FIXED FOR LUMBER

British Steamship Harcroft to Load in Portland.

FRENCH BARK ALSO TAKEN

Balfour, Guthrie & Co. Secure La Perouse on Round Trip Charter. Will Load Inward Cargo at Antwerp—Waterfront News.

The British steamship Harcroft was chartered yesterday for the part loading of lumber at Portland for Fremantle, Australia. The vessel was fixed by the American Trading Company and will load at San Francisco, Eureka and Portland. The rate announced is 43s 9d, and Geraldton is given as an optional port of discharge.

Balfour, Guthrie & Co. have placed the French bark La Perouse on charter for the round trip between Europe and the Columbia River. The vessel will take general cargo at Antwerp and will return with wheat for the United Kingdom.

The fixing of La Perouse is the first grain charter announced for a week. Lumber fixtures have also been slow and the outlook for foreign shipments of timber for the month of September is not as good as during the last six months. Loading in the river at present for foreign ports is the single steamship M. S. Dollar. The craft is on berth at Linnton and will finish about the middle of the week.

St. Croix on Coastwise Route.

Announcement has been made to the effect that the steamship St. Croix, now undergoing repairs at the Moran yards in Seattle, will be placed on a coastwise run in the near future. The St. Croix is being fitted with oil burners. She was formerly on the run between Seattle and Alaskan ports, and is owned by Schubach & Hamilton. Mr. Hamilton is now in San Francisco arranging details of the new route.

Montcalm and Virginia Due Today.

The French bark Montcalm, from Honolulu, and the American schooner Virginia, from San Francisco, left up from Astoria yesterday morning and will arrive in the local harbor about noon today. The Montcalm is under charter to load outward cargo of grain for A. Berg, and the Virginia will take lumber at the Inman-Poulsen Mills.

Marine Notes.

The French ship Hoche will begin discharging coal at the bunkers tomorrow morning.

Captain Clyde Raabe has succeeded Edwin Williams as master of the steamer Oregona.

The steamship Breakwater is due to arrive this afternoon with passengers and freight from Coos Bay.

The steamship Yawata Maru will sail for Puget Sound tomorrow morning. She will load ties for North China.

The steamship Nome City sailed from Rainier yesterday afternoon with 400 tons of wheat and a deck load of lumber.

For Grays Harbor in ballast the steamship Tahoe sailed yesterday afternoon. She will load lumber for San Francisco.

With 400 passengers and a full cargo of freight the steamship Rose City, Captain Mason, sailed for San Francisco yesterday morning.

The steamship Alliance sailed for Coos Bay last evening with a full passenger list and a large quantity of freight. She took a large number of Chinese cannery workers in the steerage.

Captain Richard Dixon, master of the Union tank line steamship Argyll, is enjoying a four weeks' vacation at his home in Oakland. Captain James Rennie is filling the berth of Captain Dixon for the present.

Arrivals and Departures.

PORTLAND, Aug. 28.—Sailed—Steamship Rose City, for San Francisco; steamship Tahoe, for Grays Harbor; steamship Alliance, for Coos Bay; steamship Nome City, from Rainier, for San Francisco.

Astoria, Aug. 28.—Conditions at the mouth of the river at 5 P. M., smooth; wind north, 10 miles; weather clear. Left up at 5 A. M.—French bark Montcalm and schooner Virginia. Sailed at 7:25 A. M.—Steamer Argo, for Tillamook. Sailed at 8 A. M.—Steamer Northland, for San Francisco. Arrived down at 4 and sailed at 7 P. M.—Steamer Rose City, for San Francisco.

San Francisco, Aug. 28.—Arrived at 1 A. M.—Steamer Roanoke, from Portland. Sailed at 12 noon—Steamer Kansas City, for Portland. Sailed at noon yesterday—Steamer Catania, for Portland.

Eureka, Aug. 28.—Arrived—Steamer Eureka, from Portland.

Monterey, Aug. 28.—Sailed at 5 P. M.—Steamer W. S. Porter, for Portland.

San Pedro, Aug. 28.—Arrived yesterday—Steamer Wellesley, from Portland.

Tides at Astoria Sunday.

CROSSED PLAINS IN 1850

Life History of Mrs. Saloma Jones Davidson, Who Died Recently.

