a pergola, each to be 50x120 feet, and surmounted by large towers.

Immediately in front of the entrance Immediately in front of the entrance fronting the track, is the grandstand, capacity, 2500. It will, also, be surmounted by a large tower about 70 feet high. Ample protection from fire is to be provided. Good stables and adequate sewerage facilities are to be provided.

The track will be a half-mile standard racecourse. It is intended to make it an exceptionally fast track, and the quality of the soil is believed to be such that this will be easily done. The track will be 65 feet wide, with a speedway of 49 feet.

HAVE THEIR WARTIME PIC-TURES REPHOTOGRAPHED.

Also Sit for Group Picture, Which Shows Striking Contrast Between Old and New.

HOOD RIVER, Or., June 26.—(Special.)

Fight members of Canby Post, G. A. R., of this city, recently hunted up look war-time daguerrectypes taken in 1851, and have had the same rephotographed. The veterans also sat for a group pleture, which is in striking contrast to the youthful and beardless faces of the lads who answered Lincoln's call 48 years ago. Of this squad of old soldiers but two were commissioned officers. J. H. Dukes was mustered out at the close of the war as Captain of his company, and Fred Deltz rose to the rank of First Lieutenant. The others of the squad proudly boast of having served throughout the war as high privates in the rear rank. Their ages are as follows: Isenberg, 55; Wilson, 58; Buck, 55; Custner, 62; Deltz, 69; Blythe, 67; Dukes, 73; Capple, 68.

REFUSES TO SPEND ALL HIS TIME IN ROSEBURG.

Council Threatens to Confiscate Engineer's Bond, but Latter Insists This Can't Be Done.

ROSEBURG, Or., June 25.—(Special.)
-Frank C. Kelsay, of Portland, awarded the engineering contract for street paving in this city several months ago, has resigned, information to that effect having been received today. He says that the city has violated its contract in many instances and that he believed it would continue to 40 so

it would continue to do so.

The Council, on the other hand, says that Kelsay is responsible for the breach, inasmuch as he has visited Roseburg but three times since securing the contract. It was understood that he would superintend the work personally, but this he falled to do. An effort is now being made to declare his \$3000 bond forfeited.

"In 1908 I entered a contract with the Roseburg City Council to pave certain streets in that city," said Mr. Keissy last night. "I made the survey and furnished the plans and specifications, and when the work was about to begin it was discovered that the election by which the improvement was ordered had not been regular. Subsequently this defect was cured by hold-

ing another election.
"I still stood ready to perform the work according to my contract, but the members of the Council insisted that I should remain in Roseburg per-sonally and superintend the work. This I declined to do, as the terms of the contract did flot require it. I proposed to send a competent man to superintend the improvement and agreed to visit the city and inspect the work from time to time. This arrangement was not satisfactory to the Council. I then notified the Council that I was willing they should cancel the contract and they seemed willing to do so.

"Under the provisions of my contract there is nothing that requires me per-sonally to be in Roseburg and conduct the improvement. The city through its Council has no legal claim against me and can only fall in its attempt to forfeit the bond for \$2000 which I deposited in good faith for the perform of the work according to con-

## POISON DOES NOT KILL

JOHN C. CARPENTER, OF PORT-LAND, TRIES TO END LIFE.

Despondent Because of Discharge From Telephone Company's Service, He Drinks Drug.

ROSEBURG, Or., June 26 .- (Special.)-John C. Carpenter, who recently came to this city from Portland, accompanied by his brothers Edward and George, to dehis brothers Edward and George, to develop mining properties owned by the Douglas Development Company, made an unsuccessful attempt to commit suicide at the camp about 12 miles west of this place shortly after 12 o'clock last night when he swallowed half the contents of an eight-ounce bottle of external polson oak remedy containing beliadonna. Medical aid was immediately summoned and the suffering man was brought to Mercy Hospital in this city, where he is now convalescing. His brothers say that the patient has suffered melancholia since his discharge from service with the Pacific States Telephone Company, at Portland, which occurred several months ago.

In speaking of his act upon the arrival of a physician, Carpenter said: "You fellows are going to a lot of useless trouble, I have the start on you."

AGENT RECOVERS HIS FEE Supreme Court Reverses Decision Regarding Tacoma Land Sale.

OLYMPIA, Wash., June 26 .- (Special.)-In the Supreme Court today the case of George Lawler against J. Armstrong and P. F. Hylebos, decided in the lower court in favor of the defendants, was reversed

and the appellant recovers his costs. Lawler, as agent, sought to sell some Tacoma lots for \$30,000 to one R. D. Mc-Donald, who in turn was acting as an agent for a second party. The land was later sold through another source and Lawler started suit to recover his commission, which the lower court denied, but which the Supreme Court says he is entitled to recover.

entitled to recover.

PAVING BIDS ARE REDUCED

Centralia Gets Vitrified Bricks at Price of Wooden Blocks.

CENTRALIA, Wash., June 25.—(Special.)—The City Council, after having spent considerable time and money in investigating the respective merits of brick and wooden paying, and after having practically decided that wooden blocks are not only better but cheaper, was met at the last meeting by a decided opinion from the property-owners in the new improvement district in favor of the vitrified brick, even though the cost were greater. The Council decided that the wishes of the property-owners should be respected.

The investigations of the Council had the effect of bringing the bid on the brick paving down to approximately the same as the wooden blocks, thus saving the approximate sum of \$15.000.
