DEPICTS SCENES AT FIRE IN OSAKA

New Arrival Tells of Death of 13, Injury of 300, in Flames.

TEMPLE SAVED BY MIRACLE

Priest Calls on Spirits to Stay Flames and They Are Diverted, but Burn On-Man and Wife. Seek to Atone by Death.

VICTORIA, Aug. 14 .- When the Em press of India, which reached port this afternoon, was leaving Kobe, sufferers from the great fire at Caska were strung out over the main roads around the bay and making their way by junk and sampan to Kobe for succor, and many heartrending scenes were re-

ported.
The fire destroyed 32 streets, cover ing five square miles, at Osaka, with a loss of \$3,000,000, caused 12 deaths, mostly police and soldiers, and injured

nany persons.

The fire started at Tamada's hosier;

Ward short The fire started at Tamada's hosiery factory in Nichomo, North Ward, short-ly before daylight on July 31, and apread rapidly, licking up the wattle and bamboo houses across Sixth street, while the firemen, without water from the Osaka water works, were using water drawn with buckets from wells matil the soldiers came from the Osaka garrison and began dynamiting houses in the path of the fire.

Mirade Sayes Temple.

The main building of the great Ten noil temple was saved and the supersti-tious Japanese declare that this was due to miraculous intervention. The flames reached the temple at 10:30 A. M. While reached the temple at 19.30 A. M. While the crowds of priests were scurrying to rescue the art treasures, remarkable scenes were witnessed in the temple grounds. Finally, when the rear gate was hurned, a priest called upon the spirits of the dead to stay the flames. Soon afterward the wind veered, increasing in force, and diverted the flames toward Horikawa, a wide canal connected with the Yodo River, on either side of which Osaka is built. The Shinto priests were all garbed in their ceremonial white robes and were assisted by 300 troops of the Osaka garrison sent to aid them convey the temple treasures to another temple at Nakanoshi Park, on an island in the middle of the river, where General issu and his troops from the garrison in Osaka castle, safe from the flames, had their quarters.

Many Great Buildings Burn.

It was hoped that the flames would b at was hoped that the flames would be stayed at the canal, where a great fight was made, but at 12:30 the fire leaped the canal and spread towards the Umedal station, the great station on the Tokkaldo Ume. Thence it pursued its course southeasterly to the Commercial Museum and still further westward. course southeasterly to the Commercial Museum and still further westward, bursing the museum, the Osaka Court of Appeal, the North Ward district office, a newspaser office, the Rice Exchange, a commercial school, a girls high school, the meteorological station, the Governor's official residence, the Kaisel Hospital and the Northern Yoshiwara, beside a very large number of private buildings.

Field hospitals were established by the militia and many injured were taken in for treatment.

taken in for treatment.

Ready to Atone by Death. The proprietor of the hostery factory

where the fire started and his wife were sort of young Womelsdorf. I stopped by police from attempting to throw themselves in the flames, shouthing that they did so to atone for the ling that they did so to atone for the sen.

In the afternoon four battalions of and the atternoon four hattailons of engineers came from Takasuki, a suburb, with dynamite and began blowing down the houses in the Northern Yoshiwara on a large scale to try to stop the fire, but they were driven back. Their efforts had the result of splitting the path of the flames. The streetcars on Dojim were stopped, passengers ordered path of the names. The streetcars on boilin were stopped, passengers ordered to alight, and were rushed through the hurning area to the car sheds. Falling utterly with the scant water snipply, the troops toward evening devoted all their energies to aid citizens.

voted all their energies to aid citizens to save goods and assist children and the old and feeble to places of safety.

Must of the large factories, which are in the suburbs, escaped. The Nippon Fukushima cotton mills were endangered, but were saved. The fire destroyed in all 150,390 buildings.

