

PINGHOT'S FEARS NOT SWILLMEN'S

Weyerhaeuser Says Forests in United States Will Last Forever.

LUMBER OUTLOOK BRIGHT

Tariff Adjustment Satisfactory to Millmen and Activity in Business Is Expected to Resume at Once.

SEATTLE, Wash., July 10.—(Special.)—The lumber industry is entering upon an era of renewed activity and prosperity.

"I am very much interested in the forestry problem. Although I do not agree with the statement attributed to Mr. Finchot, to the effect that the forests of the country would be wiped out in 50 years, I am making a special effort to conserve the forest and to pursue scientific methods in removing timber from my holdings.

NO WHEAT, MILLS CLOSED

Flour Factories at Dayton Shut Down Until Grain Is Harvested.

DATTON, Wash., July 10.—(Special.)—Flouring and chop mills of the Touchet Valley have closed on account of a shortage of grain.

RUNAWAY BOYS CAPTURED

News Story Leads to Identification by Albany Officer.

ALBANY, Or., July 10.—(Special.)—A story in this morning's Oregonian regarding the runaway of three boys from Portland led to the capture of two of them in Albany today.

NEW ROAD INCORPORATES

Clark County Railway Company New Vancouver Firm.

VANCOUVER, Wash., July 10.—(Special.)—Articles of incorporation of the Clark County Railway Company have been filed in the office of the County Auditor by Bert Yates, J. W. Sifton and Omar C. Spencer.

OLDS IS CHURCH DIRECTOR

Portland Man Selected by Unitarian Conference in Seattle.

SEATTLE, Wash., July 10.—The Pacific Coast conference of Unitarian churches concluded its business today by hearing reports of officers, electing directors and adopting resolutions.

ALTON PACKARD'S SKECHES DELIGHT

New York Cartoonist Illustrates His Own Lecture Before Chautauquans.

DR. FORD GIVES ADDRESS

Stage at Forum Is Decorated With Flowers in Honor of W. C. T. U.

Recital Pleases Large Crowd in Auditorium.

CHAUTAQUA GROUNDS, Gladstone Park, July 10.—(Special.)—Thousands of people braved the threatening weather this afternoon and came to Gladstone Park to hear one of the most interesting programmes of the season.

Mr. Packard this afternoon chose a lighter vein, his topic being "Fun and Fancy in Form and Color." The first of his lectures was illustrated in black and white, but colors were introduced toward the finish.

Mr. Packard is accomplished on this trip by his wife and son. He has been to the A-Y-P Exposition at Seattle, and will go to Ashland next week to lecture at the Southern Oregon Chautauque on Wednesday and Thursday.

Biology Lectures Interest.

Thomas J. Pennell sang Handel's "O Riddler Than the Cherry" this afternoon and responded to an encore with "My Beaming Eyes" (MacDowell).

In the biology stereopticon lectures this morning the first part was a continuation of the discussion of bacteria. Their habits and methods of growth were explained and the destructive power of sunlight discussed.

HOOD RIVER'S RENT Proposed Water Bond Issue Causes Strife.

THREE FACTIONS IN ROW

Numerous Issues Combine to Make Bitter Struggle and to Arouse Interest of Voters—Question Sole Topic of Conversation.

HOOD RIVER, Or., July 10.—(Special.)—Interest in the Robbins murder case is dwarfed into insignificance by what promises to be a bitter struggle for and against issuing \$25,000 in bonds to establish a municipal water system at Hood River in competition with the system of the Hood River Electric Light, Power & Water Company.

The bond issue has caused the fight to assume a three-cornered contest, which is being conducted on the outside of town and was estimated by an engineer, recently employed by the city to make an investigation, to be adequate to the needs of the city until it reaches a population of 5000.

Company Offers to Sell.

Opponents of the bond issue argue against purchase of a supply no larger than the one now in use.

The fight is embittered by the attempt of the city health authorities to have the present system condemned by the State Board of Health, and also through the action of the Council in turning down a petition presented to it, signed by a number of taxpayers, asking that the proposal of buying the city system be submitted to a vote July 28, when the bond issue is voted.

Another proposition submitted to the Council is from G. D. Woodworth, a wealthy resident, stating that if he is an election held to vote on the question of furnishing the city with water from a large spring on his property in the upper valley, flowing 5,000,000 gallons a day and estimated to be sufficient for 50,000 people.

Old Struggle is Renewed.

The latter feature has caused the fight to assume a three-cornered contest, which is being conducted on the outside of town and was estimated by an engineer, recently employed by the city to make an investigation, to be adequate to the needs of the city until it reaches a population of 5000.

LABORER IS ELECTROCUTED

Iron Rod With Which He Re-enforces Concrete Touches Wire.

VANCOUVER, B. C., July 10.—(Special.)—Charles Larson, aged 30, employed as a concrete mixer on a building being erected here, early this morning met death by allowing the twisted iron rod he was handling, which was used to reinforce the concrete, to come in contact with a live wire.
