

DIRECT CAUSE OF DEATH IS NAMED

Anaemia and Oedema of Lungs, but Lyle Does Not State Original Cause.

FLOWERS SENT BY CARLOAD

After Funeral Service at House, Attended Only by Family, Galaxy of Financiers Will Attend the Services in Church.

ARDEEN, N. Y., Sept. 11.—"Pericarditis anaemia of the lungs" was the chief cause of Edward H. Harriman's death as officially stated by Dr. W. G. Lyle of New York, tonight, his physician in the death certificate filed at the Town Clerk's office at Highland Mills.

There was no mention of cancer, but it was noted that the word "chief" was inserted in the printed form after the question, "cause of death." Popularly interpreted, anaemia is an impoverishment of blood; pericarditis, therefore, is a severe form of the disease.

The certificate first filed stated the cause of death to be merely "heart failure, superinduced by internal complications," but the Town Clerk at Highland Mills insisted upon a more specific description of the malady.

Leaders of Finance to Mourn

Between 50 and 60 of the country's most prominent men, including financiers, lawyers and men well known in the business world, will attend the funeral of Edward Henry Harriman Sunday afternoon. They will come from New York on special trains. At St. John's Episcopal Church, near the foot of the Tower Hill, they will join the group of mourners, who will have accompanied the funeral procession from Arden House.

Several hours before the arrival of the New York visitors, a procession of 500 workmen employed on the Harriman estates will march slowly over the road leading to the palace on the hill. Processions have not been omitted to protect the funeral car on its way down the hill. Sixteen of the most prominent workmen will act as a guard of honor.

Only Family at House

The ceremony at the house at 10 A. M. will be a communion service, conducted by the family chaplain, the Rev. Dr. J. Holmes McGuinness. None will be present but Mrs. Harriman and her children. At 11 o'clock the public service will be held at St. John's Church, at which Dr. McGuinness will deliver the only eulogy.

No pains have been spared to make the funeral itself at 3 o'clock as private as possible. To prevent the intrusion of persons not specially bidden, 60 men will guard all the approaches to the church and the three miles of road over which the funeral cortege will wind. The town boards of Woodbury and Tuxedo voted today to close the road in these townships leading to St. John's Church. All the automobiles of respect none is more striking than that of the Erie Railroad that runs through Arden. Every train on this system will stand still between 3:30 and 4 P. M. Sunday, while the funeral services are in progress.

Carloads of Flowers

The steel casket in which Mr. Harriman's body was transported this afternoon. In this all that remains of the great railroad man will be hermetically sealed before it is lowered into the brick-lined vault below the rock of the hill. It is estimated that the flowers already received and yet to come will fill four freight cars. There was a steady stream of carriages and automobiles all day, bringing the tributes up to Arden House.

Mrs. Harriman ordered that all the flowers be sent direct to the church. Floral tributes have accumulated at the Erie station in Jersey City in such quantities that two special cars will be used to bring them up to Arden House tomorrow morning.

Hundreds of Telegrams

The telegraph office has received more than 400 messages expressing condolence. Messages from Mrs. Nicholas Longworth, J. P. Morgan, Thomas F. Ryan and Charles P. Taft were among those that came today.

Dr. William M. Crowell Donah, the Episcopal bishop of Albany, who has been invited to assist in conducting the funeral services, notified the family that it would be impossible for him to do so. In view of this, Dr. McGuinness will probably be assisted only by Archbishop Nelson, of St. John's, New York.

ALL TRAINS TO STAND STILL

Railroads Across Continent Will Pay Respect to Harriman.

NEW YORK, Sept. 11.—The action of the Union Pacific and Southern Pacific Railroad systems in suspending operations for one minute during the funeral of Edward H. Harriman Sunday afternoon will be followed by most of the other railroads in which the financier was interested and by other lines. The Erie and the Delaware & Hudson, it was said, would join the Western Harriman lines and the Illinois Central may show the same mark of respect. For that one minute on Sunday afternoon not a wheel will be turned on any part of the 15,000 miles comprising the Union and Southern Pacific systems, and the same quiet may be observed on other systems included in the 20,000 miles of railroad which, to a greater or less degree, were under the domination of E. H. Harriman.

The last time any such mark of respect was shown by the transportation systems of the country was on the occasion of the funeral of President McKinley. It was recalled yesterday that any such cessation of railroad operation on the scale which it is to be done on Sunday was never ordered for any private individual. All the offices of the Harriman railroads will be closed today. Already the flags at all points on the system are at half-mast, and so, too, are those of the Erie Railroad. Thus across the entire continent flags are at half-mast for the man who was regarded as the greatest railroad man that this country, or the world, for that matter, ever knew. The system of railways which he brought under his control, across the continent and the marks of respect to his memory reach from the Atlantic to the Pacific.

