WE ANNOUNCE THE OPENING OF OUR FREE COOKING SCHOOL

The object will be to teach in a healthful, practical and economical way the preparation of food; the various ways in which kitchen utensils should be used and the proper arrangement of the kitchen, etc. Mr. H. F. Grant, Chef Steward in connection with our Tea Room, who will instruct during this event, is a former pupil of Messieurs Gordon and Gene Nicot, well known as master chefs in the culinary world, having been connected with the Netherlands Hotel, New York; Arlington Hotel, Washington, D. C.; Hotel de Holland, Paris; Cafe American, Amsterdam; Astor House Hotel, Shanghai, and other places of note. The experience gained thereby stands him in good stead and has given him a broad knowledge of the culinary art both in America and abroad. The lessons will start with the elementary preparations, i. e., the preparing of soup stocks, sauce stocks, the cutting of garnishes for entrees, etc., with an explanation of the chemistry of the different condiments. The cooking school, which will commence tomorrow, will be conducted in the Basement from 3 to 4:30 P. M. Mr. Grant will use in his work the "South Bend Malleable" Range and the "New Process" Gas Range. Announcement will be made from time to time as to what will be prepared each day.

Your Thanksgiving Dinner Will Be a Success if Cooked on a SOUTH BEND Malleable

The most important part of the kitchen equipment is the range, for good material and a good cook avail little if the range on which the cooking is done be poor. If we go back far enough we picture the fair sex of primitive days kneeling by a fire in the center of a cave, tent or wigwam, enveloped in a cloud of smoke, the fire having been kindled by the rubbing of sticks together.

Today it is the great modern range. The highest development in cooking devices has been reached in the "South Bend Malleable"—a combination of malleable iron and steel—the very highest type made and sold in the world today. Your meals will always be "just right" if cooked on the "South Bend Malleable"—the range which ranks first in the heart of the home. There is no reason why one of these should not occupy a place in your kitchen when such advantageous terms as these are offered.

THIRTY DAYS' FREE TRIAL AND THEN \$5.00 DOWN AND \$5.00 EACH MONTH THEREAFTER

Just a few minutes of your time will be well spent in investigating the superior baking and cooking qualities of the "South Bend Malleable." Plan to attend the free cooking school and see it in actual operation. Every afternoon this week from 3 to 4:30.