Mrs Saloma Jones Davidson, a Portland pioneer woman of 1850, died at the residence of her daughter, Mrs. Olivia Boat, at Williams, Josephine County, Or., last Sunday, August 22.

Mrs. Davidson was born in Monroe County, Kentucky, near the town of Berksville, August 13, 1822. In 1838 her parents removed to Schuyler County, Illinois, and on October 22, 1840, she was married to Elijah B. Davidson, also a native of Kentucy, but who, at the date of marriage, was living near Monmouth, Warren County, Ill. By the year 1849 favorable reports regarding the "Oregon Country" having reached that section of that state, the Davidson, Squire Whitman and a number of other families prepared themselves for "crossing the plains." The start westward was made March 28, 1850, and August 31 the party arrived at "Foster's," a point near Eagle Creek, Clackamas County, of today.

Mr. Davidson went direct to Milwaukie, arriving on September 2, where the family spent the Winter. Being a carpenter by trade, he sought employment, but had no tools. He soon found a chance to get work at $9 a day on a mill, providing he had the necessary implements. In a short time he learned where a kit could be obtained for $200, containing everything needed by the "carpenter and joiner" of that day. After the mill work was finished, he was engaged by Lot Whitcomb to work on his steamboat, of that name, which was launched at Milwaukie on Christmas day, 1850. He and some members of his family, among others his son, I. G. Davidson, of this city, were present on that occasion, and saw Captain Frederick Morse, of the schooner Merchantman, instantly killed by the explosion of a cannon used in firing a salute in honor of the launching.

On February 1, 1851, Mr. Davidson took up a donation land claim, the south line of which was the base line (now East Stark street), and the west line about East Forty-fourth street of the present time. Upon this he built a log cabin and lived four years, that being necessary before he could acquire a title. Late in 1854 Mr. Davidson sold the southeast 240 acres of his claim for $1500, and in the latter part of the year following he sold the remainder for $4000—$10 an acre. He then removed to Polk County, and bought a half section of land about half a mile north of the present town of Independence, paying $10 an acre therefor. In 1866 he sold out and removed to Williams, Josephine County, acquired a homestead, and made his home there until January 16, 1888, the date of his death.

Mr. and Mrs. Davidson had 13 children, five of whom were born in Illinois. One of these died in infancy, and the remaining four came to Oregon with their parents. Eight children survive their mother, as follows: I. G. Davidson, of Portland; J. S. Davidson and E. J. Davidson, of Williams; M. M. Davidson, of Berkeley, Cal.; Mrs. Sarah J. Goodwin, of Oakley, Cal.; C. T. Davidson, of Ashland; Mrs. Olivia W. Boat, of Williams; J. E. Davidson, of Gold Hill.

In the different localities where they became homebuilders, the Davidsons were among the first to assist in starting schools and churches; and the record they made by exemplary lives and good citizenship in every sense is the splendid heritage they have left to their numerous descendants and friends.

Alliance, Am. steamship (Parsons), with general cargo, for Coos Bay.

POINTERS SOUGHT HERE

WASHINGTON WANTS TO KNOW ABOUT ROSE FESTIVAL.

National Capital Asks for Suggestions, Literature, Pictures and Other Data.

Washington, the National Capital, through the Potomac Electric Power Company, has asked the Portland Rose Festival for pointers, literature and pictures of the shows and parades that have been held here. The object is to arrange for a permanent annual celebration modeled after the yearly festival of flowers held here each June.

President B. S. Josselyn, of the Portland Railway, Light & Power Company, has received the following telegram from the Washington corporation, the body of the message being this:

"Please send pictures of vehicles entered in last floral parades, with bill."

This request was turned over by Mr. Josselyn to President Ralph W. Hoyt, of the Rose Festival, and a complete set of photographs and literature has been dispatched to Washington.

The movement to inaugurate such a festival in the National Capital grew primarily out of the bit of enterprise shown by Mr. Hoyt in sending to President Taft a bouquet of Portland roses as a friendly greeting last June on the opening day of the festivities here. In addition to this, the transcontinental railroads have used with effectiveness their exploitation matter in placing the Portland Festival before the Washington public.