CANCER WAS CAUSE OF DEATH

Operation Delayed Till Harriman Too Weak to Survive.

NEW YORK, Sept. 11.—Among the physicians in this city who have had wide experience in such cases, the diagnosis made by Dr. Schrempel, the Vienna can-

cer specialist, that Mr. Harriman was afflicted with a cancer, is accepted as plausible and conclusive. Carcinoma is the species of cancer in which fatalities usually occur. When a death is reported, the profession assumes that carcinoma caused it unless another form is specifically named. Carcinoma is deep-seated and attacks vital organs. It is defined as a malignant tumor composed of a connective tissue body surrounding groups or nests of epithelial cells. It lives on the tissue and death results from absorption or from the transmission of the poison through the body by means of the glands.

Operations may eliminate carcinoma if they are performed at an early stage. In Mr. Harriman's case, in the opinion of physicians, an operation was not seriously considered until he had become too weak to survive it. Supposedly, cancer in this case was strengthened by the known symptoms displayed by Mr. Harriman and the duration of his illness. Loss of appetite, indigestion, nausea, anxious expression and noticeable pallor were symptoms of which the public had knowledge ever since Mr. Harriman's health became a matter of general concern.

HERMIT IS SHOT DEAD

RECLUSE MEETS MYSTERIOUS END IN WOODS.

Dead Man's Identity Only Guessed At, and Assassin's Motives Are Difficult to Fathom.

BELLINGHAM, Wash., Sept. 11.—(Special.)—Shot through the head from ambush while he sat alone in sorrowful reflection outside his little shack in the forest near Acme was the death of "Hermit Smith," who fled from civilization 18 months ago and has never made his identity known to the few mountaineers who saw him alive.

He was looked upon as a fugitive from justice by those who saw him occasionally, say the officers, and seemed to brood over some rankling sorrow. About three weeks ago Sheriff Stevens, of Skagit County, went to Smith's shack for the purpose of arresting him on a charge of insanity. After an interview the Sheriff decided that the man was sane.

An empty rifle cartridge was found in a clump of bushes about 100 yards from the spot where the corpse was found lying against a tree. The body is about a week old. The mystery is complete. The authorities can only guess at who Smith is and say they have no idea of the unknown assassin's motive in committing the crime.

TAFT WILL MEET PEOPLE

(Continued From First Page.)

It is about to start with an emotion akin to that which characterized some persons of a different temperament would be denominated trepidation. He is going from a section of the country where the sentiment is largely "let well enough alone" plump into the progressive West, where sits the present balance of political power, where the people are alive to reform abuses, and there is a mighty sight of independence of thought, which later may develop into independence of action that will cause the rest of the country to take larger notice than heretofore.

To give account of his stewardship during the important half year since he was inaugurated, to meet the people who are inquiring "How about this tariff revision?" to make it clear to those who cast the votes that determined the last election, that the man who appeared before them a year ago as a candidate is the same man who now wears the title of President, and that fulfillment of promises is the highest aim of the Administration, which he has organized—here, again, in another form is the object of the swing around the circle.

It is with full realization of the serious situation that confronts the party in some of the Western states with respect to the Congressional elections, that President Taft will be seen at Portland. Portland will be the scene of activity on Saturday, October 2, and Sunday evening the party will leave for Sacramento, San Francisco will be reached Tuesday morning, and the day and night will be spent there.

TAFT REVIEWS G. A. R. PARADE

President, Watching Old Soldiers, Draws Record Crowd.

BEVERLY, Mass., Sept. 11.—Beverly was crowded as never before this afternoon when President Taft reviewed a parade of some 1,600 Grand Army men belonging to posts in this vicinity. At the time the President entered the review, the band played "The Star-Spangled Banner" and the throng was so great that it looked for a time as if the parade would have to be abandoned. Once the crowd caught sight of President Taft, however, and cheered for several minutes, better order prevailed. In addition today to reviewing the Grand Army men and announcing the selection of the new tariff commission, President Taft conferred with Attorney General Wickersham Sunday. Secretary Meyer, of the Navy, and Secretary MacVeagh, of the Treasury, may also be the President's guests today.

RIOT STARTER GETS DEATH

Greek Sentenced to Hang for Instigating Omaha Trouble.

