A Home Remedy for Dandruff and Falling Hair. (From Boston Globe.) The home claimed to be one of the best preparations for the hair can be easily prepared in your own home by getting from your druggist one ounce of beta quinol (liquid) and half a pint of alcohol; mix the alcohol with half a pint of water, then add the beta quinol, or you can use one pint of bay rum in place of the alcohol and water. Shake well together and use as directed. The beta quinol contains all the best known chemicals, in highly concentrated form, for the cure of dandruff and falling hair. If this is rubbed into the roots of the hair every day for a week or so, then two or three times a week, your dandruff will surely disappear and your hair will stop falling out. This simple mixture will strengthen the roots of the hair and will make the hair light and glossy. The beta quinol will supply you with the beta quinol and the alcohol, and in mixing it is preferable to use warm water.
