HOW MAE EDNA WILDER GOT RID OF A DOUBLE CHIN

Without Dieting, Internal Remedies, Face Straps or Physical Culture. An Interesting Story for Fleshy People.

"I removed my double chin and reduced thirty pounds in less than six weeks," says Mae Edna Wilder, who stands 5 feet high, weighs 120 pounds, and is a picture of perfect health. "I did this by a process which is my own discovery, a process of external application. I simply apply the treatment to any part of the body where superfluous flesh exists, and it vanishes as if by magic. Five minutes every other day for two weeks is all the time needed, and one's most intimate friends need not know anything about it. I am so grateful for my own relief that I will give free advice to any one who suffers as I did. I consider a double chin one of the most unsightly physical defects, and superfluous flesh is just extra weight that one must carry with them every where and all the time. I feel ten years younger and a hundred fold more active since I lost mine." Any interested person who will write to Mae Edna Wilder, Dept. 1021 A, Rochester, N. Y., will be told how to find relief within two weeks.

SOMETHING NEW UNDER THE SUN

When the expression "nothing new under the sun" was written first, it was before The Oaks came into existence. In this day and generation visitors to Portland's beautiful pleasure park realize that almost everything out there is new under the sun, and under the great oaks as well.

It is scarcely necessary to describe to residents of Portland and vicinity what is to be expected in a visit to The Oaks, for practically all of them have been there and know; and knowing, believe; for they are far from being content with one visit.

New attractions are the rule rather than the exception; but for Sunday the management has provided several absolutely novel features that are sure to please not only regular visitors, but also all who go there for the first time. It is said that no one ever left The Oaks disappointed.

One of the features bound to attract a vast audience is a marriage ceremony conducted on the plaza, the contracting couple standing in the lions' den, accompanied by Mme. Schell, the great animal trainer.

Another is Desperado, in an act that is heralded all over the world as the greatest of the age.

The Tyrolean Quartet begins a short engagement, appearing in their native costumes and singing the songs of far-away Tyrol. They also exhibit the dances of their Alpine country.

Signor Aurelio Dumond will render operatic tenor solos, and Donatelli's celebrated Italian band will appear in afternoon and evening concerts of the high-class music.

The Trail is one long stretch of fun and frolic.