OMAHA, Sept. 11.—John Manourides, the Greek who killed Officer Lowery last February, thus starting the South Omaha riots, was today sentenced to be hanged by the gallows. After the killing, a mob formed and drove all the Greeks out of South Omaha, several persons being wounded and considerable property destroyed. Manourides was sentenced to hang for instigating the riot. He was sentenced to hang for instigating the riot. He was sentenced to hang for instigating the riot.

ASTER SHOW IS POPULAR

Splendid Flowers Are Put on Display at La Grande.

LA GRANDE, Or., Sept. 11.—(Special.)—La Grande's popular annual event, the Aster Fair, was held today. After four years it was found in the fair today that the cultivation of asters had been almost doubled each year by the exhibitors.

The aster now holds a place in the front rank of the Grande Ronde Valley's floral productions.

HILL HITS PLAN TO GET CONCESSIONS

Instigates Attack on Land Grant of Southern Pacific in California.

WANTS OUTLET TO SOUTH

Suit to Forfeit \$35,000,000 in Oil Land Part of Movement to Secure Entrance to Southern California.

LOS ANGELES, Cal., Sept. 11.—(Special.)—James J. Hill is declared to be back of the sensational attack on Southern Pacific titles to \$35,000,000 worth of oil lands in the Coalinga, Midway and other districts. The papers in this suit were filed in the United States Circuit Court here today by T. S. Minot, a San Francisco lawyer. Mr. Minot made the positive statement today that the hand of Mr. Hill is directing the action and that the real purpose is to force concessions from the Southern Pacific by which Mr. Hill will gain entrance to Southern California for his network of railroads in the Northwest and by which he will also gain an outlet to the Gulf of Mexico.

The suit is directed against the Southern Pacific Company of California, and was to have included as defendants E. H. Harriman and others of National prominence in the railroad world. The sudden death of Mr. Harriman prevented the filing of the bill yesterday as intended.

"Mr. Hill has for years been attempting to gain an entrance to Los Angeles," said Mr. Minot, "and he believes the time now ripe for a campaign against the Southern Pacific which will force it to give him an entrance. Such a line would make a shorter haul from the Gulf and Cotton states to Puget Sound and would give his network of roads a big share of the Pacific Coast freight business."

Mr. Minot stated that Mr. Hill's plan of attack contemplates many other suits against the Southern Pacific, involving that company to such an extent that it would be glad to make the concessions demanded by Mr. Hill.

QUESTIONS OIL LAND TITLE

Suit Involves Government Patents in California.

LOS ANGELES, Sept. 11.—Suit was filed today in the Federal Court here involving title to oil bearing lands in the Coalinga, Midway and other oilfields of Central California, said to be worth upwards of \$35,000,000 and now held by the Southern Pacific Company of California. The suit is filed by T. S. Minot, an attorney of San Francisco. The total area of land involved is about 500,000 acres. It is granted to the Southern Pacific Railroad Company more than 40 years ago. Patents were granted several years ago. It is the validity of the Government patents which is now attacked, the contention being that the patents were granted on the express stipulation that it must be found to be more valuable for agricultural purposes than for minerals. The railroad received alternate sections for 20 miles on either side of its tracks. Attorney Minot has not disclosed who his clients are, but a statement published by a local newspaper today credits him with representing J. J. Hill of the Great Northern Railway.

BIRDS HELD BENEFICIAL

Lecturer Finds Few Cases in Which They Harm Fruit.

Dr. F. E. L. Beal, ornithologist for the United States Department of Agriculture and at present in the Biological Survey, lectured last night at the City Hall before the State Audubon Society on "Economic Value of Birds."

Dr. Beal has been engaged in the scientific study of birds for the last 18 years and for some time has been working in various sections of Oregon. His method is to study the stomachs of birds, and by ascertaining what kind of food they eat determine whether they are harmful or beneficial to crops. Dr. Beal was called into this section because a few fruit-growers said the birds were doing great injury to their fruit. He said last night he had found very few instances where the birds have done injury to the fruit and, on the other hand, that birds are a great benefit in protecting the fruit trees from various injurious insects.

Bishop Hendrick III.

ROCHESTER, N. Y., Sept. 11.—A cablegram received today states that Bishop Thomas A. Hendrick, of Cebu, Philippine Islands, is seriously ill. The bishop came from the auxiliary bishop in the Philippines. The nature of the illness is not stated.

A KUHN ENTERPRISE.

Twin Falls Oakley Project—\$8,000 Idaho's Cheapest Acres.

On Monday, September 20, at 10 o'clock A. M. at Milner, Idaho, a Carey act drawing under the supervision of the State Land Board of Idaho, will take place.

Prices per acre, the flower of all Idaho, including water rights, \$5.50; \$2.50 in cash per acre at time of filing; balance in 11 annual payments, 6 per cent interest; to interest charged until water is ready for delivery, which will be April 1, 1911.