President Hoyt has written asking if there is any other information or suggestion that the local Festival can give, and has asked for an outline of what the Eastern city proposes to do in the way of holding such a celebration. He regards this request as one of the strongest bits of evidence that Portland is being advertised the Nation over by the Rose Festival.

CLUB IS HELD OVER CITY

Opposition to County Division May Make Lewiston Dry.

LEWISTON, Idaho, Aug. 28.—(Special.)—The recent local option results in Idaho County have occasioned considerable speculation throughout Nez Perce County as to whether a similar election would be called here. Less than a year ago Lewiston held a local option election under its charter and the vote was favorable to the licensed saloon by about two to one.

With the exception of Pierce City, where two saloons are conducted, and the stage stations of Waha and and Forest, where roadhouses are licensed, the entire saloon business of Nez Perce County is conducted in Lewiston, the remainder of the county being within the boundaries of the Nez Perce Indian Reservation, where the sale of liquor is prevented by Government treaty with the Indians.

For several years the citizens of the Clearwater and prairie sections have wanted county division, but Lewiston influence has generally been attributed as responsible for the defeat of the division plans. It is stated now the people in the outside country have the trump card as long as they refrain from calling the local option election.

Canadian Wood Pulp Hit.

WASHINGTON, Aug. 28.—Rulings on the administration of retaliatory provisions of the Payne tariff law, directed at the wood pulp and print paper industry of Canada, were issued by the Treasury Department Friday.

It is directed that if any province forbids the exportation of wood pulp, an additional duty of one-tenth of a cent per pound should be levied on print paper valued at 3 cents per pound or less, which comes from that province, and a duty of one-twelfth of a cent per pound should be assessed on mechanically ground wood pulp coming from such a province, and which will be otherwise admitted free of duty under the general provisions of the law.

There is still pending in the English law courts a case which was initiated in 1707.

I CURE MEN

NOT A DOLLAR NEED BE PAID UNTIL CURED

The past century has witnessed wonderful progress in the science of medicine and surgery. Discoveries for the amelioration of pain and the cure of afflicted men, undreamed of years ago, are now in use by the specialist who has kept himself abreast with the rapid advancement of the medical profession. This applies only to the specialist who was well prepared by advantages of study and experience in a chosen field of medicine. It is unfortunate that all specialists who go by the name are not competent to do the work entrusted to them, hence the many failures that are made.

Years ago doctors were supposed to charge as much for failures as for good results, but it is different with the up-to-date specialist of today, and my fee is a mere pittance compared with the results every patient receives in exchange.

A man said the other day, "I would have come to you sooner but there are so many quacks and unreliables I have been afraid to try." Of course there are quacks and fakirs in every line of business from Portland, Me., to Portland, Or., and always will be, but because there are counterfeit coins in existence are you never to accept money on any account for fear of fraud?

You don't have to accept the statements of every doctor you go to see. It's strange that men will take so much for granted. If banks did business that way there would be failures every day. **For 31 years The St. Louis Medical Co., has been located at present address, over 27 years longer than any competitor in Portland. I have the most complete offices and my practice is double that of any other specialist in Portland. My references are the best banks and a generation of cured men.**

Nature has taken as much pains in forming the body of the ordinary citizen as an emperor, and you should be as careful with yours as an emperor is with his. Science of the present age has made it possible for you to get as good treatment at **nominal** cost as an emperor, **regardless** of cost, and there are times when your system is as hungry for the right kind of medicines as for food.

By the latest and best methods I cure, to remain cured, **Nervousness, Blood Poison, Skin Diseases, Sores and Ulcers, Varicose or Knotted Veins, Kidney and Bladder Diseases, Rheumatism, Catarrh and Indigestion.** I cover the entire field of **Nervous, Blood and Skin Diseases,** and cure to stay cured forever.

If you take any Treatment, why not get the best to be had anywhere? The best will cost you no more.

My consultation and advice is always free, whether you take treatment or not. If you cannot call at office, write for self-examination blank. Many cases cured at home. Office hours, 9 A. M. to 8 P. M.; Sundays, 10 to 12. All correspondence in plain envelopes. Address

St. Louis Medical Co. 230½ Yamhill Street Portland, Or.

CHINESE DOCTORS SLOW

MEDICAL SCIENCE IN EMPIRE IS AT STANDSTILL.

