Taft Has Busy Day.

The President had a busier time than he expected on this, the second day of his stay here. With Governor Spry. Senator Smoot and others of the local committee to accompany him, he break-fasted at the Commercial Club, made an excursion to Saltair and saw the great Salt Lake for the first time, attended an organ recital at the Mormon Tabernacie, and expressed to the organist and to the soloists who helped in the programme his appreciation of their plendid music; had luncheon, and spent the early afternoon at the Country Club; held a public reception and spoke out of doors at Liberty Park at a meeting presided over by the Mayor of the city; held a reception tonight at the University Club for Yale graduates and Ohioans resident in Salt Lake, and ended up the day at a panquet in his honor at the Aita Club.

Factions Smoothed Over.

The excursion to Saltair was arranged by Senator Smoot, and on it the President was introduced to a large number of men prominent in the affairs of the church, in-cluding President Joseph F. Smith. President Smith sat with President Taft during the organ recital.

In an endeavor to enlighten the people, several doctors yesterday questioned them as to the nature of their water supply. It appeared that, although they had been warned not to use the well water on their ranch, they still continued to do so for the sake of convenience, even though several of the family were ill.

"It can't be the water," said Adolph Frosman yesterday, "because we have used it before, and have never taken typhoid fever from it. Besides, other peo-ple use if occasionally, and they haven't the fever like we have. Why, yes, they will continue to use the well; we never got the fever from it."