Milner and Oakley will be the trading points for this great tract, and will soon be linked together by a railroad from Gooding to Milner via Wendell to Jerome and under construction from Jerome to Milner.

The enterprise is being financed by J. S. and W. S. Kuhn, who, during a long business career, have made a fortune in every instance. The management will be the same as the Twin Falls North Side, Twin Falls Salmon River and Idaho Southern Railroad and all the power development of Lincoln and Twin Falls Counties. Write for prospectus, Address: Twin Falls Oakley Land & Water Company, Milner, Idaho.

PLIGHT IS TRAGIC

Eloping Girl Sick in Portland Hospital.

MOTHER KEPT FROM HER

Despite Parents' Protests, Child Deserts Aberdeen Home to Go With Motorman, Who Is Arrested on Abduction Charge.

WIRE BONDS INVOLVED

ABERDEEN, Wash., Sept. 11.—(Special.)—Lying on a bed of pain in a Portland hospital, suffering from blood poisoning, and with her life hanging by a slender thread, pretty Genevieve Ward, the 15-year-old daughter of Mr. and Mrs. John Ward, of this city, who disappeared from her home here two weeks ago, in company with Ernest Scott, a man old enough to be her father, is fighting for life while her heartbroken mother anxiously awaits news from the sick room she is not permitted to enter, and the alleged author of the trouble is held in a cell in the Portland City Jail under \$1500 bonds.

This is the substance of a telegram received here today by Chief of Police George Dean, and spells the sequel to an elopement. Miss Ward, who was employed as a clerk in a fruit store, became infatuated with Scott, a man about 40, employed by the local street railway company as motorman.

The girl's parents did what they could to break up the attachment, but in vain, and one morning both disappeared. Telegrams were sent to every city on the coast, and the couple were located at Vancouver, Wash., where they passed as man and wife, although the police declare that they were never married.

Before they could be apprehended the couple disappeared, but were traced to Portland, where they were said to be living as "Ernest Lambert and wife." Learning this, Mrs. Ward went at once to Portland to bring action for abduction against Scott under the laws of Oregon. On arrival in Portland she learned for the first time that her daughter was in a hospital dangerously ill. While Scott was working on the electric line between Portland and Salem.

She swore out a warrant today, the messenger, charged with abduction, and the latter was arrested by the Portland police and held under \$1500 bonds.

COUPLE HERE THREE MONTHS

Scott Refuses to Discuss Case and Is Kept in Jail.

Ernest Scott and Genevieve Lewis were arrested on a warrant by Detective Hawley, of the local Police Department yesterday noon. Both were placed under \$1500 bonds. Scott is now confined in a cell at the City Jail in default of bonds. The young woman is confined in a local sanitarium to recover from the effects of blood poisoning.

The pair has resided in this city at the home of the girl's aunt, at Sixteenth and East Ankeny streets, for the past three months. They posed as man and wife. Two weeks ago the girl, who is but 15 years of age, was removed from her aunt's home to the sanitarium. Scott is 25 years of age and refuses to discuss his predicament.

WIRE BONDS INVOLVED

TELEPHONE MEN ACCUSED OF MISAPPROPRIATION.

Judge Willis Says Transaction Was Legal—Action an Effort to Force Sale of Stock.

LOS ANGELES, Sept. 11.—(Special.)—An action involving bonds of the Northwestern Long-Distance Telephone Company was brought in the Superior Court today by Charles E. Sumner. The defendants are William Mead, J. T. Anderson, H. D. Perry, O. Bloomfield and the Northwestern Telephone Company and G. E. Newlin, F. E. Newlin and Hervey Lindley, directors.

The petition accuses the defendants of misappropriating \$24,000 of bonds. The plaintiff alleges that in 1904-5 he secured valuable franchises and telephone rights in Oregon and Washington and entered into an agreement with Mead for the organization of the defendant company. February last, the complaint says, the defendant company provided for the issue of \$200,000 bonds to be delivered to P. I. Willis, of Portland, Ore., for bonds of the Home Telephone & Telegraph Co., of Portland and the Home Telephone Company of Puget Sound. It is alleged that this action was illegal.

Judge P. I. Willis, of this city, who is mentioned in the foregoing dispatch, said last night:

"I think it will be found that the transactions were made in good faith and that there has been no misappropriation of funds. The deal of which Mr. Sumner complains is using Northwestern Long-Distance Telephone Company bonds in the purchase by the holding company of properties of other telephone companies. The Northwestern Long-Distance Telephone Company has sold out to the Independent Long-Distance Company, the