Some Superstitious Remedies Used Now as Centuries Ago, Though Hospitals Do Their Best.

SHANGHAI, Aug. 28.—(Special.)—Much is heard in these days of the awakening of China and undoubtedly progress is being made in various directions. But medical science, as it is known to the native practitioner, remains pretty much in the condition described in the memoirs of Le Conte, published in the 17th century.

In urging the need for thoroughgoing reform, the North China Herald points out that for centuries medical knowledge has been at a standstill and that the population has been at the mercy of ignorant charlatans who pass themselves off as doctors.

"In spite of over half a century of close contact with Europeans," says the Herald, "the Chinese doctor of today remains ignorant of the rudiments of anatomy and physiology and has the most ludicrous notions of the functions of the internal organs and the causes of disease. He pretends to determine the treatment and prognosis of every ailment by feeling the pulse alone, and ascribes several pulses to each arm and infinite variations to each pulse. Each pulse is supposed to show the condition of some particular organ of the body and all the pulses may vary at the same time."

Diseases are attributed to occult influences of the most absurd kind and reliance is usually placed upon the quantity rather than the quality of the medicine swallowed. Thus doses may vary from 30 to 40 pills and a pint to even a quart of liquid. The disgusting nature of many of the medicines employed is a matter of general knowledge. Surgery, as the word is understood in Western lands, is unknown, and boils and similar afflictions, instead of being opened and drained, are closed by the unsightly pitch plasters which are such a common sight in the streets of native cities.

Mission hospitals are making noble efforts to supply the deficiency and in nearly every one the foreign doctors are grievously overworked. The amount of good done by these institutions can hardly be exaggerated, although the Chinese are slow to appreciate the value of their services. There is an inveterate prejudice against foreign doctors. So great is the antipathy to the surgeon's craft that post-mortem examinations are not allowed. An inquest upon the suspected victim of a crime is usually the merest farce, the tests used by the native practitioners seldom revealing the real cause of death.

The Herald urges that hospitals be established in every city in the empire, and suggests that the refuges for the cure of opium victims which have been opened all over China might be utilized for the care of the sick and the training of students. At present China is at the mercy of every wave of infectious disease. Each epidemic of cholera, plague, smallpox and other disease smites down thousands who might escape by observing the simplest sanitary precautions or by receiving proper medical attention. In spite of this fact, no effort is being made by China herself to face the problem.

Cripple Creek Has Pitch-Blende.

CRIPPLE CREEK, Colo., Aug. 28.—Immediately following the announcement by Thomas F. Walsh, the millionaire mining man, that he had deposited a substantial sum with the School of Mines at Golden, Colo., to defray the expenses of testing samples of ore believed to be pitch-blende, comes the declaration by Carl Hextus, a well-known prospector of the Cripple Creek district, that pitch-blende ore can be found in paying quantities near this city, as samples found sometime ago have been pronounced genuine by experts.

JOHNSON CANNOT DRIVE

Color Line Drawn at Tanforan Even for So-called Champion.

SAN FRANCISCO, Aug. 28.—John Arthur Johnson, world's champion heavyweight pugilist and automobile speed maniac, will not drive a car in the forthcoming 300-mile automobile race at Tanforan track, San Francisco.

A report which originated in Los Angeles while the black champion was in the South last week, and which has gained circulation in San Francisco within the past few days, to the effect that Johnson had entered his car in the contest for the $2500 Hotel St. Francis trophy, and would drive it himself, is denied by Charles S. Bougher, president of the California Motor Racing Association, under whose auspices the race will be run. Mr. Bougher, in discussing the rumor yesterday, said:

"We have had many inquiries during the past few days regarding a report that has been persistently circulated to the effect that Jack Johnson, the colored pugilist, had entered his automobile in the 300-mile race that this association is to conduct at Tanforan on September 5, and that he would drive the car himself. There is absolutely no truth in the report that Johnson has entered a car in the race, nor has he made application to do so, although I have been reliably informed that he was contemplating such action. Should he do so, it will be rejected."

Boiler Explodes; Two Dead.

CARTHAGE, Mo., Aug. 28.—Two men were killed and a third suffered injuries, from which he will die, early today, when a boiler in the plant of the Low Seven Mining Company at Neck City, 18 miles northwest of here, exploded wrecking the plant and shattering windows in this city.