Homes of Rich Escape.

baka is divided into four wards, with very marrow but regular streets. Kitah-Ku, the North Ward, which covers four and one-half miles, being almost wiped out. The East Ward, which escaped, is the richest, containing the residences of the upper and middle classes. The offices of the banks and leading commercial companies were located there and most of these-were saved.

against sustaining the demurrer were absent. The apparent result would have been a vote of 15 to 15.

The apparent desire for delay on the part of Attorney israel and the Insurance Commissioner is suspected by the beard of managers to mean that the accused officer will question the jurisdiction of the Schate to proceed with the trial after the close of next week.

Session Must End Saturday.

Monday, under the ruling of the At-torney-General, will be the 55th day of the session, and under the constitu-tional limitation the Legislature must end Saturday. There is little prospect of the trial being completed next week. of the trial being completed next week. The board of managers estimates the time required for further proceedings at 12 days, but lawyers in the Senate declare that, even though the legislative hody must adjourn next Saturday, the Senate may continue to sit as an impeachment court so long as may be incessary. The question is open to argument, however, and it is believed that the defense intends to make a strong point of the length of the session, and even if the objection is nof sustained, sack to get the case into the courts, if impeachment is voted, on the ground that final action was taken by a body without jurisdiction. The impeachment board is now en-

mended articles will be submitted to e house Monday. After considerable discussion today After considerable discussion today the Senate instructed the secretary to employ a sufficient number of stenographers to take down in detail all the arguments as well as the motions, rulings and evidence. Up to the present time no transcript has been made of the arguments. Members who opposed the motion declared that the additional expense would be not less than \$100 a day, not including the cost of printings.

PAY OF SOLONS IS HELD UP

Auditor Refuses to Issue Warrants Until Payroll Is Signed.

OLYMPIA, Wash., Aug. 14.—(Special.)—It was stated by C. W. Clausen. State Auditor today, that he will not allow the members of the Legislature their pay until sach one makes affidavit to the payroli.

He also said that he would not issue the warrants for the mileage that the members voted themselves for extending the second half of the special session, and declares that if either House adjourns for more than three days the members of that branch will receive no pay while enjoying a vacation. members of that oranic will feet appay while enjoying a vacation.

His atand has surprised the law-makers, and the matter will be taken up with Attorney-General Bell. The payrolls are made out and are now in the Auditor's office, but he refuses to

BOLD THIEVES CAUGHT

MYSTERY OF EDWIN CAMPBELL HOLD-UP CLEARED.

John W. Womelsdorf, Former Employe of Gas Company, Believed by Police to Be Chief Culprit.

Through the work of Detectives Coleman, Price and Carpenter, the holdup of Edwin Campbell capitalist and president of the Campbell Lean & Trust Company, who lives at 196 Willamette boulevard and who was robbed of money and jewelry about a week ago valued at nearly \$1600, was cleared up last night. The identity of the robbers was established, the \$150 watch and the \$850 diamond which Mr. Campbell had recently bought from a Morrison-street jeweler were recovered.

A sensational feature of the case is that one of the highwaymen is the nephew of the first wife of the victim. He gave the police the name of John Wesley Womelsdorf, 25 years old. He has lived in Portland for years asd was employed by the Portland Gas Company for six years. The detectives took him into custody in the Williamette rooming-house, \$25½, Stark street, where later they discovered the expensive gem lost by the capitalist and the stolen watch hidden in a suit of Womelsdorf's partner in the crime has been in juil for a week past, arrested on suspicion by the same officers. This man is recorded on the police docket as Tom O'Rourke. According to the version of the affair given by the officers, O'Rourke held the gun on the night of the hiddup and Womelsdorf did the searching. O'Rourke was formerly employed as awamper at the Kenyon Hotel, at Nineteenth and Washington streets. Both he and Womelsdorf have been thrown into contact with the low women of the North End and, according to the information in the hands of the police, had fallen into contact with the low women of the North End and, according to the information in the hands of the police, had fallen into living off the earnings of these women. The robbery was planned, it is believed, a week before it occurred. Womelsdorf saw Mr. Campbell buy the diamond and he and O'Rourke followed him about for several nights, waiting for a good, opportunity to rob him. The diamond when found had been taken out of its setting, so its identity would be difficult.

