Nemo Corsets an Art in our Store

A Triumph in Corset Modeling No. 522

—Assembling in this new corset comfort, poise and a superb figure. It is a "Self Reducing" model. Its remarkable, over-shadowing superiority over all other corsets is found in a new figure reducing device called the "LASTIKOPS BANDLET."

—The bandlet is a great improvement over the well known relief straps or even the newer relief bands.

—It is made of "Lastikops Webbing" and being partly elastic it follows the curves of the lower abdomen and gives a very firm but gentle support from underneath.

—It enables you to lace as tightly as you wish without the slightest danger; therefore will give you an extremely fashionable slenderness without discomfort.

—Unlike belts which are bulky and inconvenient, "Lastikops" bandlet takes the place of the best abdominal belt you can buy at \$5.00 to \$25.00.

—If you are stout you must try this new corset. If you are of a medium figure or even slender it will appeal to you as well.

—As it is the new Spring model, equipped with this great figure reducer, for which there is no extra charge, this corset must appeal to all women desirous of having a perfectly comfortable yet fashionably slender figure.

Mrs. Dean, the Nemo Expert Corset Fitter,

—Was sent direct from New York to our store to demonstrate and acquaint the women of Portland with this new corset.

—We extend an invitation to all women to come to the store to see and learn the advantages of this corset over all others.
