

BAYOCEAN

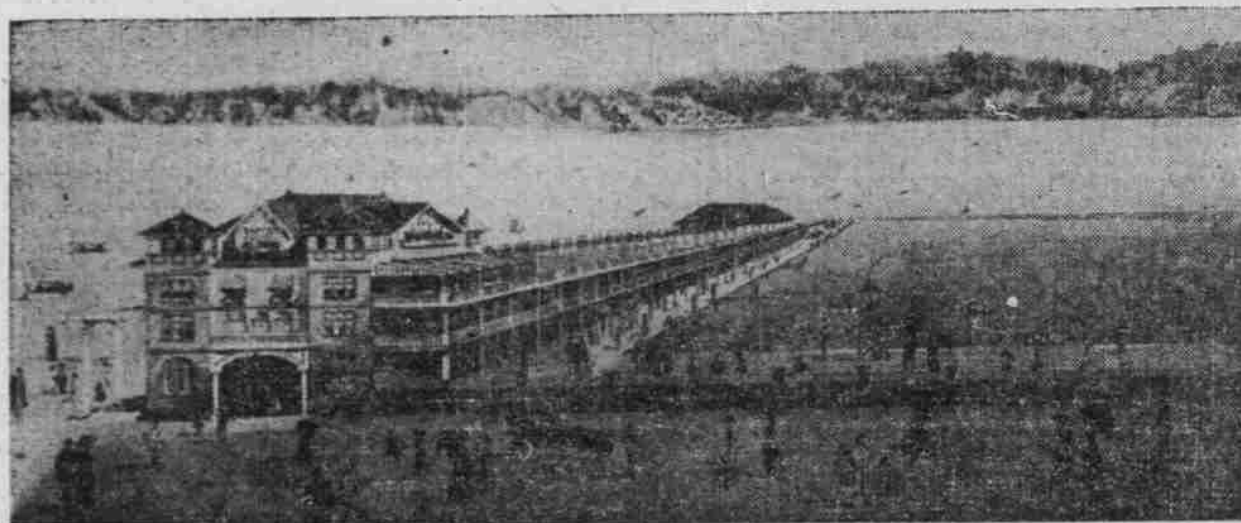

HOTEL BAYOCEAN

OCEANSIDE NATATORIUM.

BAYOCEAN THEATER.

OPEN-AIR NATATORIUM.

BAYOCEAN RESTAURANT.

The originals of these pictures and the architects' plans from which they were drawn will be on exhibition in the windows of the J. K. Gill Company, book-sellers and stationers,

Third and Alder streets, this week

One of the first men who saw these views exclaimed: "These are beautiful pictures, but surely your artist just imagined them".

In this he was absolutely wrong, for these pictures have been very carefully drawn from the architects' plans which are now in our office. The plans of these five buildings are the result of over one year's careful thought and study by architects and resort experts.

Furthermore these features are a part of the BAYOCEAN that we guarantee to the lot purchasers—the BAYOCEAN that will give to the Northwest its only fully improved and perfect Beach Resort.

During the next few days we will publish a series of advertisements taking up in minute detail each one of the big features here pictured. These advertisements will be worth reading. Watch for them.