The dead are:

George Strain, Webb City, fireman.

George Witkansky, Webb City, fireman.

Ed Higgins, stoker, was badly mangled, and his injuries will prove fatal.

The explosion followed a misreading of the water gauge.

GOLD MINE IN ORCHARDS

Rich Placer Deposits Uncovered at Clarkston.

LEWISTON, Idaho, Aug. 28.—(Special.)—Placer sand has been discovered in the heart of the Clarkston orchard district by J. E. Haase, who was engaged in making an excavation near his house. A Lewiston assayer found this sand carries gold values to the amount of $6.87 a ton.

The discovery of Mr. Haase recalls to old pioneers the time when the entire Clarkston flat was located by Alonza Gilman as a placer mine and a project was promoted to carry water from Asotin Creek and wash the earth deposit into the Snake River. A large number of test pipes were sunk over the flat and at almost every excavation rich placer dirt was discovered.

The land is now valued up to $2,000 an acre and is covered with fruit. The water from Asotin Creek first calculated for hydraulic mining has converted the desert into one of the most productive sections of the Northwest and while the Haase discovery aroused much interest no development work will follow.

There are 10 European museums of safety and sanitation, located in Berlin, Munich, Paris, Vienna, Amsterdam, Milan, Stockholm, Zurich, Moscow and Budapest.

C. Gee Wo

THE CHINESE DOCTOR

This great Chinese doctor is well known throughout the Northwest because of his wonderful and marvelous cures, and is today heralded by all his patients as the greatest of his kind. He treats any and all diseases with powerful Chinese roots, herbs and barks that are entirely unknown to the medical science of this country. With these harmless remedies he guarantees to cure catarrh, asthma, lung troubles, rheumatism, nervousness, stomach, liver and kidney troubles, also private diseases of men and women.

CONSULTATION FREE.

Patients outside of city write for blanks and circulars. Inclose 4c stamp.

I AM MASTER OF MEN'S AILMENTS

Consult Me Today

DR. TAYLOR, The Leading Specialist.

The study of medicine is as broad as life and as complex as Nature. It is therefore impossible for any individual to master the treatment of all human ills. The man who attempts to do so is able to cure only the most simple ailments. The ordinary physician is like the man who attempts to master every branch of mechanics, from watchmaking to shipbuilding. Such a man becomes neither a good watchmaker nor a successful shipbuilder. The general medical practitioner knows as much about one disease as he does about another—and he has no intimate knowledge of any. The cures he performs—when he is fortunate enough to cure—are usually purely accidental. The patient gets well, not **because** of the physician's efforts, but **in spite of them.** When the ordinary physician treats men's diseases, **HE RARELY EFFECTS A CURE.**

I AM A SPECIALIST IN MEN'S AILMENTS.

My practice is confined wholly to the ailments of men, and the fact that I invariably cure every case that I accept for treatment PROVES that my methods are correct. Indeed, I have for twenty-five years made a specialty of men's ailments and have so closely studied them that I am able to meet every phase and condition of each individual case, and to effect a permanent cure in a very short time. I am never for a moment in doubt as to my course, I know just WHAT to do and HOW to do it, to obtain satisfactory RESULTS. This explains why my practice has grown to be by far the largest in the western part of America.

So confident am I that I can effect a thorough and LASTING CURE in each case that I accept for treatment, that I will give a Written and Binding **GUARANTEE TO CURE YOU, AND YOU NEED NOT PAY ME A DOLLAR UNTIL YOU ARE WELL.**

Bear in mind that I could not afford to do this if I did not **KNOW** that my treatment would not fail. I am the only doctor who dares to make such a proposition. Under no circumstances do I ever take cases for treatment that are doubtful. Hence, if I accept your case for treatment you may absolutely rely upon it that I will cure you.

MY METHODS ARE ORIGINAL.

