## PROHIS HOPE TO **VOTE STATE DRY**

Anti-Saloon League Busy With Plan to Make Clean Sweep in 1910 Election.

NOT ONE COUNTY ALL WET

Nineteen Have Put Ban on Sale of Liquor, While 50 Per Cent of Others, Excepting Multnomah, Is Now Dry.

State-wide probligition is the issue that will be submitted to the voters of Oregon by the temperance people at the general election in November, 1910. Petitions are now being prepared for circulation call-ing for county probabilion in Grant and Harney Counties. This question will be submitted to a vote at an election to be held next November. The anti-saloon workers expect to submit the question of unty prohibition in still another county

this Pall, but are not prepared to an-nounce the name of the county. Under the operation of the local op-tion law during the last five years, not one of the 3t counties in the state is en-tirely wet. Nineteen are altogether dry, while, with the exception of Multnomah the sale of intoxicants is prohibited in more than 50 per cent of the territory of the other 15 counties. In Multioniah County the saloon has been placed under the ban in about 40 per cent of the area. Court Sets Aside Vote.

Since June, 198, the vote by which Carry, Grant and Jankson Counties went dry, has been set aside by the courts on technical grounds. As a result, only the presented in these counties which voted for prohibition are denied the right to sell liquor. There is dry territory in

Cursy County emerged from four years' drouth only last week, when Circuit Judge Cake held that the last election, when the question was submitted and carried by the cold-water people, was invalid and of the cold-water people, was invalid and of no force for the reason that the County Youri had falled to make the proper order which was necessary to make the result of the election legal. On technical grounds the result of the election by which Jackson and Grant Countles voted dry in June, 1998, has also been set aside by the courts. The vote in Jackson County was 1338 for and 1881 against; in Grant, 695 for and 673 against. More than 50 per cent of the territory of these counties, however, remains dry, as a result of former local option elections in those counties.

In Harney County, where the question of county prohibition is to be submitted this Fall, more than 50 per cent of the territory is already dry. An attempt to nullify the result of the election by which Union County went dry in 1208 was defeated on an appeal to the Supreme

The question of state prohibition in 1939 will be submitted in the form of a constitutional amendment rather than by a direct vote on saloons in the different counties. "We have not yet completed the details of the campaign we shall wage in support of such an amendment," said J. R. Knodel, superintendent of the Anti-Saloon League, yesterday, "but we are confident of having the state constituion so amended. Sentiment in favor of state prohibition is increasing.

Prohibition Makes Gains.

The practical rethose counties of the state where the sale of liquor has been prohibited under the provisions of the local option law are making for prohibition sentiment throughout the state. While the courts have set aside the result of the election in three of the countles which voted dry at the last election we have not been discouraged in our efforts. In those counties the expression of the voters undeniably favored a suppression of the sale of intoxicants. It has been only on technical grounds that their wishes have been temporarily defeated."

CLARNO WANTS MARBLE USED IN NEW COURTHOUSE.

Lawyers Petition Court to Consider Material in Which Local Citizens Are Interested.

Francis Cia: is determined to secure recognition for Alaska marble, in which he and others in this city are interested, and to that end is endeavoring to get County Judge Web-ster and the County Commissioners to agree to ask for bids for the new Courihouse on the basis of use of this stone. He states that the building will require \$333 tons. If purchased in Ver-mont, to be delivered in Portland, this, ne says, will cost \$60 a ton, or a total of \$490,580. He then proceeds to show

That in consideration of the rapid increase of our population and the great improvement in the size and character of our business blocks, we are justified in expecting our city, in a very few years, to have a population of half a million people, with a continued constant growth thereafter, and to contain a large number of expensive and beautiful buildings; and that our. Courrhouse abouth be built of such material that it will not suffer by comparison with the future buildings and improvements of the city.

That some of our reliable citizens who own large marble quarries, situate on the south arm of Moira Sund, Southeastern Alaska, have generously offered to contribute, graits to the county all the first-class marple of different coloring required for the construction and finishing of the new Courthouse, and that if constructed of that material it would endure for generations, and at all times be the prifts of our county and city.

concerning these timbers.
"When I told them on the ship today,"
said Mr. Dollar last evening, "that coolles were to carry the timbers six miles, lumbermen were incredulous. But in my office in San Francisco I have a photograph of coolles carrying timbers that squared 24 feet and were 80 feet long. They were unloaded from one of our ships and a snapshot was taken on the

I was astonished, as I had not even mentioned that fact to my own

"How did you find that out?" I asked "'Oh, you can't conceal anything from us over here, he replied. You know of the temple there, do you not?" he asked, and I replied that I did.

"'Well,' he said, 'I have decided to rebuild it, and I want the largest timbers that can be procured in the world, and I want you to get them for me.' 'How long do you want them?'

'One hundred and fifty feet,' he re-"'That is impossible,' I said. 'We

could not find a ship big enough to carry them, and they would have to be towed to get them here. "I want them as big as I can get them,' he said, and those are the tim-

bers we are now loading. "The timbers have been loaded on the main deck, and the bark has been left on, so that the logs themselves will not be chafed. When they reach China the bark will be peeled off and they will

be smooth and clean."
"When in hina I visited the Ling Yen Temple. The only way to get there is to ride in a sedan chair, or walk. The narrow road of rock has waik. The narrow road of rock has been worn by the feet of countless thousands of pilgrims to the temple shrine until it is hollowed out in the middle. We met and passed thousands of persons on the way. Over this road the timbers now at Linnton will be carried by coolles, a distance of six miles."

F you have a house or a room to furnish, here are fair questions: Do you want your furnishings, no matter how simple, to be correct in design, soft and pleasing in color, of genuinely good workmanship? Do you want each article, each room, to be part of a perfeetly harmonious whole-a scheme at once restful, beautiful and distinctive?

Such a treatment doesn't necessarily cost a cent more than an accidental, inartistic, hodge-podge treatment. It is purely a matter of good taste, intimate knowledge of interior decoration and carefully selected stocks.

This expert knowledge our decorators will be happy to place at your service. If you are building, call as soon as convenient, so that every detail of the furnishings may be carefuly planned in ad-

The police are searching for a fashionably-dressed mulattress, who, by her dexterity, transformed a \$5 picture hat into one three times its value in ten minutes, late yesterday afternoon. The transformation scene took place in the downtown shopping district, and at a time when the stores were thronged. The woman first visited the Ham-

Why the Bonus of Four Per Cent?

As is well known, our house has in the past promoted several publicity contests, where certificates have been issued; our experience has been that the cost of the prizes advertising, etc., has averaged 4 per cent of the volume of the business resulting therefrom. In this instance it has not cost us a cent for this expense, so we have determined to give our patrons the benefit of this saving. Each and every piano in our stock bears a card upon which is marked in plain figures the lowest price at which the instrument is sold. Select the piano you want, and if the price be, for example, \$245, deduct the amount of your prize check, plus 4 per cent, pay one-tenth of the balance in cash, and take 24 months—yes, \$3 morths—in which to finish payment of the balance, for the mere additional simple interest.
