### The Greatest Triumph in Piano Building

# Weber Grand Pianola Piano

Now On Display at Eilers Piano House

IN successfully combining the Grand Piano with the PIANOLA, the makers of the Weber Grand PIANOLA Piano have achieved one of the greatest triumphs in piano history.

The Grand has always been regarded as the finest example of the piano-maker's art. Now, by making the PIANOLA an integral part of the instrument, the Grand assumes a new musical significance and becomes of interest to persons hitherto content with an Upright.

Additional importance is given to this achievement by the high standing of each of the instruments involved. For over a half-century the Weber has been renowned for the richness and beauty of its tone; while all over the world the PIANOLA is recognized as the standard piano-player.

The Weber Grand PIANOLA Piano's reception has been remarkable. From musicians, from leading manufacturers of musical instruments, and from the great number of musical people who have seen it, have come endorsements rivaling in their enthusiasm those evoked by the invention of the PIANOLA itself.

It's equipped to play the regular standard roll, and also the full-scale roll, covering every note (88) of the entire keyboard.

No music-lover—no one interested in music, or the development of means for producing music, would wish to remain in ignorance of the Weber Grand PIANOLA Piano.

A Cordial Invitation to Call and Hear the Weber Grand PIANOLA Piano is Extended to Everyone, Irrespective of any Question of Purchase

All instruments selected now will be delivered as Christmas gifts at any home and day desired. Make reservations now.