My methods are entirely original with me, and are the result of many years of special study and experience. Instead of filling my patients up with powerful drugs and stimulants, as do other specialists, I apply soothing, healing and absorbent medicines DIRECTLY to the DISEASED REGION, and thus aid Nature in overcoming the trouble. The best that human skill can do is to ASSIST NATURE. It is Nature that performs the cures. Powerful drugs taken through the stomach **do not cure.** They merely set up a new disturbance in the system, which, for a time, diverts the energies from the old disease to the new attack. This process is invariably attended with a reaction, and in consequence leaves the patient in a worse condition than before treatment. Another method employed by another class of physicians is to dose the sufferer with tonics, which exhilarate the patient so that he actually believes himself improving under such treatment. But after a very short time these stimulant medicines cease producing the desired effect, when the disease gains a new and firmer grip upon the patient.

HOW I CURE.

My method of treatment overcomes inflammation and congestion by aiding the tissues of the diseased region to throw off the poisonous secretions and the deadly toxins caused by disease. Some of these toxins are more poisonous than the virus of the rattlesnake's fang. Thousands of the cases of sudden death which occur with alarming frequency in every city in the land, are directly due to toxic poison, although such cases are usually pronounced "heart failure" or heart disease. My treatment completely eliminates every trace of disease and accumulated poisons from the system, and thus allows Nature to perfect a COMPLETE CURE.

DO NOT BE DECEIVED.

My methods have revolutionized the treatment of ailments peculiar to men, and consequently altered former medical theories. Imitators of my system of practice have sprung up everywhere. A pronounced success in any field of human endeavor begets imitators. Following the **Genuine,** there always come the **Counterfeit.** These imitators of mine insist that they cure by means similar to those I employ. Such statements are uttered with a base intent to deceive. The facts are that NO OTHER PHYSICIAN ANYWHERE TREATS MEN'S AILMENTS BY MY METHODS. My treatment is the ORIGINAL and ONLY GENUINE Direct-Method Treatment for the Diseases of Men.

MY MODERN and up-to-date methods effect a certain and speedy cure of **CONTRACTED AILMENTS, SPECIFIC BLOOD POISON, NERVOUS DEBILITY, PROSTATIC TROUBLES, and all reflex ailments.**

Examination and Advice Free

I offer not only FREE CONSULTATION and ADVICE, but of every case that comes to me I will make a Careful Examination and Diagnosis without charge.

If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 A. M. to 9 P. M., and Sundays from 10 to 1.

IF YOU DO THIS YOU WILL COME TO ME AT THE START. BEFORE IT BECOMES CHRONIC IT CAN BE CURED IN A FEW DAYS, WHILE, IF LEFT ALONE OR IF NOT PROPERLY TREATED IT MAY BECOME INCURABLE AND MAKE YOU A WRECK.

Expert Medical Examination Free

For a cure every time and for the quickest, best treatment at a cost less than you will have to pay any other specialist in Portland.

I Charge Nothing to Prove My Methods Will Cure You

I AM FOR MEN

Longest Established.

These are the diseases which I have cured so many men—perhaps more than all other specialists in Portland.

Blood Diseases, Skin Diseases—I will give you treatment that will in a few days cure all rash, spots and every sign and symptom. My treatment gets the taint out of the system instead of driving it in, like other treatments. I cure blood diseases and skin diseases so they cannot come back.

Varicose Veins and Hydrocystic Tumors—My one-treatment cure is what you should have and what you will have to have to be cured right. Only one visit is required. I do no cutting and you suffer no pain nor trouble. All signs disappear in a few days.

Diseases of the Urinary System, Kidney and Bladder Diseases are scientifically cured by me. My methods immediately benefit you and the majority of cases I cure come from other Portland physicians who failed.

Nervous Debility—I get much praise and thanks from patients I cure of these troubles. From young men who are suffering because of early dissipation and from all who are tired, nervous, distressed, embarrassed and worthless because they are not strong and vigorous as they should be. You have to have such treatment as I give you—it is your fault if you don't let me cure you.

Not a Cent to Pay Unless Cured. | **Lowest Charges** of Any Specialist. | **Quickest Cures** That Stay Cured.

I know there are a great number of men seeking a cure for the diseases I treat; I know these men would be glad if they actually knew I am as successful as I claim to be in treating cases of their kind, as then they would not hesitate to come to me at once and get the benefit of

Quick, Certain Methods for Curing in 10, 20 and 30 Days

Everything Strictly Confidential. Separate Rooms for Privacy. The Most Complete Electrical Equipment West of New York. X-Ray Examinations Made in All Cases Where Necessary.