Incidental to clearing up the case, the incidental to clearing up the case, the officers took into custody Earl Hansen, known as the "Gold Tooth Kid." and the temates of a house of ill fame at First and Clay streets. The women gave the names of Marie Josephine Hall and Ethel Buell. One of these women is the consort of young Womelsdorf. These prisoners were charged with yagrancy. It

Edwin Campbell was held up within Edwin Campbell was held up within a block of his house about ten days ago just after alighting from a St. John car, about midnight. The robbers were hiding behind a clump of brush and one jumped at him with the command to put up his hands. It was so dark no one could have seen the stone in his tie, and when the searcher was through, the other man told him not to overlook the diamond which Mr. Campbell habitually wore.

The solution of the case is regarded as a clever piece of work among police

as a clever piece of work among police

MONSTER SHIPS LIKELY

30,000-TON BATTLE CRAFT TO BE NEXT ORDERED.

Uncle Sam to Lead World With Vessels Carrying 14-Inch Rifles of Great Power.

WASHINGTON, Aug. 14.—(Special.)— Congress may be asked next Winter to provide for two 30,000-ton battleships each with 12 14-inch guns, and each costing \$12,000,000. It is stated that such a programme has been pretty carefully

indied out. considerable preliminary work After considerable preliminary work, the first 14-inch gun has been constructed at the Midvale works, and is shortly to be tested at the Naval proving grounds at Indian Head. If it is deemed dealrable to have guns of 14-inch caliber, it will immediately become a question whether there shall be 10 or 12 of such guns on each battleship. The proposition of two years ago, during the Newport conference, was to have 10 14-inch guns instead of 12 12-inch guns, the former caliber to have a relatively diminished velocity.

telecity.

It was finally decided, however, that when the 14-inch gun was developed it should be of a hitting power commensurate with the increase of caliber compared ate with the increase of caliber compared with the 12-inch gun. There is an incilnation also to adhere to 12-inch guns in the battleship battery, and it is possible that with the adoption of the 14-inch gun there will be 12 instead of 10 of those rifles, in which event the next battleships to be authorized will be of at least 10,000 tons displacement, and estimated to cost approximately \$12,000,000 mech.

each.
It is likely such a battleship will have
the same speed and endurance as the
25,900-ton battleships now building. Much
may depend in the determination of this
question upon the plans adopted by
European navies.

Lyon Wants All Texas Jobs.

Colonel Cacil Lyon. Republican National Committeeman from Texas, hurried back to Boston last night when the Beverly curfew bell hegan to tell, but accompanied Mr. Hitchcock to the Tatt cuttage today. Colonel Lyon said he wanted to talk over the President's trip through Texas next October, but that, if the President should bring up the question of census supervisors, he would be glad to converse on the subject with the chief magistrate.

As a matter of fact, Colonel Lyon is urging that all the 16 census supervisors.

Server WATER TRAFFIC.

BURTON SUGGESTS CONGRESS FIX MINIMUM RATES

Says Rivers Not Used Because Railroads Starve Out Steamer Lines.

WASHINGTON, Aug. 14.-(Special.)-"The immediate need in the developmen of the Nation's waterways," said Senato Burton, of Ohio, chairman of the job waterways commission, on the eye of setting out for Europe to study trans-portation on that side of the Atlantic, "is portation on that side of the Atlanta, so legislation that will enforce a policy of live and let live as between the railroads and the waterways. The fact that this Nation carries no greater part of its freight by water is not primarily due to a lack of development of the streams. It is due to a domination on the part of the

Mr. Burton went on to explain that no individual or corporation can safely spend the money necessary to enter the transportation business on any of our streams, because, although present rates would make it profitable to spend millions in the building of steamboats, the builders would have no assurance the railroads would not cut the rates to such a figure that they would assuredly be starved out. The railroads have killed the water transportation in its infancy systematically. ABERDEEN. Wash. Aug. 14—(Special.)—Settlement was made today by the hoard of examiners with Mrs. F. J. Miner for a lot 50x120 feet, which the board needed to complete an entire block for a site for the new high school. The lot sold today was formerly owned by O. C. Crowther, and there were three the suffers a lot of the suffers of the new high school. The lot taking any action is that the Name of water traffic and that it could be prevented if Congress should place rates between given points below which the railroads were not allowed to cut their rates, Germany has done this and developed the two systems side by side. The traffic on the railways has not suffered and the country has greatly benefited.

"Is there any likelihood of taking any action is a suppression of water traffic and that it could be prevented if Congress should place rates between given points below which the railroads were not allowed to cut their rates, or a suppression of water traffic and that it could be prevented if Congress should place rates between given points below which the railroads were not allowed to cut their rates, or a suppression of water traffic and that it could be prevented if Congress should place rates between given points below which the railroads were not allowed to cut their rates, Germany has done this and developed the two systems side by side. Oregon's Most Beautiful Beach Resort

AN OPEN LETTER TO PROSPECTIVE PURCHASERS OF BEACH PROPERTY:

Portland, Or., Aug. 15, 1909.

To the Public: I have just returned from a trip to Garibaldi Beach, and, after a careful inspection of the beach between Tillamook and Nehalem Bays, can unhesitatingly indorse Tillamook Beach as my choice of anything in that locality. The owners were indeed fortunate to secure this tract at a price which makes it possible to

sell lots at prices now offered. My opinion of this tract is evidenced by the fact that I purchased several lots for my Summer home while on the ground—the railroad work is being rapidly pushed to completion, and it is apparent that the road will be completed within the contract period, June 1, 1910. Parties contemplating purchase either for a Summer home or speculation can do no better, in my opinion, than to invest in "Tillamook Beach," (Signed) C. E. FIELDS.

What Others Say

The following indorsements from parties entirely disinterested financially, supports the contention that Tillamook Beach is the first choice on this beach.

PORTLAND, Or., August 2, 1909.

C. E. Fields & Co.,
413 Beard of Trade Bidg., City.
Dear Sir—I have just returned from the Tiliamook Bay country, and while there I looked over the various resorts on the famous old Garlbaldi beach up as far as Nehalem Bay, and I want to congratulate you and your associates on having the most desirable site and best property in that extended of either Senside or Long Beach; in fact, it is an ideal spot for a Summer's outing. fact, it is mer's outing. Yours very truly. T. E. ASHLEY.

PORTLAND, Or., Aug. 5, 1909.

C. E. Fields & Co., City.

Gentlemen—I have traversed and examined thoroughly the property which you are now seiling under the name of Tillamook Beach, and I also have looked over all the other beach properties be tween me pleasure to testify that for natural beauty of location and surroundings, ready accessibility and general desirability as a Summer fesort site your property, in my opinion, ranks with the best.

And the beach which fronts your property—that broad, shimmering stretch of clean, white sand—is not excelled by any I have seen on the Oregon or the California coast.

Yours truly,

PAUL R. KELTY.

PORTLAND. Or., Aug. 14, 1909.
C. E. Fleids & Co., Portland, Or.
Gentlemen — While in Tilliamook on business last week I took time to examine the different beach properties in that locality and picked five lots in your "Tilliamook Beach" as my ideal of a place to build a Summer home.

Enclosed find check for the amount of my first payment on the above lots.

I will consider it a pleasure to answer any inquiries that you may refer to me regarding Tillamook Beach, as I consider it the best.

Yours respectfully.
C. F. WILLIS.

A few lots while they last as low as Easy Terms
